Division 6, Carbon Monoxide Detection Systems.....	281
Subchapter X, Transportation	284
Appendix I: Definitions	298
Appendix II, Vaccine-Preventable Diseases.....	302

Introduction

Minimum Standards

The minimum standards tell you (the child care operation permit holder) what requirements you, your employees, and your caregivers must follow.

These minimum standards:

- were developed by the Texas Health and Human Services Commission (HHSC) with the assistance of child-care operations, parents, stakeholders, and other experts in a variety of fields;
- reflect what the citizens of Texas consider reasonable and minimum; and
- meet the guidelines set forth in Chapter 42 of the Texas Human Resources Code (law) for what must be included in the minimum standards.

The Administrative Procedure and Texas Register Act requires that proposed minimum standards be published for public comment before they are adopted as rules. All members of the public, including providers, are encouraged to provide input when proposed minimum standards are published for public comment. The commission considers recommendations from interested persons or groups in formulating the final draft, which is filed as rules with the Secretary of State.

Deficiencies

A deficiency is any failure to comply with a minimum standard, rule in Texas Administrative Code Chapter 745, law, specific term of the permit, or specific condition of probation or suspension.

Weights

The minimum standards and rules are weighted based on a common understanding of the risk to children presented if the standard or rule is violated. The weights are high, medium-high, medium, medium-low, and low. The assigned weights do not change based on the scope or severity of an actual deficiency. Scope and severity are assessed by Child Care Regulation (CCR) staff, documented, and considered in conjunction with the weight when making CCR decisions. *You will see the weight is noted at the end of each standard or subsection in green. Only those minimum standards and rules which can be cited as a deficiency are weighted. For example, the minimum standard prohibiting physical discipline is weighed but standards that are definitions are not weighted.*

Maintaining Compliance

It is essential that you, your employees, and your caregivers recognize four critical aspects of CCR's efforts to protect the children in care and to help operation employees and caregivers comply with the law, rules, and standards. The four aspects are:

- Inspection
- Technical assistance
- Investigations
- Caregiver's rights and entitlements

The Inspection

Various aspects of regulated operations are evaluated for compliance with the minimum standards, rules, and law during regular inspections. The emphasis on these inspections is to prevent risk to children in care. The frequency of inspections will fluctuate depending on the type of permit and the operation's history of compliance with the minimum standards, rules, and law.

During any inspection, if we find that your operation does not meet minimum standard, rule, or law, the deficiencies are discussed with the person in charge at the time of the inspection. You will be given an opportunity to correct deficiencies within a specified period of time. If you have questions, concerns, or disagree with the citation, we encourage you to talk with us before we leave your operation. If your concerns are not resolved, you may request an administrative review.

Technical Assistance

We are available to offer consultation to potential applicants, applicants, and permit holders regarding how to comply with minimum standards, rules, and laws. While we most often provide technical assistance during inspections and investigations, technical assistance can be requested at any time.

The Child Care Regulation section of the HHSC website has a Technical Assistance Library that allows you to view or download information about a variety of topics related to child care. You can view it by going to <https://hhs.texas.gov/doing-business-hhs/provider-portals/protective-services-providers/child-care-licensing> and selecting *Technical Assistance Library* from the Resources section.

A feature of the minimum standards publication are the Technical Assistance boxes that follow certain minimum standards to provide additional guidance, clarification, resources, and/or best practices related to the applicable rule.

Investigations

When a report alleges a violation of minimum standards, rule, or law, CCR must investigate the report, notify you of the investigation, and provide a written report to you of the investigation results within prescribed time frames.

When a report alleges abuse, neglect, or exploitation, the Department of Family and Protective Services must investigate the report, notify you of the investigation, and provide a written report to you of the investigation results within prescribed time frames.

Your Rights and Entitlements

Waivers and Variances

You may request a waiver if your operation is unable to comply with a standard for economic reasons. You may request a variance if your operation wishes to meet the intent of a standard in a way that is different from what the standard specifies. Waiver and variance requests are submitted through your online provider account or made in writing to your assigned CCR inspector.

Administrative Review

If you disagree with a CCR decision or action, you may request an administrative review, during which you are given an opportunity to show compliance with applicable minimum standard, rule, law, action, permit restriction(s) and/or permit condition(s).

Appeals

You may request an appeal hearing on a CCR decision to deny an application, revoke, suspend, or refuse to renew a permit or a condition placed on the permit after initial issuance.

Appeal hearings are conducted by the State Office of Administrative Hearings (SOAH).

For Further Information

It is important that you, your employees, and your caregivers clearly understand the purpose of minimum standards and the reasons for CCR's inspections and investigations. Do not hesitate to ask us questions that will help you understand any aspect of our regulation. You may obtain information about minimum standards or procedures by calling your local CCR office or by visiting the HHSC Website at <https://hhs.texas.gov/doing-business-hhs/provider-portals/protective-services-providers/child-care-licensing>.

Subchapter A, Purpose, Scope, and Definitions

Division 1, Purpose

§746.101. What is the purpose of this chapter?

Subchapter A, Purpose, Scope, and Definitions Division

1, Purpose

September 2003

The purpose of this chapter is to set forth the minimum standards that apply to child-care centers.

Division 2, Scope

§746.111. What types of operations do these minimum standards apply to?

Subchapter A, Purpose, Scope, and Definitions Division 2,

Scope

April 2017

The minimum standards in this chapter apply to:

Licensed child-care centers; and

Any unlicensed child-care center that is subject to Licensing's regulation and requires a license per Chapter 42 of the Human Resources Code.

§746.113. Who is responsible for complying with these minimum standards?

Subchapter A, Purpose, Scope, and Definitions

Division 2, Scope

April 2017

- (a) For a licensed child-care center, the permit holder must ensure compliance with all minimum standards in this chapter at all times, with the exception of those minimum standards identified for specific types of child-care programs or activities that the center does not offer. For example, if we license the center to offer only toddler and pre- kindergarten care programs, the center does not have to comply with minimum standards that apply only to infant care, school-age care, get-well care, or nighttime-care programs; however, the center must comply with all other minimum standards. [Medium-High]
- (b) For an unlicensed child-care center that is subject to Licensing’s regulation, the center’s director, owner, or operator or any other controlling person who has the ability to influence or direct the center’s management, expenditures, or policies must ensure compliance with all minimum standards in this chapter at all times, with the exception of those minimum standards identified for specific types of child-care programs or activities that the unlicensed center does not offer. [Medium-High]

Division 3, Definitions

§746.121. What do certain pronouns mean when used in this chapter?

Subchapter A, Purpose, Scope, and Definitions

Division 3, Definitions

March 2023

The following words have the following meanings when used in this chapter:

- (1) I, my, you, and your – An applicant or permit holder, unless otherwise stated.
- (2) We, us, our, and Licensing – The Child Care Regulation department of the Texas Health and Human Services Commission (HHSC).

§746.123. What do certain words and terms mean when used in this chapter?

Subchapter A, Purpose, Scope, and Definitions

Division 3, Definitions

September 2024

The words and terms used in this chapter have the meanings assigned to them under §745.21 of this title (relating to What do the following words and terms mean when used in this chapter?), unless another meaning is assigned in this section or another subchapter or unless the context clearly indicates otherwise. In addition, the following words and terms used in this chapter have the following meanings unless the context clearly indicates otherwise:

- (1) Activity plan--A written plan that outlines the daily routine and activities in which a group of children will engage while in your care. The plan is designed to meet the children's cognitive, language, social, emotional, and physical developmental strengths and needs.
- (2) Activity space – An area or room used for children's activities, including areas separate from a group's classroom.
- (3) Administrative and clerical duties – Duties that involve the operation of a child-care center, such as bookkeeping, enrolling children, answering the telephone, and collecting fees.
- (4) Admission – The process of enrolling a child in a child-care center. The date of admission is the first day the child is physically present in the center.
- (5) Adult – A person 18 years old and older.
- (6) Age-appropriate – Activities, equipment, materials, curriculum, and environment, including the child's assigned classroom, that are developmentally consistent with the developmental or chronological age of the child being served.
- (7) Alternate care program – A program in which no child is in care for more than five consecutive days, and no child is in care for more than 15 days in one calendar month, regardless of the duration of each stay.
- (8) Attendance – When referring to a child's attendance, the physical presence of a child at the child-care center's program on any given day or at any given time, as distinct from the child's enrollment in the child-care center.
- (9) Body of water--As defined by Texas Health and Safety Code, Chapter 341, Subchapter D (relating to Sanitation and Safety of Facilities Used by Public).
- (10) Bouncer seat – A stationary seat designed to provide gentle rocking or bouncing motion by an infant's movement, or by battery-operated movement. This type of equipment is designed for an infant's use from birth until the child can sit up unassisted.

- (11) Caregiver – A person who is counted in the child to caregiver ratio, whose duties include the supervision, guidance, and protection of a child. As used in this chapter, a caregiver must meet the minimum education, work experience, and training qualifications required under Subchapter D of this chapter (relating to Personnel). A caregiver is usually an employee, but may also be a substitute, volunteer, or contractor, as outlined in paragraph (20) of this section and Subchapter D, Division 5 of this chapter (relating to Substitutes, Volunteers, and Contractors).
- (12) Certified Child-Care Professional Credential – A credential given by the National Early Childhood Program Accreditation to a person working directly with children. The credential is based on assessed competency in several areas of child care and child development.
- (13) Certified lifeguard – A person who has been trained in life saving and water safety by a qualified instructor, from a recognized organization that awards a certificate upon successful completion of the training. The certificate is not required to use the term "lifeguard," but the permit holder must be able to document that the certificate is current, relevant to the type of water activity in which children will engage, and represents the type of training described.
- (14) CEUs--Continuing Education Units – A standard unit of measure for adult education and training activities. One CEU equals 10 clock hours of participation in an organized, continuing-education experience, under responsible, qualified direction and instruction. Although a person may obtain a CEU in many of the same settings as clock hours, the CEU provider must meet the criteria established by the International Association for Continuing Education and Training to be able to offer the CEU.
- (15) Child – An infant, a toddler, a pre-kindergarten age child, or a school-age child.
- (16) Child-care center – A child-care facility that is licensed to care for seven or more children for less than 24 hours per day, at a location other than the permit holder's home. If you were licensed before September 1, 2003, the location of the center could be in the permit holder's home.
- (17) Child-care program – The services and activities provided by a child-care center.
- (18) Child Development Associate Credential – A credential given by the Council for Professional Recognition to a person working directly with children. The credential is based on assessed competency in several areas of child care and child development.
- (19) Clock hours – An actual hour of documented:
- (1) Attendance at instructor-led training, such as seminars, workshops, conferences, early childhood classes, and other planned learning opportunities, provided by an individual or individuals as specified in §746.1317(a) of this chapter (relating to Must the training for my caregivers and the director meet certain criteria?); or
 - (2) Self-instructional training that was created by an individual or individuals as specified in §746.1317(a) and (b) of this chapter, or self-study training.

- (20) Contract service provider--A person or entity contracting with the operation to provide a service, whether paid or unpaid. Also referred to as "contract staff" and "contractor" in this chapter.
- (21) Corporal punishment – The infliction of physical pain on a child as a means of controlling behavior. This includes spanking, hitting with a hand or instrument, slapping, pinching, shaking, biting, or thumping a child.
- (22) Days – Calendar days, unless otherwise stated.
- (23) Employee – a person a child-care center employs full-time or part-time to work for wages, salary, or other compensation. Employees are all of the child-care center staff, including caregivers, kitchen staff, office staff, maintenance staff, the assistant director, the director, and the owner, if the owner is ever on site at the center or transports a child.
- (24) Enrollment – The list of names or number of children who have been admitted to attend a child-care center for any given period of time; the number of children enrolled in a child-care center may vary from the number of children in attendance on any given day.
- (25) Entrap – A component or group of components on equipment that forms angles or openings that may trap a child's head by being too small to allow the child's body to pass through, or large enough for the child's body to pass through but too small to allow the child's head to pass through.
- (26) Field trips – Activities conducted away from the child-care center.
- (27) Food service – The preparation or serving of meals or snacks.
- (28) Frequent – More than two times in a 30-day period. Note: For the definition of "regularly or frequently present at an operation" as it applies to background checks, see §745.601 of this title (relating to What words must I know to understand this subchapter?).
- (29) Garbage – Waste food or items that when deteriorating cause offensive odors and attract rodents, insects, and other pests.
- (30) Grounds--Includes any parcel of land where the child-care center is located and any building, other structure, body of water, play equipment, street, sidewalk, walkway, driveway, parking garage, or parking lot on the parcel. Also referred to as "premises" in this chapter.
- (31) Group activities – Activities that allow children to interact with other children in large or small groups. Group activities include storytelling, finger plays, show and tell, organized games, and singing.
- (32) Hazardous materials--Any substance or chemical that is a health hazard or physical hazard, as determined by the Environmental Protection Agency. Also referred to as "toxic materials" and "toxic chemicals" in this chapter.
- (33) Health-care professional – A licensed physician, a licensed advanced practice registered nurse (APRN), a licensed vocational nurse (LVN), a licensed registered nurse (RN), or other licensed medical personnel providing health care to the child within the scope of the license. This does not include physicians, nurses, or other medical personnel who are not licensed to practice in the United States or in the country in which the person practices.

- (34) Health check – A visual or physical assessment of a child to identify potential concerns about a child’s health, including signs or symptoms of illness and injury, in response to changes in the child’s behavior since the last date of attendance.
- (35) High school equivalent -
- (A) Documentation of a program recognized by the Texas Education Agency (TEA) or other public educational entity in another state, which offers similar training on reading, writing, and math skills taught at the high school level, such as a General Educational Development (GED) certificate; or
 - (B) Confirmation that the person received home-schooling that adequately addressed basic competencies such as basic reading, writing, and math skills, which would otherwise have been documented by a high school diploma.
- (36) Individual activities – Opportunities for the child to work independently or to be away from the group, but supervised.
- (37) Infant – A child from birth through 17 months.
- (38) Inflatable – An amusement ride or device, consisting of air-filled structures designed for use by children, as specified by the manufacturer, which may include bouncing, climbing, sliding, or interactive play. They are made of flexible fabric, kept inflated by continuous air flow by one or more blowers, and rely upon air pressure to maintain their shape.
- (39) Instructor-led training – Training characterized by the communication and interaction that takes place between the student and the instructor. The training must include an opportunity for the student to interact with the instructor to obtain clarifications and information beyond the scope of the training materials. For such an opportunity to exist, the instructor must communicate with the student in a timely fashion, including answering questions, providing feedback on skills practice, providing guidance or information on additional resources, and proactively interacting with students. Examples of this type of training include, classroom training, web-based on-line facilitated learning, video-conferencing, or other group learning experiences.
- (40) Janitorial duties – Those duties that involve the cleaning and maintenance of the child-care center building, rooms, furniture, etc. Cleaning and maintenance include such duties as cleansing carpets, washing cots, and sweeping, vacuuming, or mopping a restroom or a classroom. Sweeping up after an activity or mopping up a spill in a classroom that is immediately necessary for the children’s safety is not considered a janitorial duty.
- (41) Local sanitation official – A sanitation official designated by the city or county government.
- (42) Natural environment – Natural environment--Settings that are natural or typical for all children of the same age without regard to ability or disability. For example, a natural environment for learning social skills is a play group of peers.

- (43) Permit is no longer valid--For purposes of this chapter, a permit remains valid through the renewal process. A permit only becomes invalid when your center voluntarily closes or must close because of an enforcement action in Chapter 745, Subchapter L of this title (relating to Enforcement Actions).
- (44) Personal flotation device (PFD)--A United States Coast Guard approved life jacket.
- (45) Physical activity (moderate)--Levels of activity for a child that are at intensities faster than a slow walk, but still allow the child to talk easily. Moderate physical activity increases the child's heart rate and breathing rate.
- (46) Physical activity (vigorous)--Rhythmic, repetitive physical movement for a child that uses large muscle groups, causing the child to breathe rapidly and only enabling the child to speak in short phrases. Typically, the child's heart rate is substantially increased, and the child is likely to be sweating while engaging in vigorous physical activity.
- (47) Pre-kindergarten age child--A child who is three or four years of age before the beginning of the current school year.
- (48) Premises – See the term "grounds" and its definition in this section.
- (49) Regular – On a recurring, scheduled basis. Note: For the definition of "regularly or frequently present at an operation" as it applies to background checks, see §745.601 of this title.
- (50) Restrictive device – Equipment that places the body of a child in a position that may restrict airflow or cause strangulation; usually, the child is placed in a semi-seated position. Examples of restrictive devices are car seats, swings, bouncy seats, and high chairs.
- (51) Safety belt – A lap belt and any shoulder straps included as original equipment on or added to a vehicle.
- (52) Sanitize – The use of a disinfecting product that provides instructions specific for sanitizing and is registered by the Environmental Protection Agency (EPA) to substantially reduce germs on inanimate objects to levels considered safe by public health requirements. Many bleach and hydrogen peroxide products are EPA-registered. You must follow the product's labeling instructions for sanitizing or disinfecting, depending on the surface (paying particular attention to any instructions regarding contact time and toxicity on surfaces likely to be mouthed by children, such as toys and crib rails). If you use bleach instead of an approved disinfecting product, you must follow these steps in order:
- (A) Washing with water and soap;
 - (B) Rinsing with clear water;
 - (C) Soaking in or spraying on a bleach solution for at least two minutes;
 - (D) Rinsing with cool water only those items that children are likely to place in their mouths; and
 - (E) Allowing the surface or item to air-dry.

- (53) School-age child - A child who is five years of age and older and is enrolled in or has completed kindergarten.
- (54) Screen time activity - An activity during which a child views media content on a cell or mobile phone, tablet, computer, television, video, film, or DVD. Screen time activities do not include video chatting with a child's family or assistive and adaptive computer technology used by a child with special care needs on a consistent basis.
- (55) Self-instructional training – Training designed to be used by one individual working alone and at the individual's own pace to complete lessons or modules. Lessons or modules commonly include questions with clear right and wrong answers. An example of this type of training is web-based training. Self-study training is also a type of self-instructional training.
- (56) Self-study training--Non-standardized training where an individual reads written materials, watches a training video, or listens to a recording to obtain certain knowledge that is required for annual training. Self-study training is limited to three hours of annual training per year.
- (57) Special care needs – A child with special care needs is a child who has:
- (A) A chronic physical, developmental, behavioral, or emotional condition or a disability and who also requires assistance beyond that required by a child generally to perform tasks that are within the typical chronological range of development, including the movement of large or small muscles, learning, talking, communicating, comprehension, emotional regulation, self-help, social skills, emotional well-being, seeing, hearing, and breathing; or
 - (B) A limitation due to an injury, illness, or allergy.
- (58) State or local fire authority--A fire official who is authorized to conduct fire safety inspections on behalf of the city, county, or state government, including certified fire inspectors. Also referred to as "fire marshal" in this chapter.
- (59) Swimming Pool--An artificial body of water with a water depth of more than 18 inches that is maintained or used expressly for public or private recreational purposes, swimming, diving, aquatic sports or activities, or therapeutic purposes.
- (60) Toddler – A child from 18 months through 35 months.
- (61) Universal precautions – An approach to infection control where all human blood and certain human bodily fluids are treated as if known to be infectious for HIV, HBV, and other blood-borne pathogens.
- (62) Wading pool--As defined by Texas Health and Safety Code, Chapter 341, Subchapter D.
- (63) Water activities – Related to the use of swimming pools, wading pools, or sprinkler play.
- (64) Weather permitting--Weather conditions that do not pose any concerns for health and safety, such as a significant risk of frostbite or heat-related illness. This includes adverse weather conditions in which children may still play safely outdoors for shorter periods with appropriate adjustments to clothing and any necessary access to water, shade, or shelter.

Technical Assistance

- Regarding paragraph (9), [Texas Health and Safety Code, Chapter 341](#) defines a "body of water" as an artificial or natural body of water, including a swimming pool, lake, or river, typically used for recreational swimming, bathing, or play. The term does not include a "wading pool".
- Regarding paragraph (21), "corporal punishment" encompasses many types of physical actions used to inflict pain and the examples provided are not intended to be all inclusive.
- Regarding paragraph (32), the [Environmental Protection Agency](#) has additional information about hazardous materials.
- Regarding paragraph (44), the [CCR TA Library](#) has additional information regarding personal flotation devices.
- Regarding paragraph (47), the beginning of the current school year is based on the start date of the school district the child attends.
- Regarding paragraph (52):
 - o A disinfecting product is a solution of chemicals that kills or inactivates germs when applied as instructed. Disinfectants are registered with the EPA as pesticides because they act against viruses and bacteria, which are microorganisms (what we commonly call germs) that act as pests. Not all disinfectants are effective against all germs. It is important to read the product label, EPA registration information, or check with local public health authorities if you are concerned about whether a product kills a specific germ. Always follow the manufacturer's instructions when using disinfecting products.
 - o The use of alternative methods for sanitizing or disinfecting, such as fogging, fumigation, and wide-area or electrostatic spraying, are not recommended unless first approved by local or state public health departments. The CDC does not recommend the use of such methods for most cases.
- Regarding paragraph (54), "media content" includes:
 - o Digital, analog, and live videos;
 - o Movies and music videos (including the use of this content in the background when children are engaged in other activities);
 - o Animations;
 - o Games (digital or video);
 - o Graphic or digital photos;
 - o Internet searches;
 - o E-books;
 - o Streaming sites;
 - o Software programs;
 - o Applications (apps), etc.

Media content does not include electronic sign-in sheets, daily rosters, or schedules displayed on a smart board.

- Regarding paragraph (56), "self-study" is sometimes referred to as "independent study."

Technical Assistance

- Regarding paragraph (62), [Texas Health and Safety Code, Chapter 341](#) defines a "wading pool" as a pool with a maximum water depth of not more than 18 inches. A wading pool may also include a pool that contains a public interactive water feature and fountain as defined by the Texas Department of State Health Services.
- The term "public interactive water feature and fountain" within the definition of a "wading pool" refers to an indoor or outdoor installation that includes water sprays, dancing water jets, waterfalls, dumping buckets, or shooting water cannons in various arrays for the purpose of wetting the persons playing in the spray streams. It may be known as a splash pad, spray pad, or wet deck. [25 TAC Chapter 265, Subchapter L \(relating to Public Swimming Pools and Spas\), §265.182](#) has additional information regarding public interactive water features and fountains.
- Regarding paragraph (64), [Caring for Our Children: National Health and Safety Performance Standards, 4th Edition](#) has additional guidelines regarding weather conditions and children's outdoor activities.

Subchapter B, Administration and Communication

Division 1, Permit Holder Responsibilities

§746.201. What are my responsibilities as the permit holder?

Subchapter B, Administration and Communication

Division 1, Permit Holder Responsibilities

March 2023

You are responsible for:

- (1) Developing and implementing your child-care center's operational policies, which must comply with or exceed the minimum standards specified in this subchapter [High];
- (2) Developing written personnel policies, including job descriptions, job responsibilities, and requirements [Medium-High];
- (3) Making provisions for training that comply with Division 4, Subchapter D of this chapter (relating to Professional Development) [Medium-High];
- (4) Designating a child-care center director who meets minimum standard qualifications and has daily, on-site responsibility for the operation of the child-carecenter [Medium-High];
- (5) Reporting and ensuring your employees and volunteers report suspected abuse, neglect, or exploitation directly to the Texas Abuse and Neglect Hotline, as required by Texas Family Code §261.10; an employee may not delegate the responsibility to make a report, and you may not require an employee to seek approval to file a report or notify you that a report was made [Medium-High];
- (6) Ensuring all information related to background checks is kept confidential and not disclosed to unauthorized persons, as required by the Human Resources Code, §40.005(d) and (e) [Medium];
- (7) Ensuring parents can visit the child-care center any time during the child-care center's hours of operation to observe their child, program activities, the building, the grounds, and the equipment without having to secure prior approval [Medium];
- (8) Complying with the liability insurance requirements in this division [Medium];
- (9) Complying with the child-care licensing law found in Chapter 42 of the Human Resources Code, the applicable minimum standards, and other applicable rules in the Texas Administrative Code [Medium-High];

- (10) Reporting to Licensing any Department of Justice substantiated complaints related to Title III of the Americans with Disabilities Act, which applies to commercial public accommodations; and [Medium-High]; and
- (11) Ensuring the total number of children in care at the center or away from the center, such as during a field trip, never exceeds the licensed capacity of the center. [Medium-High]

Technical Assistance

- Children are at risk when adults responsible for them do not have clearly delineated roles and responsibilities, which can be identified in job descriptions and job responsibilities.
- Disclosure of confidential background check information is a Class A misdemeanor. Therefore, you may want to keep background check information in a location separate from other staff records. You may choose to keep the information in a locked space. However, the information must be accessible during an inspection.
- You are responsible for ensuring that only authorized individuals access the contact email account that is used for correspondence between your operation and CCR.

§746.203. What are the liability insurance requirements?

Subchapter B, Administration and Communication

Division 1, Permit Holder Responsibilities

April 2021

Unless you have an acceptable reason not to have the insurance, you must:

- (1) Maintain liability insurance coverage in the amount of \$300,000 for each occurrence of negligence that covers injury to a child while the child is on your premises or in your care [Medium]; and
- (2) Provide proof of coverage to Licensing each year by the anniversary date of the issuance of your permit. [Medium]

§746.205. What are acceptable reasons not to have liability insurance?

Subchapter B, Administration and Communication

Division 1, Permit Holder Responsibilities

April 2021

- (a) You do not have to have liability insurance that meets the requirements of §746.203 of this division (relating to What are the liability insurance requirements?) if you cannot carry insurance because:
 - (1) Of financial reasons;

(2) You are unable to locate an underwriter who is willing to issue a policy to the operation; or

(3) You have already exhausted the limits of a policy that met the requirements.

(b) If you cannot carry liability insurance or stop carrying the insurance because of a reason listed in subsection (a) of this section, you must send written notification to Licensing by the anniversary date of the issuance of your permit. Your notification must include the reason that you cannot carry the insurance. [Medium]

§746.207 When must I notify parents that I do not carry liability insurance?

Subchapter B, Administration and Communication

Division 1, Permit Holder Responsibilities

April 2021

- (a) If you do not carry liability insurance that meets the requirements of §746.203 of this division (relating to What are the liability insurance requirements?), then you must notify the parent of each child in your care in writing that you do not carry liability insurance before you admit the child into your care. [Medium-High]
- (b) If you previously carried the liability insurance and subsequently stop carrying the liability insurance, then you must notify the parent of each child in your care in writing that you do not carry the insurance within 14 days after you stop carrying it. [Medium-High]
- (c) You may use Form 2962, *Verification of Liability Insurance*, located on the Licensing provider website, to notify parents. Regardless of whether you use this form, you must be able to demonstrate that you provided written notice to the parent of each child in your care, as required in §746.801(6) of this chapter (relating to What records must I keep at my child- care center?).

Technical Assistance

It is important that parents both understand and acknowledge whether your center carries liability insurance. Possible means of communicating this requirement include:

- Using a form specific to liability insurance that requires a parent signature that you maintain in the child's file;
- Including a statement or addendum regarding about liability insurance in your operational policies or parent handbook, and maintain in the child's file a document with a parent signature or initials specifically acknowledging the liability insurance information; or
- Maintaining a copy of any electronic communication sent to a parent regarding liability insurance, including the date and address to which the communication was sent.

Division 2, Required Notifications

§746.301. What changes regarding my child-care center must I notify Licensing about before making the change?

Subchapter B, Administration and Communication

Division 2, Required Notifications

April 2017

You must notify us in writing before:

- (1) Changing the address or location of the child care center [Medium];
- (2) Adding to or reducing indoor or outdoor space [Medium];
- (3) Reducing the number of toilets or sinks [Medium];
- (4) Adding a swimming pool or other permanent body of water [High];
- (5) Changing the age range of children to be cared for [Medium-High];
- (6) Changing the hours, days, or months of operation [Medium];
- (7) Offering new services, relating to minimum standards found in this chapter, such as a get-well care program, nighttime care, transportation, or field trips [High];
- (8) Planned closure of five consecutive days or more, during designated hours of operation, when the operation is not caring for children, with the exception of nationally recognized holidays [Medium];
- (9) Going out of business [Low]; or
- (10) There is a change in ownership of a center as specified in §745.437 of this title (relating to What is a change in ownership of an operation?). [Medium]

Technical Assistance

- As events occur or changes are made to the center, health and safety conditions may change. Licensing may need to verify that minimum standard rules related to the changes are in compliance to ensure the continuing safety of children in care.
- Items (2) – (5) require an amended permit before you may provide new services or change your services. Items (1) and (10) require a new application and permit to operate.
- Item (10) requires a new application and permit to operate.
- Regarding item (10), a license cannot be bought, sold, or transferred.

§746.303. What changes must I notify Licensing of regarding the child-care center's designee, governing body, director, and employees?

Subchapter B, Administration and Communication
Division 2, Required Notifications
December 2020

- (a) You must notify us in writing, no later than five days after a change is made, regarding:
- (1) The designee of your center that is not a sole proprietorship. The designee for a sole proprietorship is the owner/sole proprietor [Medium-Low];
 - (2) The board chair for a corporate facility or other executive officer of the governing body [Low];
 - (3) The address of the center's designee or governing body [Low]; and
 - (4) The center director. [Medium-High]
- (b) By January 15 of each year, you must report to us through your online Child Care Licensing Account the total number of employees who ceased working at your center during the previous calendar year. [Medium-Low]

Technical Assistance
- Regarding paragraph (a)(2), governing body changes affect Licensing’s ability to communicate in a timely manner with those who have ultimate responsibility for the child-care center. - Regarding paragraph (a)(4), it is important that Licensing know, in a timely manner, who has been designated as director in order to ensure that qualifications are met and the operation of a center is not at risk. - Regarding paragraph (b), the total number of employees includes only individuals who left employment. You do not need to include any individuals for whom you submitted a criminal background check but did not employ.

§746.305. What other situations require notification to Licensing?

Subchapter B, Administration and Communication

Division 2, Required Notifications

March 2023

- (a) You must notify us as soon as possible, but no later than two days after:
- (1) Any occurrence that renders all or part of your center unsafe or unsanitary for a child [Medium-High];
 - (2) Injury to a child in your care that requires medical treatment by a health-care professional or hospitalization [Medium-High];
 - (3) A child in your care shows signs or symptoms of an illness that requires hospitalization [Medium-High];
 - (4) You become aware that an employee or child in your care contracts an illness deemed notifiable by the Texas Department of State Health Services (DSHS) as specified in 25 TAC 97, Subchapter A (relating to Control of Communicable Diseases) [Medium-High];
 - (5) A person for whom you are required to request a background check under Chapter 745, Subchapter F of this title (relating to Background Checks) is arrested or charged with a crime [Medium-High];
 - (6) The occurrence of any other non-routine situation that places, or may place, a child at risk for injury or harm, such as forgetting a child in a center vehicle or on the playground or not preventing a child from wandering away from the child-care center unsupervised [High]; and
 - (7) A new individual becomes a controlling person at your operation, or an individual that was previously a controlling person ceases to be a controlling person at your operation. [Medium-High]
- (b) You must notify us immediately if a child dies while in your care. [High]

Technical Assistance

- Regarding paragraph (a)(1), examples of occurrences that may render a child-care center unsafe or unsanitary include sewer backups, flood, fire or storm damage, or the lack of running water.
- Regarding paragraph (a)(2), this notification does not apply to an injury for which a health-care professional only evaluates a child as a precaution. However, if the operation later learns the injury is more serious than initially diagnosed and requires medical treatment, the operation must report the incident to CCR upon learning of the change in the child's status.
- Regarding paragraph (a)(3), this notification applies to situations where the center sends a child to the hospital for an illness. For more information on how to respond when a child in care becomes ill and requires hospitalization, see §746.3605(b).
- Regarding paragraph (a)(4), if you become aware that multiple employees or children have contracted the same communicable illness, you may contact the Texas Department of State Health Services (DSHS) or the local health authority for guidance regarding a potential outbreak at your operation.
- You may access the DSHS list of notifiable communicable diseases at: [Communicable Disease Chart for Schools & Child-Care Centers](#).
- Regarding paragraph (a)(6), many factors determine whether a situation places or may place a child at risk for injury or harm, including the age of the child, proximity of caregivers, surrounding environment, etc. In addition to the examples provided in the rule, other situations may include:
 - o Leaving a child unattended in a classroom;
 - o Allowing a child to access hazardous materials; and
 - o Allowing a child unsupervised access to a body of water
- Notifications to CCR may be made:
 - o Online 24 hours a day at http://www.dfps.state.tx.us/Contact_Us/report_abuse.asp ;
 - o By phone 24 hours a day to the Texas Abuse and Neglect Hotline 1-800-252-5400; or
 - o By speaking to a CCR employee during business hours at the local office. Phone numbers for the local offices can be found at: <https://hhs.texas.gov/services/safety/child-care/contact-child-care-licensing>

§746.307. What emergency or medical situations must I notify parents about?

Subchapter B, Administration and Communication

Division 2, Required Notifications

March 2023

- (a) You must notify the parent of a child immediately if there is an allegation that the child has been abused, neglected, or exploited, as defined in Texas Family Code §261.001, while in your care. [High]
- (b) After you ensure the safety of the child, you must notify the parent of the child immediately after the child:
 - (1) Is injured and the injury requires medical treatment by a health-care professional or hospitalization [Medium-High];
 - (2) Shows signs or symptoms of an illness that requires hospitalization [Medium-High];
 - (3) Has had an emergency anaphylaxis reaction that required administration of an unassigned epinephrine auto-injector [High];
 - (4) Has been involved in any non-routine situation that placed, or may have placed, the child at risk for injury or harm. For example, a caregiver forgetting the child in a center vehicle or failing to prevent the child from wandering away from the child-care center unsupervised [High]; or
 - (5) Has been involved in any situation that renders the child-care center unsafe, such as a fire, flood, or damage to the child-care center as a result of severe weather. [Medium-High]
- (c) You must notify the parent of less serious injuries when the parent picks the child up from the child-care center. Less serious injuries include minor cuts, scratches, and bites from other children requiring first-aid treatment by employees. [Medium]

- (d) You must provide written notice to the parent of each child attending the child-care center within 48 hours of becoming aware that a child in your care or an employee has contracted a communicable disease deemed notifiable by the Texas Department of State Health Services, as specified in 25 TAC Chapter 97, Subchapter A (relating to Control of Communicable Diseases). [Medium-High]
- (e) You must provide written notice to the parent of each child in a group within 48 hours when there is an outbreak of lice or other infestation in the group. You must either post this notice in a prominent and publicly accessible place where parents can easily view it or send an individual note to each parent. [Medium-Low]

Technical Assistance

- Communication between caregivers and parents is essential to both the safe and healthy operation of the center and to the parents' ability to assess the care their children are receiving.
- Regarding paragraph (a), you must notify the parent as soon as you have knowledge of the allegation, including when someone makes an allegation directly to you, when you make a report to DFPS, or when DFPS notifies you of an allegation.
- Regarding paragraph (b)(1), please see §746.3607 for additional requirements for how operations must respond to an injury that requires immediate medical treatment by a health-care professional.
- Regarding paragraph (b)(2), please see §746.3605 for additional requirements for how operations must respond when a child becomes ill while in care.
- Regarding paragraph (b)(4), many factors determine whether a situation places or may place a child at risk for injury or harm, including the age of the child, proximity of caregivers, surrounding environment, etc. In addition to the examples provided in the rule, other situations may include:
 - Leaving a child unattended in a classroom;
 - Allowing a child to access hazardous materials; and
 - Allowing a child unsupervised access to a body of water.

§746.309. What are the notification requirements when Licensing finds my center deficient in a standard related to safe sleeping or the abuse, neglect, or exploitation of a child?

Subchapter B, Administration and Communication

Division 2, Required Notifications

March 2023

- (a) You must notify the parent of each child attending your child-care center of a deficiency in:
- (1) A safe sleeping standard noted in subsection (b) of this section [Medium-High]; or

(2) The abuse, neglect, or exploitation standard in §746.1201(4) of this chapter (relating to What general responsibilities do my child-care center employees have?). [Medium-High]

(b) The following are safe sleeping standards requiring notification:

- (1) §746.2409(a)(1) of this chapter (relating to What specific safety requirements must my cribs meet?);
- (2) §746.2411(2)(A) of this chapter (relating to Are play yards allowed?);
- (3) §746.2415(a)(5) and (b) of this chapter (relating to What specific types of equipment am I prohibited from using with infants?);
- (4) §746.2426 of this chapter (relating to May I allow infants to sleep in a restrictive device?);
- (5) §746.2427 of this chapter (relating to How must I position an infant for sleep?);
- (6) §746.2428 of this chapter (relating to May I swaddle an infant to help the infant sleep?); and
- (7) §746.2429 of this chapter (relating to If an infant has difficulty falling asleep, may I cover the infant's head or crib?).

§746.311. How must I notify parents of a safe sleeping deficiency or an abuse, neglect, or exploitation deficiency?

Subchapter B, Administration and Communication

Division 2, Required Notifications

April 2021

- (a) Within five days after you receive notification of a deficiency described in §746.309 of this division (relating to What are the notification requirements when Licensing finds my center deficient in a standard related to safe sleeping or the abuse, neglect, or exploitation of a child in care?), you must notify the parents of each child attending your child-care center at the time of notification, including a child who may not have been in care on the day of the actual incident. [Medium-High]
- (b) If the deficiency is for a safe sleeping standard, you must notify the parents using Form 2970, *Notification of Safe Sleeping Deficiency*, located on the Licensing provider website. [Medium]
- (c) If the deficiency is for the standard related to the abuse, neglect, or exploitation of a child in care, you must notify the parents using Form 7266, *Notification of Abuse/Neglect/Exploitation Deficiency*, located on the Licensing provider website. [Medium]

Division 3, Required Postings

§746.401. What items must I post at my child-care center at all times?

Subchapter B, Administration and Communication

Division 3, Required Postings

September 2016

You must post the following items:

- (1) The child-care center’s license [Medium];
- (2) The letter or form from the most recent Licensing inspection or investigation [Medium];
- (3) The Licensing notice *Keeping Children Safe* [Medium];
- (4) Your emergency evacuation and relocation diagram as specified in §746.5207 of this title (relating to Must I have an emergency evacuation and relocation diagram?) [Medium-High];
- (5) The activity plan for each group of children in the child-care center [Medium];
- (6) The daily menu, including all snacks and meals served by the child-care center [Medium];
- (7) The Licensing *Parent Notification Poster* [Medium-Low];
- (8) Telephone numbers specified in §746.405 of this title (relating to What telephone numbers must I post and where must I post them?) [Medium-Low];
- (9) A list entitled “Current Employees.” The list must be at least 8-1/2 inches by 11 inches in size, printed legibly, and must include each employee’s first and last name [Medium-Low];
- (10) A list of each child’s food allergies that require an emergency plan, as specified in §746.3819 of this title (relating to When must I have a food allergy emergency plan for a child?) [Medium-High]; and
- (11) Any other Licensing notices with specific instructions to post the notice. [Medium]

Technical Assistance
• Posting this information is an important part of communication with parents. It provides parents the opportunity to monitor the care they have selected for their child and to make informed decisions as consumers of child care. • Though not required by CCR, you may post other resources for parents, such as information about local activities, supports for parents, or information regarding

Technical Assistance
the local Early Childhood Intervention (ECI) program .

§746.403. When and where must these items be posted?

Subchapter B, Administration and Communication

Division 3, Required Postings

September 2016

- (a) Unless otherwise specified, the items specified in §746.401 of this title (relating to What items must I post at my child-care center at all times?) must be posted at all times, in a prominent and publicly accessible place where employees, parents, and others may easily view them. [Medium]
- (b) For a list of each child's food allergies that require an emergency plan:
 - (1) You must post the list during all hours of operation where you prepare food and in each room where the child may spend time [Medium-High];
 - (2) The posting must be in a place where employees may easily view the list, and if a parent requests it, you must maintain privacy for the child (for example, a clipboard hung on the wall with a cover sheet over the list) [Medium-High]; and
 - (3) You must ensure that all caregivers and employees who prepare and serve food are aware of each child's food allergies. [Medium-High]

§746.405. What telephone numbers and other contact information must I post and where must I post this information?

Subchapter B, Administration and Communication

Division 3, Required Postings

August 2024

- (a) You must post in a prominent place the following telephone numbers [Medium]:
 - (1) 911 or, if 911 is not available in your area, you must post the telephone numbers for [Medium]:
 - (A) Emergency medical services;
 - (B) Law enforcement; and
 - (C) Fire department;
 - (2) Poison control (1-800-222-1222) [Medium]; and
 - (3) The Texas Abuse and Neglect Hotline (1-800-252-5400) [Medium].

(b) You must post in a prominent place the name, address, and telephone number for:

(1) The local Child-Care Regulation office [Medium-Low]; and

(2) The child-care center. [Medium-Low]

Technical Assistance

- Readily available phone numbers help to ensure prompt response/action in an emergency.
- For the nearest Child Care Regulation telephone number go to <https://hhs.texas.gov/services/safety/child-care/contact-child-care-licensing>.

Division 4, Operational Policies

§746.501. What written operational policies must I have?

Subchapter B, Administration and Communication

Division 4, Operational Policies

August 2024

(a) You must develop written operational policies and procedures that at a minimum address each of the following:

- (1) Hours, days, and months of operation [Medium];
- (2) Procedures for the release of children [Medium];
- (3) Illness and exclusion criteria [Medium];
- (4) Procedures for dispensing medication or a statement that medication is not dispensed [Medium];
- (5) Procedures for handling medical emergencies [Medium];
- (6) Procedures for parental notifications [Medium];
- (7) Discipline and guidance that is consistent with Subchapter L of this title (relating to Discipline and Guidance). A copy of Subchapter L may be used for your discipline and guidance policy [Medium-High];
- (8) Suspension and expulsion of children [Medium-High];
- (9) Safe sleep policy for infants from birth through 12 months old that is consistent with the rules in subchapter H of this chapter (relating to Basic Requirements for Infants) that relate to sleep requirements and restrictions, including sleep positioning, and crib requirements and restrictions, including mattresses, bedding, blankets, toys, and restrictive devices [High];
- (10) Meals and food service practices [Medium];

- (11) Immunization requirements for children, including tuberculosis screening and testing if required by your regional Texas Department of State Health Services or local health authority [Medium];
- (12) Hearing and vision screening requirements [Medium];
- (13) Enrollment procedures, including how and when parents will be notified of policy changes [Medium];
- (14) Transportation, if applicable [Medium];
- (15) Water activities, if applicable [Medium];
- (16) Field trips, if applicable [Medium];
- (17) Animals, if applicable [Medium];
- (18) Promotion of indoor and outdoor physical activity that is consistent with Subchapter F of this chapter (relating to Developmental Activities and Activity Plan) [Medium];
your policies must include:
 - (A) The benefits of physical activity and outdoor play [Medium];
 - (B) The duration of physical activity at your operation, both indoor and outdoor [Medium];
 - (C) The type of physical activity (structured and unstructured) that children may engage in at your operation [Medium];
 - (D) Each setting in which your physical activity program will take place [Medium];
 - (E) The recommended clothing and footwear that will allow a child to participate freely and safely in physical activities [Medium]; and
 - (F) The criteria you will use to determine when extreme weather conditions pose a significant health risk that prohibits or limits outdoor play [Medium]; and
 - (G) A plan to ensure physical activity occurs on days when extreme weather conditions prohibit or limit outdoor play. [Medium]
- (19) Procedures for providing and applying, as needed, insect repellent and sunscreen, including what types will be used, if applicable [Medium];
- (20) Parent rights that are consistent with the rules in Division 5 of this subchapter (relating to Parent Rights) [Medium];
- (21) Procedures for parents to review and discuss with the child-care center director any questions or concerns about the policies and procedures of the child-care center [Medium];

- (22) Procedures for parents to participate in the child-care center's operation and activities [Medium-Low];
- (23) Instructions on how a parent may access the [Medium]:
- (A) Minimum standards online;
 - (B) Texas Abuse and Neglect Hotline; and
 - (C) HHSC website.
- (24) Your emergency preparedness plan [High];
- (25) Your provisions to provide a comfortable place with an adult sized seat in your center or within a classroom that enables a mother to breastfeed her child. In addition, your policies must inform parents that they have the right to breastfeed or provide breast milk for their child while in care [Low];
- (26) Preventing and responding to abuse and neglect of children, including:
- (A) Required annual training for employees [Medium];
 - (B) Methods for increasing employee and parent awareness of issues regarding child abuse and neglect, including warning signs that a child may be a victim of abuse or neglect and factors indicating a child is at risk for abuse or neglect [Medium];
 - (C) Methods for increasing employee and parent awareness of prevention techniques for child abuse and neglect [Medium];
 - (D) Strategies for coordination between the center and appropriate community organizations [Medium]; and
 - (E) Actions that the parent of a child who is a victim of abuse or neglect should take to obtain assistance and intervention, including procedures for reporting child abuse or neglect [Medium];
- (27) Procedures for conducting health checks, if applicable [Medium]; and
- (28) Information on vaccine-preventable diseases for employees, unless your center is in the home of the permit holder. The policy must address the requirements outlined in §746.3611 of this chapter (relating to What must a policy for protecting children from vaccine-preventable diseases include?) [Medium]; and

(29) If your operation maintains and administers unassigned epinephrine auto- injectors to use when a child in care has an emergency anaphylaxis reaction, policies for maintenance, administration, and disposal of unassigned epinephrine auto-injectors that comply with the unassigned epinephrine auto- injector requirements set by the Texas Department of State Health Services, as specified in 25 TAC Chapter 40, Subchapter C (relating to Epinephrine Auto- Injector Policies in Youth Facilities) and in Texas Health and Safety Code §773.0145. [High]

(30) Procedures for supporting inclusive services to children with special care needs. The policy must address the requirements outlined in §746.2202 of this chapter (relating to What are my responsibilities when planning activities for a child in care with special care needs?) [Medium].

(b) You must also inform the parents that any area within 1,000 feet of a child-care center is a gang-free zone, where criminal offenses related to organized criminal activity are subject to a harsher penalty under the Texas Penal Code. You may inform the parents by: [Low]

(A) Providing this information in the operational policies;

(B) Distributing the information in writing to the parents; or

(C) Informing the parents verbally as part of an individual or group parent orientation.

Technical Assistance

- Regarding paragraph (a) (8), it is helpful to have a policy clarifying the steps that parents can take to prevent suspension or expulsion of their child. However, a director may always retain the right to dis-enroll a child when that is in the best interest of the child or other children at the center. Additional information regarding a policy for suspension and expulsion is available in the [CCR TA Library](#).
- Regarding paragraph (a)(9), a sample Infant in Child Care Safe Sleep Policy can be found in the [CCR TA Library](#).
- Regarding paragraph (a)(18)(A), additional resources regarding physical activity are available in [Caring for Our Children: National Health and Safety Performance Standards, 4th Edition](#) and in the [CCR TA Library](#).
- Regarding paragraph (a)(25):
 - o Providing a mother with a place to sit and breastfeed her child helps to support this practice. Use of an adult-size chair in the classroom meets the intent of this requirement. Other things your operation may do to provide additional support

Technical Assistance

include providing:

- A pillow to support her infant in her lap;
- A stepstool for her to prop her feet and prevent back strain; and
- Water or other liquid to help her stay hydrated; and

o Human milk is the best source of milk for infants. Additionally, breastfeeding supports optimal health and development.

- Regarding paragraph (a)(29), DSHS requirements for the maintenance and administration of unassigned epinephrine auto-injectors include requirements for:
 - Training;
 - Storage;
 - Administration;
 - Disposal;
 - Reporting; and
 - Parental notification of policies.

You can find more information about these requirements, as well as definitions pertaining to anaphylaxis, at [Allergies and Anaphylaxis](#), [Epinephrine Auto-Injector Policies in Youth Facilities](#), and in the [CCR TA Library](#).

- Regarding paragraph (a)(30), the [CCR TA Library](#) has additional information regarding the inclusion of children with special care needs into a child-care program.

§746.503. Must I provide parents with a copy of my operational policies?

Subchapter B, Administration and Communication

Division 4, Operational Policies

April 2017

Yes. On or before the date of admission, the parents must sign a child-care enrollment agreement or other similar documents, which must include at least the operational policies listed in this division. You must keep this signed document in the child's record or at least one for each family, if siblings are enrolled at the same time. [Medium]

Technical Assistance
• Sharing clearly written policies about your center’s day-to-day operation will help parents understand what type of service their children will receive, and may help to avoid later misunderstandings and complaints. • Operational policies may go beyond minimum standards, but may not conflict.

§746.505. What must I do when I change an operational policy or an item in the child- care enrollment agreement?

Subchapter B, Administration and Communication

Division 4, Operational Policies

April 2017

When you change an operational policy or your child-care enrollment agreement, you must notify:

- (1)Your employees of any changes [Medium]; and
- (2)The parents in writing of any changes. At least one copy of the updated operational policies or child-care enrollment agreement must be signed and dated for each family and kept in the child's record. [Medium]

Division 5, Parent Rights

§746.521. What rights does a parent of a child in care of my child-care center have?

Subchapter B, Administration and Communication

Division 5, Parents Rights

August 2024

A parent of a child in care has the right to:

- (1) Enter and examine your center during its hours of operation without advance notice [Medium-High];
- (2) File a complaint against your center [Medium];
- (3) Review your center's publicly accessible records [Medium-Low];
- (4) Review your center's written records concerning the parent's child, as outlined in §746.601 of this chapter (relating to Who has the right to access children's records?);
- (5) Receive from your center:
 - (A) HHSC's inspection reports for your center [Medium-Low]; and
 - (B) Information regarding how to access your center's compliance history online [Medium-Low];
- (6) Have your center comply with a valid court order signed by a judge that prevents another parent from visiting or removing the parent's child from your center, as outlined in §746.4101 of this chapter (relating to To whom may I release a child?);
- (7) Be provided with contact information for Child Care Regulation, including the department's name, address, and telephone number [Medium-Low];
- (8) View any video recordings of an alleged incident of abuse or neglect involving the parent's child maintained by your center as long as: [Medium]
 - (A) Video recordings of the alleged incident are available;
 - (B) The parent is not allowed to retain any portion of the video depicting a child who is not the parent's child; and
 - (C) Your center notifies in writing the parent of any other child captured in the video recording, before allowing the parent to inspect the video recording;

- (9) Obtain a copy of your center's policies and procedures, as outlined in §746.503 of this subchapter (relating to Must I provide parents with a copy of my operational policies?);
- (10) Review, upon request of the parent, your: [Medium-Low]
- (A) Staff training records; and
- (B) In-house training curriculum, if any; and
- (11) Be free from any retaliatory action by your center for exercising any of the parent's rights. [Medium-High]

Technical Assistance
- Regarding paragraph (5)(A), the child-care center may provide the parent with HHSC’s inspection reports by posting the reports in the child-care center and referring the parent to the posting or by giving the parent a copy of the reports directly or electronically. - Regarding paragraph (5)(B), the child-care center should provide the parent with instructions regarding how to access the center’s compliance history via Search Texas Child Care.

Subchapter C, Record Keeping

Division 1, Records of Children

§746.601. Who has the right to access children's records?

Subchapter C, Record Keeping

Division 1, Records of Children

September 2003

- (a) All children's records must be immediately accessible to caregivers during hours of operation for use in an emergency. [Medium]
- (b) Parents have the right to access their own child's record during a parent conference with the caregiver or child-care center director. [Medium]
- (c) All children's records are subject to review and/or reproduction by Licensing upon request during hours of operation. [Medium]

Technical Assistance
During the time children are being cared for, events may occur that require access to information about a child in order to protect the child and/or others in care.

§746.603. What records must I have for children in my care and how long must I keep them?

Subchapter C, Record Keeping

Division 1, Records of Children

April 2017

- (a) You must maintain the following records for each child enrolled in your child-care center [Medium]:
 - (1) Child-care enrollment agreement specified in §746.503 of this title (relating to Must I provide parents with a copy of my operational policies?) [Medium];
 - (2) Admission information specified in §746.605 of this title (relating to What admission information must I obtain for each child?) [Medium];
 - (3) Statement of the child's health from a health-care professional [Medium];
 - (4) Immunization records [Medium];

- (5) Tuberculosis screening and testing information, if required by your regional Texas Department of State Health Services or local health authority [Low];
 - (6) Vision and hearing screening results, if applicable [Low];
 - (7) Licensing Incident/Illness Report form, if applicable [Medium];
 - (8) A daily tracking system for when a child's care begins and ends as specified in §746.631 of this title (relating Must I have a system for signing children in and out of my care?) [Medium-High];
 - (9) Medication administration records, if applicable [Medium]; and
 - (10) A copy of any health-care professional recommendations or orders for providing specialized medical assistance to the child. In some instances minimum standards allow for a deviation from a minimum standard with written documentation from a health-care professional. You must also maintain this written documentation in the child's record. [Medium]
- (b) These records must at a minimum be kept at the child-care center and must be available during hours of operation and for the following periods of time:
- (1) Medication administration records for three months after administering the medication [Low];
 - (2) Health-care professional recommendations or orders for three months after the health-care professional has indicated that the specialized medical assistance is no longer needed [Low]; and
 - (3) All other records noted in subsection (a) of this section for three months after the child's last day in care. [Low]

§746.605. What admission information must I obtain for each child?

Subchapter C, Record Keeping

Division 1, Records of Children

September 2024

You must obtain at least the following information before admitting a child to care:

- (1) The child's name and birth date [Medium-High];
- (2) The child's home address and telephone number [Medium-High];

- (3) Date of the child's admission to the child-care center [Medium-Low];
- (4) Name and address of parent(s) [Medium-High];
- (5) Telephone numbers at which parent(s) can be reached while the child is in care [Medium-High];
- (6) Name, address, and telephone number of another responsible individual (friend or relative) who should be contacted in an emergency when the parent cannot be reached [Medium-High];
- (7) Names and telephone numbers of persons other than a parent to whom the child may be released [High];
- (8) Permission for transportation, if provided [Medium];
- (9) Permission for field trips, if provided [Medium];
- (10) Name, address, and telephone number of the child's physician or an emergency-care facility [Medium];
- (11) Authorization to obtain emergency medical care and to transport the child for emergency medical treatment [High];
- (12) A statement of the child's special care needs, which must include:
 - (A) Any limitations or restrictions on the child's activities [Medium-High];
 - (B) Special care the child requires, including:
 - (i) Any reasonable accommodations or modifications [Medium-High];
 - (ii) Any adaptive equipment provided for the child, including instructions for how to use the equipment [Medium-High]; and
 - (iii) Symptoms or indications of potential complications related to a physical, cognitive, or mental condition that may warrant prevention or intervention while the child is in care [Medium-High]; and
 - (C) Any medications prescribed for continuous, long-term use [Medium-High];
- (13) The name and telephone number of the school that a school-age child attends, unless the operation is located at the child's school [Medium];
- (14) Permission for a school-age child to ride a bus, walk to or from school or home, or to be released to the care of a sibling under 18 years old, if applicable [Medium];
- (15) The child's allergies and a completed food allergy emergency plan for the child, if applicable; and [Medium-High]
- (16) Permission for participation in water activities, if provided. If you allow a child to access a swimming pool, the parent must also indicate whether the child [Medium-High]:

(A) Is able to swim competently, as defined by the American Red Cross [Medium-High];
or

(B) Requires a personal flotation device because the child is [High]:

(i) Unable to swim competently, as defined by the American Red Cross; or

(ii) At risk of injury or death when swimming or otherwise accessing a body of water.

Technical Assistance

- The term "Parent" is defined in 26 TAC, Chapter 745, Subchapter A, Precedence and Definitions, which is included in this publication in Appendix I.
- Regarding paragraphs (6) and (7), CCR expects the parent to list someone other than themselves as an emergency contact and authorized to pick up their child from care. If the parent chooses to not designate anyone else, they will need to indicate this in writing.
- Regarding paragraph (16), because a child's ability to swim can change over time, a child-care center should check in with parents at regular intervals, particularly prior to seasons where water activities occur more frequently, to ensure this information remains current. §746.609 has additional information regarding requirements for updating admission information.
- Regarding paragraphs (16)(A) and (B), the [American Red Cross](#) requires an individual to perform the following water safety and swimming skills in the order listed below to demonstrate swim competence:
 1. Step or jump into the water over the individual's head.
 2. Return to the surface and float or tread water for one minute.
 3. Turn around in a full circle and find an exit.
 4. Swim 25 yards to the exit.
 5. Exit from the water. If in a pool, be able to exit without using the ladder.

A child-care center is not responsible for or expected to swim test a child for swim competence. However, the center should share with the child's parent what it means to swim competently, so that the parent can complete the admission information accurately.

- Regarding paragraph (16)(B), many factors impact whether a child is at risk of injury or death when swimming or otherwise accessing a body of water. Some examples may include whether a child:
 - o Is neurodivergent;
 - o Has special needs due to a medical condition, such as epilepsy; or
 - o Has an intellectual or developmental disability.

§746.607. Must the child’s parent sign the admission information?

Subchapter C, Record Keeping
Division 1, Records of Children
December 2010

Yes. The parent must sign the admission information before you admit the child to your care. [Low]

§746.609. Must I update the admission information?

Subchapter C, Record Keeping
Division 1, Records of Children
September 2003

- (a) Yes. You must develop a procedure for regularly updating the admission information, including information on special care needs. [Low]
- (b) The parent must sign and date the updated information. You may use a new form or have the parent initial and date amendments to a previously signed form. You must keep the updated information in the child’s record. [Low]

Technical Assistance
The child-care center needs to know where to contact parents and needs to be aware of any changes in care required by the child. • Routine updating of records facilitates communication between the parent and the child - care center. • It also ensures that accurate information is available during an emergency so that the child’s needs can be met.

§746.611. Must I have a health statement for children in my care?

Subchapter C, Record Keeping
Division 1, Records of Children
March 2008

- (a) A health statement is:
 - (1) A written statement, from a health-care professional who has examined the child within the past year, indicating the child is able to take part in the child-care program [Low];
 - (2) A signed affidavit from the parent stating that medical diagnosis and treatment conflict with the tenets and practices of a recognized religious organization of which the parent is an adherent or a member [Medium]; or
 - (3) A signed statement from the parent giving the name and address of a health-care professional who has examined the child within the past year stating that the child is able to participate in the program. This must be followed by a signed statement from a health-care professional as specified in paragraph (1) of this subsection within 12 months of the date of admission. [Medium]
- (b) You must have a health statement on file at the center, within one week after the date of admission, for each child who does not attend pre-kindergarten or school away from the child-care center. [Medium]

Technical Assistance
Health status information is critical to ensuring that the individual needs of children are met, while protecting the health and safety of all children in care.

§746.613. What immunizations must a child in my care have?

Subchapter C, Record Keeping
Division 1, Records of Children
April 2017

- (a) Each child enrolled or admitted to child-care centers must meet and continue to meet applicable immunization requirements specified by the Texas Department of State Health Services (DSHS). This requirement applies to all children in care from birth through 14 years of age. [High]
- (b) You must maintain current immunization records for each child in your care, including any immunization exemptions or exceptions. [Medium-High]
- (c) All immunizations required for the child's age must be completed by the date of admission, unless:

- (1) The child is exempt or excepted from an immunization, and the exemption or exception is verified by the date of admission [Medium-High]; or
- (2) The child is homeless or a child in foster care and is provisionally admitted for up to 30 days if evidence of immunization is not available. You should immediately refer the child to an appropriate health-care professional to obtain the required immunizations. The DSHS rule at 25 TAC §97.66 (relating to Provisional Enrollment for Students) establishes the guidelines for a provisional enrollment. [Medium-High]

Technical Assistance

- According to the American Academy of Pediatrics (AAP), children require frequent boosters and immunizations in early childhood.
- Although children may be current with required immunizations when they enroll, they can miss future required immunizations.
- Since the risk of vaccine preventable disease is increased in group settings, ensuring appropriate immunization is an essential responsibility in child care.
- The current immunization requirements can be found at <http://www.immunizetexas.com>, and:
 - o For children 0 through 43 months click on "School Requirements", click on "Main Page", to the right of the page click on "Child-Care Facilities", and click on "[current year] Texas Minimum State Vaccine Requirements for Child-Care Facilities";
 - o For children 44 months through 18 years click on "School Requirements", click on "Main Page", to the right of the page click on "Schools", and click on "[current year] Texas Minimum State Vaccine Requirements for Students Grades K-12".
- DSHS has vaccine related resource materials available for order or download on their [Forms and Publications for Immunizations webpage](#).

§746.615. What exemptions or exceptions are there concerning immunization requirements?

Subchapter C, Record Keeping

Division 1, Records of Children

April 2017

- (a) A child may be exempt from immunization requirements for a medical reason or reason of conscience, including a religious belief. To claim an exemption, the person applying for the child's admission must meet criteria specified by the Department of State Health Services (DSHS) rule at 25 TAC §97.62 (relating to Exclusions from Compliance). [Medium]

- (b) For some diseases, a child who previously had a disease and is accordingly naturally immune from it may qualify for an exception to the immunization requirements for the disease. To claim this exception, the person applying for the child's admission must meet the criteria specified by the DSHS rule at 25 TAC §97.65 (relating to Exceptions to Immunization Requirements). [Medium]

Technical Assistance

You can find more information regarding the Department of State Health Services' exemptions at <http://www.dshs.state.tx.us/immunize/default.shtm>, click on "School Requirements", click on "Main Page", and to the right of the page click on "Exclusions from Immunization Requirements".

§746.623. What documentation is acceptable for an immunization record?

Subchapter C, Record Keeping

Division 1, Records of Children

April 2017

Acceptable documentation includes:

- (1) An official immunization record generated from a state or local health authority, including a record from another state. For example, the record may be from the Texas Immunization Registry, a copy of the current immunization record that is on file at the pre- kindergarten or school that the child attends, or the health passport for a child in the conservatorship of DFPS. The record must include [Medium]:
 - (A) The child's name and date of birth [Medium-Low];
 - (B) The type of vaccine and number of doses [Medium-Low]; and
 - (C) The month, day, and year the child received each vaccination [Medium-Low]; or
- (2) An official immunization record or photocopy. For example, the record may be from a doctor's office or a pharmacy. The record must include [Medium]:
 - (A) The child's name and date of birth [Medium-Low]; (B) The type of vaccine and number of doses [Medium-Low];
 - (C) The month, day, and year the child received each vaccination [Medium-Low];
 - (D) The signature (including a rubber stamp or electronic signature) of the health-care professional who administered the vaccine, or another health-care professional's documentation of the immunization as long as the name of the health-care professional that administered the vaccine is documented [Medium]; and

(E) Clinic contact information, if the immunization record is generated from an electronic health record system. [Medium-Low]

§746.625. If a child's immunization record is already on file at a pre- kindergarten program or school away from the child-care center, must I also have a copy of the child's immunization record in my files?

Subchapter C, Record Keeping

Division 1, Records of Children

September 2003

For each child attending a pre-kindergarten program or school away from the child-care center, you must have either:

- (1) A copy of the current immunization record that is on file at the pre-kindergarten program or school the child attends [Low]; or
- (2) A signed statement from the child's parent that the child's immunization record is current and on file at the pre-kindergarten program or school that the child attends. The statement must be dated and include the name, address, and telephone number of the pre-kindergarten program or school listed in the statement. [Low]

§746.627. Must children in my care have a tuberculosis (TB) examination?

Subchapter C, Record Keeping

Division 1, Records of Children

December 2010

Requirements for tuberculosis screening and testing vary across the state. If your regional Texas Department of State Health Services (DSHS) or local health authority requires tuberculosis testing for children in your child-care center, then you must have documentation to indicate that each child in your care is free of active tuberculosis. Documentation of a TB screening is not required to be on file. If you are unsure of the requirements for your area, contact the TB manager at the DSHS regional office nearest you. [Medium-Low]

§746.629. Must children in my care have vision and hearing screening?

Subchapter C, Record Keeping

Division 1, Records of Children

July 2005

- (a) The Special Senses and Communication Disorders Act, Texas Health and Safety Code, Chapter 36, requires a screening or a professional examination for possible vision and hearing problems for children of certain ages and grades. Refer to 25 TAC Chapter 37, Subchapter C, (relating to Vision and Hearing Screening), for specifics on vision and hearing screening. This information may be accessed on the Internet at: www.dshs.state.tx.us/vhs/.
- (b) You must keep one of the following at the child-care center for each child required to be screened:
 - (1) The individual visual acuity and sweep check results [Low]; or
 - (2) A signed statement from the child's parent that the child's screening records are current and on file at the pre-kindergarten program or school the child attends away from the center. The statement must be dated and include the name, address, and telephone number of the pre-kindergarten program or school. [Low]
 - (3) An affidavit stating that the vision or hearing screening conflicts with the tenets or practices of a church or religious denomination of which the affiant is an adherent or member. [Low]

§746.631. Must I have a system for signing children in and out of my care?

Subchapter C, Record Keeping

Division 1, Records of Children

April 2017

- (a) Yes. You must have a tracking system for each child coming and going from your child - care center throughout the day. This tracking system must include the name of each child; the date, time of arrival, and time of departure; and the employee or parent's initials or other unique identifier. [Medium-High]
- (b) All caregivers must have access to the tracking system to determine which children are in care during their work shift, changes in caregivers, and emergency evacuations. [Medium-High]

Technical Assistance

The tracking system may be a paper sign-in and sign-out log or an automated system. If using an automated system parents must have a unique identifier assigned.

Division 2, Records of Accidents and Incidents

§746.701. What written records must I keep of accidents and incidents that occur at my child-care center?

Subchapter C, Record Keeping

Division 2, Records of Accidents and Incidents

March 2023

You must record the following information on the Licensing *Incident/Illness Report* Form 7239 or another form that contains at least the same information:

- (1) An injury to a child in care that required medical treatment by a health-care professional or hospitalization [Medium]; and
- (2) An illness that required the hospitalization of a child in care [Medium];
- (3) An incident where a child in care had an emergency anaphylaxis reaction that required administration of an unassigned epinephrine auto-injector [Medium];
- (4) An incident of a child in care or employee contracting a communicable disease deemed notifiable by the Texas Department of State Health Services, as specified in 25 TAC Chapter 97, Subchapter A (relating to Control of Communicable Diseases) [Medium]; and
- (5) Any other non-routine situation that placed, or may have placed, a child at risk for injury or harm, such as forgetting a child in a center vehicle or not preventing a child from wandering away from the child-care center unsupervised [Medium].

Technical Assistance

- The *Licensing Incident/Illness Report* form ensures that parents have been notified of serious incidents and illnesses that impact or may impact the health and safety their child. This includes incidents that directly involve their child, such as a serious injury, and those that have the potential to affect their child, such as another child in care or an employee contracting a communicable disease. For more information regarding notifying parents about emergency and medical situations, see §746.307.
- Regarding paragraph (5), many factors determine whether a situation places or may place a child at risk for injury or harm, including the age of the child, proximity of caregivers, surrounding environment, etc. In addition to the examples provided in the rule, other situations may include:
 - o Leaving a child unattended in a classroom;
 - o Allowing a child to access hazardous materials; and
 - o Allowing a child unsupervised access to a body of water.
- You may obtain a copy of *Licensing's Incident/Illness Report* form on the CCR provider website at: <https://www.hhs.texas.gov/handbooks/child-care-regulation-handbook/forms>

§746.705. Must someone from my child-care center sign the Incident / Illness Report form?

Subchapter C, Record Keeping

Division 2, Records of Accidents and Incidents

April 2017

Yes. After the caregiver completes the form, the director of the child-care center, or if the director is not available, the person in charge of the center must sign and date the completed report. [Low]

§746.707. Must I share a copy of the Incident / Illness Report form with the child's parent?

Subchapter C, Record Keeping

Division 2, Records of Accidents and Incidents

September 2003

Yes. You must share a copy of the report with the child's parent and obtain the parent's signature on the report indicating the parent has reviewed it or received a copy of the report within 48 hours of when the incident occurred. [Medium]

Technical Assistance
Requiring a parent to sign the report verifies the parent was informed of serious situations, which affect the health or safety of their child.

§746.709. Where must I file the *Incident / Illness Report* form and how long must I keep it?

Subchapter C, Record Keeping
Division 2, Records of Accidents and Incidents
September 2003

You must keep the *Incident/Illness Report* form with the child’s record at the child- care center while the child is in care, and for at least three months after the child’s last day in care. [Low]

Division 3, Records That Must be kept on File at the Child- Care Center

§746.801. What records must I keep at my child-care center?

Subchapter C, Record Keeping

Division 3, Records That Must be kept on File at the Child-Care Center

October 2021

You must maintain and make the following records available for our review upon request, during hours of operation. Paragraphs (14), (15), and (16) are optional, but if provided will allow Licensing to avoid duplicating the evaluation of standards that have been evaluated by another state agency within the past year:

- (1) Children's records, as specified in Division 1 of this subchapter (relating to Records of Children) [Medium];
- (2) Infant feeding instructions, as required in §746.2421 of this chapter (relating to What written feeding instructions must I obtain for an infant not ready for table food?), if applicable [Medium];
- (3) Personnel and training records according to Division 4 of this subchapter (relating to Personnel Records) [Medium];
- (4) Licensing *Child-Care Center Director's Certificate* [Medium];
- (5) Attendance records or time sheets listing all days and hours worked for each employee [Medium];
- (6) Proof of current liability insurance coverage or, if applicable, that you have provided written notice to the parent of each child that you do not carry the insurance [Medium];
- (7) Medication records, if applicable [Medium-High];
- (8) Playground maintenance checklists [Medium];
- (9) Pet vaccination records, if applicable [Medium];
- (10) Safety documentation for emergency drills, fire extinguishers, and smoke detectors [Medium];

- (11) Most recent fire inspection report, including any written approval from the fire marshal to provide care above or below ground level, if applicable [Medium-High];
- (12) Most recent sanitation inspection report [Medium];
- (13) Most recent gas inspection report, if applicable [Medium];
- (14) Most recent Texas Department of State Health Services immunization compliance review form, if applicable;
- (15) Most recent Texas Department of Agriculture Child and Adult Care Food Program (CACFP) report, if applicable;
- (16) Most recent local workforce board Child-Care Services Contractor inspection report, if applicable;
- (17) Record of pest extermination, if applicable [Medium];
- (18) Most recent Licensing form certifying that you have reviewed each of the bulletins and notices issued by the United States Consumer Product Safety Commission regarding unsafe children's products and that there are no unsafe children's products in use or accessible to children in the child-care center [Medium];
- (19) A daily tracking system for when a child's care begins and ends, as specified in §746.631 of this subchapter (relating to Must I have a system for signing children in and out of my care?) [Medium];
- (20) Documentation for all full-size and non-full-size cribs, as specified in §746.2409(a)(9) of this chapter (relating to What specific safety requirements must my cribs meet?) [Medium];
- (21) Documentation for vehicles, as specified in §746.5627 of this chapter (relating to What documentation must I keep at the child-care center for each vehicle used to transport children in care?), if applicable [Medium]; and

- (22) Proof that you have notified parents in writing of deficiencies in safe sleeping and abuse, neglect, or exploitation, as specified in §746.309 of this chapter (relating to What are the notification requirements when Licensing finds my center deficient in a standard related to safe sleeping or the abuse, neglect, or exploitation of a child?) and §746.311 of this chapter (relating to How must I notify parents of a safe sleeping deficiency or an abuse, neglect, or exploitation deficiency?). [Medium-High]
- (23) A copy of each completed Texas Department of State Health Services Epinephrine Auto-Injectors Reporting Form used to report the administration of an unassigned epinephrine auto-injector, if your operation administers and maintains unassigned epinephrine auto-injectors. [Medium]

Technical Assistance

- Regarding paragraph (5), attendance records must also be kept on all substitutes, volunteers, and contractors that are regularly or frequently at the child-care center or counted in the child/caregiver ratio. For more information see §746.1401 of this chapter (relating to What minimum standards must substitutes, volunteers, or persons under contract with my center comply with?).
- Regarding paragraph (22), you may maintain the documentation in a manner that is consistent with your policies for record keeping, as long as you can verify that you have notified each parent as required. Possible ways to maintain proof of notification include:
 - o Keeping a copy of the notification in each child’s individual file;
 - o Keeping a single file of all notifications, with a list of the parents whom you notified attached to each notification form; or
 - o Maintaining a copy of any notification sent to a parent electronically, including the date and address to which you sent the notification.
- Regarding paragraph (23), the [DSHS Epinephrine Auto-Injectors Reporting Form](#) is available on the DSHS website.

§746.803. How long must I keep records at my child-care center?

Subchapter C, Record Keeping

Division 3, Records That Must be kept on File at the Child-Care Center

April 2017

- (a) Unless otherwise stated in this chapter, you must keep at the child-care center for at least three months from the date the record was created each record that your center is required to post or keep. [Medium-Low]

- (b) You must keep training records for the current director and caregivers for at least the current and last full training year. [Medium-Low]

§746.805. May I keep electronic records or a combination of paper and electronic records?

Subchapter C, Record Keeping

Division 3, Records That Must be kept on File at the Child-Care Center

December 2010

Yes, you may keep electronic records or a combination of paper and electronic records.

- (1) If you keep a combination of electronic and paper records, you must develop procedures that address what must be in the external paper file and what can be in the electronic file [Low];
- (2) Children's records must be accessible to all caregivers during their work shift, changes in caregivers, and emergency evacuations [Medium]; and
- (3) Records must be available during operating hours for review by Licensing upon request. [Low]

Division 4, Personnel Records

§746.901. What information must I maintain in my personnel records?

Subchapter C, Record Keeping

Division 4, Personnel Records

August 2024

You must have the following records at the child-care center and available for review during hours of operation for each employee, caregiver, substitute, and volunteer as specified in this chapter [Medium]:

- (1) Documentation showing the dates of the first and last day on the job [Medium-Low];
- (2) Documentation showing how the employee meets the minimum age and education qualifications, if applicable [Medium];
- (3) A copy of a health card or health care professional's statement verifying the employee is free of active tuberculosis, if required by the regional Texas Department of State Health Services TB program or local health authority [Low];
- (4) A notarized *Affidavit for Applicants for Employment with a Licensed Operation or Registered Child-Care Home* (Form 2985) as specified in Texas Human Resources Code, §42.059 [Medium-Low];
- (5) A *Pre-Employment Affidavit for Applicants for Employment at Certain Child Care Operations* (Form 2912) as specified in Texas Human Resources Code §42.0563 [Medium-Low];
- (6) A record of training hours, including documentation required by §746.1329 of this chapter (relating to What documentation must I provide to Licensing to verify that employees have met training requirements?) [Medium];
- (7) A statement signed and dated by the employee showing he has received a copy of the child-care center's:
 - (A) Operational policies [Medium]; and
 - (B) Personnel policies [Medium-Low];
- (8) Proof of request for background checks required by Chapter 745, Subchapter F of this title (relating to Background Checks) [High];
- (9) A copy of a photo identification [Medium];
- (10) A copy of the person's current driver's license if the person transports a child in care [Medium]; and

- (11) A statement signed and dated by the employee verifying the date the employee attended training during orientation that includes an overview of your policy on the prevention, recognition, and reporting of child maltreatment outlined in §746.1303 of this chapter (relating to What must orientation for employees at my child-care center include?).

[Medium]

Technical Assistance

Regarding §746.901(4) and (5), the affidavits are only required for substitutes, volunteers, and contractors if they meet the requirements in §746.1401 (regarding What minimum standards must substitutes, volunteers, or contractors comply with?) and require initial background checks through CCR.

§746.907. How long and where must I keep the required personnel records?

Subchapter C, Record Keeping

Division 4, Personnel Records

September 2003

- (a) You must keep all records for at least three months after an employee's last day on the job, with the exception of annual training records. [Medium-Low]
- (b) You must maintain annual training records for current personnel for the last full training year and current training year. [Medium-Low]
- (c) You must keep personnel records at the child-care center or in a central administrative location provided they are immediately available for review during hours of operation. [Medium-Low]

§746.909. May Licensing access my personnel records?

Subchapter C, Record Keeping

Division 4, Personnel Records

April 2017

Yes. Licensing staff must be given immediate access to all personnel records that document compliance with minimum standards. You must allow Licensing to photograph, copy, or scan these records if requested. [Medium]

Subchapter D, Personnel

Division 1, Child-Care Center Director

§746.1001. Who is the child-care center director?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

The child-care center director is the adult you designate to have the daily, on-site responsibility for the operation of the child-care center, including maintaining compliance with the minimum standards and Licensing laws.

Technical Assistance

The director of a child-care center plays a crucial role in ensuring the smooth day-to-day operation of the child-care center by balancing business concerns with what's good for children and by providing leadership and direction to the caregivers responsible for providing safe and healthy care for the children.

§746.1003. What are the director's responsibilities while at the child-care center?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Your child-care center director must ensure:

- (1) The child-care center's daily operation is administered in compliance with the minimum standards specified in this chapter **[High]**;
- (2) All employees comply with the minimum standards **[Medium]**;
- (3) All employees have assignments that match their skills, abilities, and training **[High]**;
- (4) All employees are supervised. Supervision includes, but is not limited to, knowing what the employees are doing and ensuring that they fulfill their assignments and responsibilities **[High]**;

(5) Caregivers are not regularly scheduled for more than ten hours of direct child care during a 24-hour period [High]; and

(6) Qualified substitutes are called as necessary to meet minimum standards. [High]

§746.1005. If I have multiple operations, must I designate a separate director for each operation?

Subchapter D, Personnel

Division 1, Child-Care Center Director

March 2023

(a) If you have multiple operations under the same governing body, you must designate a separate director for each operation [Medium].

(b) If you have designated a single director for more than one operation, you must comply with the requirement specified in subsection (a) of this section no later than March 1, 2025.

§746.1007. May I be the director of my own child-care center?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Yes. You may be both the director and permit holder of a child-care center if you meet all of the required qualifications and are able to fulfill the responsibilities of a child-care center director.

§746.1009. May I have more than one director for my child-care center?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Yes. You may designate more than one director for your child-care center; however, each director must meet the qualifications specified in this division and receive a written job description that includes job responsibilities. [Medium-Low]

Technical Assistance

The director of the child-care center is the team leader of a small business. Both administrative and child development skills are essential for this individual to manage the facility and set appropriate expectations. Because the director of a center plays a pivotal role in ensuring the day-to-day smooth functioning of the facility, it is important to clearly outline job duties and responsibilities if you designate more than one director.

§746.1011. Must my director be at my child-care center during all hours of operation?

Subchapter D, Personnel
Division 1, Child-Care Center Director
March 2023

- (a) A director must be present a minimum of 75 percent of the program's operating hours each week or a minimum of 30 hours per week, whichever is less, to ensure the operation complies with all minimum standards [Medium-High], unless:
- (1) The director is absent from the operation temporarily for vacation or other personal time off; or
 - (2) The director is engaging in professional development activities related to the role of director.
- (b) If you have designated a single director for more than one operation, you must comply with the requirements specified in subsection (a) of this section no later than March 1, 2025.

Technical Assistance

- The accessibility of the director is fundamental to a well-run child-care center and this includes the director's presence at the center.
- According to the American Academy of Pediatrics (AAP), the well-being of the children, the confidence of the parents of children in care, and the support, guidance, and professional growth of the employees depend largely upon the knowledge, skills, and dependable presence of a director.
- For the purposes of this rule, a director who is providing transportation or accompanying children and caregivers on field trips is considered present at the operation.
- Regarding paragraph (a), it is reasonable for a director to have a short-term absence or a series of absences due to vacation, illness, training (delivering or attending), mentoring other directors, etc. as long as the overall pattern of director presence meets the rule requirement of 75% or 30 hours present

§746.1013. Must someone else be designated to be in charge of my child-care center in my director's absence?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

- (a) Yes. Anytime your director is away from the child -care center during hours of operation, you or your director must designate a qualified caregiver or director to be in charge of the child-care center. Designated individuals must [Medium-High]:
- (1) Know they are in charge and for how long [Medium-High];
 - (2) Know their responsibilities while in charge [Medium];
 - (3) Have access to all essential information to communicate with parents and state and local authorities as needed [Medium]; and
 - (4) Have the authority to direct the child-care center in compliance with minimum standards. [Medium-High]
- (b) If the director must be absent for an extended period of time for any reason, you must name someone who meets director qualifications to serve during the director's absence and you must report the name of the temporary director to Licensing. [Medium]
- (c) You or your director must ensure that all other employees know who is in charge in the director's absence. [Medium-High]

Technical Assistance

- If the center director is absent from the center temporarily, the operation should designate another employee who has proven to be reliable and responsible as the interim on-site director. This designated employee must know what to do in the event of an emergency.
- Some reasons for a short absence from the center may include:
 - o Attendance at a professional development training;
 - o Short-term sick or vacation leave; or
 - o Conducting business on behalf of the center (going to the bank, grocery store, van runs, etc.).
- Some reasons for an extended absence include, but are not limited to:
 - o Maternity leave;
 - o Extended sick leave for a chronic illness; or
 - o Bereavement leave;

§746.1015. What qualifications must the director of my child-care center licensed for 13 or more children meet?

Subchapter D, Personnel

Division 1, Child-Care Center Director

March 2023

Except as otherwise provided in this division, the director of a child-care center licensed for 13 or more children must be at least 21 years of age, have a high school diploma or its equivalent, and meet one of the following combinations of education and experience, as defined in §746.1021 of this division (relating to What constitutes experience in a licensed child-care center, or in a licensed or registered child-care home?) [Medium-High]:

Figure: 26 TAC §746.1015

Education	Experience
(1) A bachelor degree with 12 college credit hours in child development and six college credit hours in management	and at least one year of experience in a licensed child-care center;
(2) An associate of applied science degree in child development or a closely related field with six college credit hours in child development and six college credit hours in management. A “closely related field” is any educational instruction pertaining to the growth, development, physical or mental care, or education of children ages birth through 13 years	and at least two years of experience in a licensed child- care center;
(3) Sixty college credit hours with nine college credit hours in child development and six college credit hours in management	and at least two years of experience in a licensed child- care center;
(4) A child-care administrator’s certificate from a community college with at least 15 college credit hours in child development and three college credit hours in management	and at least two years of experience in a licensed child- care center;
(5) Six college credit hours in management with a Child Development Associate credential or Certified Child-Care Professional credential	and at least two years of experience in a licensed child- care center;

Education	Experience
(6) A day-care administrator’s credential issued by a professional organization or educational institution and approved by Licensing based on criteria specified in Subchapter P of Chapter 745 of this title, (relating to Day-Care Administrator’s Credential Program)	and at least two years of experience in a licensed child- care center; or
(7) Nine college credit hours in child development and nine college credit hours in management	and at least three years of experience in a licensed child- care center.

Technical Assistance
- Knowledge of good business practices, administration, and child development are essential for managing a child-care center. A director has an obligation to be prepared to hire and maintain employees, establish and maintain communication with parents, and ensure the health, safety, and well-being of the children in her care. - Options (5) and (6) of this section require periodic renewal for the director to remain qualified as specified in §746.1053 of this division (relating to Will the director's certificate expire?) and §746.1055 of this division (relating to How often must an expiring certificate be renewed?).

§746.1017. What qualifications must the director of my child-care center licensed for 12 or fewer children meet?

Subchapter D, Personnel

Division 1, Child-Care Center Director

March 2023

Except as otherwise provided in this division, the director of a child-care center licensed for 12 or fewer children must be at least 21 years old, have a high school diploma or its equivalent, and meet one of the following combinations of education and experience, as defined in §746.1021 of this title (relating to What constitutes experience in a licensed child- care center, or in a licensed or registered child -care home?) **[Medium-High]**:

Figure: 26 TAC §746.1017

Education	Experience
(1) A bachelor degree with 12 college credit hours in child development and three college credit hours in management	and at least one year of experience in a licensed child-care center or a licensed or registered child- care home;
(2) An associate of applied science degree in child development or a closely related field with six college credit hours in child development and three college credit hours in management. A “closely related field” is any educational instruction pertaining to the growth, development, physical or mental care, or education of children ages birth through 13 years	and at least one year of experience in a licensed child-care center or a licensed or registered child- care home;
(3) Sixty college credit hours with six college credit hours in child development and three college credit hours in management	and at least one year of experience in a licensed child-care center or a licensed or registered child-care home;
(4) Six college credit hours in management with a Child Development Associate credential or Certified Child-Care Professional credential	and at least one year of experience in a licensed child-care center or a licensed or registered child-care home;
(5) A child-care administrator’s certificate from a community college with at least 15 college credit hours in child development and three college credit hours in management	and at least two years of experience in a licensed child-care center or a licensed or registered child- care home;
(6) A day-care administrator’s credential issued by a professional organization or an educational institution and approved by Licensing based on criteria specified in Subchapter P of Chapter 745 of this title (relating to Day-Care Administrator’s Credential Program)	and at least two years of experience in a licensed child-care center or licensed or registered child- care home; or
(7) Seventy-two clock hours of training in child development and 30 clock hours in management	and at least three years of experience in a licensed child-care center or a licensed or registered child-care home.

Technical Assistance

Options (5) and (6) of this section require periodic renewal for the director to remain qualified as specified in §746.1053 of this division (relating to Will the director's certificate expire?) and §746.1055 of this division (relating to How often must an expiring certificate be renewed?).

§746.1021. What constitutes experience in a licensed child-care center, or in a licensed or registered child-care home?

Subchapter D, Personnel

Division 1, Child-Care Center Director

April 2017

- (a) Only the following types of experience may be counted as experience in a licensed child - care center:
 - (1) Experience as a director, assistant director, or as a caregiver working directly with children in a DFPS licensed or certified child-care center (or similar type of day care center that was formerly licensed, certified, or accredited by DFPS); and
 - (2) Experience as a director, assistant director, or caregiver working directly with children in a licensed or certified child-care center in another state or country.
- (b) Only experience working directly with children in a DFPS licensed or registered child-care home (or in a group day-care home that was formerly licensed by DFPS) as an assistant caregiver, substitute caregiver, or primary caregiver may be counted as experience in a licensed or registered child-care home.
- (c) You must have obtained all work experience in a full-time capacity or its equivalent in a part-time capacity. Full-time is defined as at least 30 hours per week. The work experience may be paid or unpaid. [Low]

§746.1023. May other types of experience be substituted for the required experience in a licensed child-care center, or in a licensed or registered child-care home?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2010

The following types of experience may be substituted for one year of the required experience:

- (1) One year of full-time classroom teaching in a public or private accredited school in grades pre-kindergarten through third, during a customary school year;
- (2) Substitute or part-time classroom teaching in a public or private accredited school in grades pre-kindergarten through third, if the total length of time adds up to one year of full-time teaching during a customary school year; and
- (3) One year of post-graduate study in child development, early childhood education, or a closely related field.

§746.1025. Can Licensing verify whether someone has sufficient experience in a licensed child-care center, or in a licensed or registered child-care home?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Yes. To determine whether a person has sufficient experience to qualify as a director, we may, at our own discretion, verify child-care experience and substitute child-care experience via the Internet, telephone or mail contact with previous employer(s), or through our records.

§746.1027. What credit courses does Licensing recognize as child development?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2010

Due to a large variation in credit course titles and content, it is impossible to list all courses that may be counted toward the child development requirement. Courses in early childhood education, child growth and development, psychology, sociology, classroom management, child psychology, health and safety of children, elementary education related to pre- kindergarten through third grade, and other similar courses may be counted, provided the course content relates to child development or the topics specified in §746.1309 of this title (relating to How many clock hours of annual training must be obtained by caregivers?). Abnormal psychology and secondary education courses are not recognized as child development.

§746.1029. What credit courses does Licensing recognize as management?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2010

Due to a large variation in credit course titles and content, it is impossible to list all courses that may be counted toward the management requirement. Management courses may include administration of a child-care facility, recreational leadership, accounting, goal and objective setting, performance planning and evaluation, management techniques, risk management and other administrative, management, or supervisory-related courses. Courses in office machines or computer training are not recognized as management.

§746.1031. What documentation must I provide to show that my director meets the acceptable child development and management education qualifications?

Subchapter D, Personnel

Division 1, Child-Care Center Director

April 2017

If requested by Licensing, you must provide original transcripts and supporting documentation, such as a credit course catalog description or a course syllabus or outline to determine whether the course is recognized as child development or management.

§746.1037. May clock hours or CEUs (continuing education units) be substituted for any of the educational requirements in this division?

Subchapter D, Personnel

Division 1, Child-Care Center Director

March 2023

- (a) Clock hours or CEUs may only be substituted for the required credit hours in child development and management.
- (b) 50 clock hours or five CEUs may be substituted for every three college credit hours required in child development and management.
- (c) The documentation to verify the clock hours or CEUs must be as specified in §746.1329 of this title (relating to What documentation must I provide to Licensing to verify that employees have met training requirements?).

§746.1039. What additional documentation must I submit to Licensing to show my child-care center director is qualified and when must I submit it?

Subchapter D, Personnel

Division 1, Child-Care Center Director

April 2017

(a) In addition to showing that your director meets the minimum qualifications for an employee (and minimum qualifications for a caregiver, if applicable), you must submit the following for each director at your child-care center:

- (1) A completed Licensing *Personal History Statement* form specifying the education and experience of your designated director [Medium];
- (2) A completed *Licensing Governing Body/Director Designation* form [Medium-Low];
- (3) An original and current *Licensing Child-Care Center Director's Certificate* form; or an original college transcript or original training certificates which verify the educational requirements [Medium]; and
- (4) Complete dates, names, addresses, and telephone numbers which support the required experience. [Medium]

(b) You must submit the information to us:

- (1) As part of a new application for a permit [Medium]; or
- (2) Within five days of designating a new director. [Medium]

§746.1045. Does education received outside of the United States substitute for the education requirements for a child-care director?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Yes, however you must provide supporting information such as a copy of the diploma or transcript or letter from the school to indicate that the education is equivalent to a program in the United States. Documents written in a foreign language must be translated into English. [Low]

§746.1047. Will Licensing keep the original training certificates and college transcripts I submit to obtain a Licensing director's certificate?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

No. After we evaluate this information and issue a director's certificate, we will return the original documents to you along with the certificate or if a certificate is not issued along with the letter notifying you of the decision.

§746.1049. What happens if Licensing determines that my child-care center director does not meet minimum standard qualifications?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

We will notify you that your director is in violation of minimum standards for failure to meet child-care center director qualifications as soon as possible but no later than ten days after a determination is made. We will give you a deadline to submit additional paperwork or to designate another director and submit new paperwork.

§746.1051. Will my director receive a certificate verifying that director qualifications have been met?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Yes. After we determine that your director meets minimum standard qualifications, we will issue a Licensing Child-Care Center Director's Certificate. The certificate verifies only that the named person meets minimum standard qualifications specified in §746.1015 of this title (relating to What qualifications must the director of my child-care center licensed for 13 or more children meet?) or §746.1017 of this title (relating to What qualifications must the director of my child-care center licensed for 12 or fewer children meet?).

§746.1053. Will the director's certificate expire?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2024

The director's certificate will not expire unless the director was qualified:

- (1) Under (5) or (6) in Figure: 26 TAC §746.1015 of this division (relating to What qualifications must the director of my child-care center licensed for 13 or more children meet?);
- (2) Under (4) or (6) in Figure: 26 TAC §746.1017 of this division (relating to What qualifications must the director of my child-care center licensed for 12 or fewer children meet?); or
- (3) As an interim director as outlined in §746.1067 of this division (relating to When may a child-care center designate someone as its interim director?).

§746.1055. How often must an expiring certificate be renewed?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

If you qualify under subsection (a), options (5) or (6) in §746.1015 of this title (relating to What qualifications must the director of my child-care center licensed for 13 or more children meet?) or subsection (a), options (4) or (6) in §746.1017 of this title (relating to What qualifications must the director of my child -care center licensed for 12 or fewer children meet?), you must maintain your credential according to the issuing organization's or educational institution's requirements. You must submit to us a copy of a letter or other documentation confirming the credential is current before we can renew your Child-Care Center Director's Certificate.

§746.1057. What happens if my director's credential expires?

Subchapter D, Personnel

Division 1, Child-Care Center Director

April 2017

We will give you a deadline for your director to submit the required documentation or for you to designate another qualified director. If your director allows the certificate to expire without submitting the required documentation confirming that the credential is current, then your center will no longer meet the minimum standards for a child -care center director. [\[Low\]](#)

§746.1059. If I hire someone who was qualified as a director at another licensed child-care center in Texas, must I resubmit all of the information to Licensing staff for review?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

- (a) If you can provide an original and current Licensing director's certificate, you will not be required to resubmit the information establishing qualifications.
- (b) If an original and current Licensing *Child-Care Center Director's Certificate* is not available, or Licensing cannot verify the director is qualified, you must resubmit the information to us to determine if your designated director meets minimum child-care center director qualifications.

§746.1061. Does Licensing charge a fee for issuing the director's certificate?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

No. We do not charge a fee for processing a director's certificate.

§746.1063. Can my director get a replacement Child-Care Center Director's Certificate?

Subchapter D, Personnel

Division 1, Child-Care Center Director

September 2003

Yes. We will issue a replacement *Child-Care Center Director's Certificate*, if you submit your request to us in writing, specifying:

- (1) The name and address of your child-care center;
- (2) The name of the director for whom the replacement certificate is needed;
- (3) The date we issued the original certificate; and
- (4) The reason a replacement certificate is needed.

§746.1065. What is an interim director?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2024

- (a) An interim director is an individual designated to serve as the director of a child-care center under §746.1067 of this division (relating to When may a child-care center designate someone as its interim director?).
- (b) The interim director has the same responsibilities as a child-care center director as outlined in this chapter.

§746.1067. When may a child-care center designate someone as its interim director?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2024

A child-care center may designate an individual to serve as its interim director if:

- (1) The center is operating with an initial license; and
- (2) The individual meets all the requirements to serve as director except the educational requirement in:
 - (A) §746.1015 of this division (relating to relating to What qualifications must the director of my child-care center licensed for 13 or more children meet?); or
 - (B) §746.1017 of this division (relating to What qualifications must the director of my child-care center licensed for 12 or fewer children meet?).

§746.1069. May someone serving as interim director of a child-care center continue to serve as director after the center receives a full license?

Subchapter D, Personnel

Division 1, Child-Care Center Director

December 2024

- (a) Someone serving as interim director of a child-care center may serve as the center's director after the center receives a full license if [Medium-High]:
 - (1) The individual has completed the educational requirement and fully qualifies to serve as a child-care center director; or
 - (2) The child-care center obtains a waiver or variance from Child Care Regulation that allows the center to have a director who does not meet the educational requirement.
- (b) A child-care center must employ a new director if the individual who served as interim director does not qualify under subsection (a) of this section. [Medium-High]

Division 2, Child-Care Center Employees and Caregivers

§746.1105. What minimum qualifications must each of my child-care center employees meet?

Subchapter D, Personnel

Division 2, Child-Care Center Employees and Caregivers

August 2024

Each child-care center employee must:

- (1) Meet the requirements in Chapter 745, Subchapter F of this title (relating to Background Checks);
- (2) Have a current record of a tuberculosis examination, showing the employee is free of contagious TB, if required by the Texas Department of State Health Services or local health authority [Low]; and
- (3) Complete a notarized *Affidavit for Applicants for Employment with a Licensed Operation or Registered Child-Care Home* (Form 2985) before you hire the employee, as specified in Human Resources Code §42.059 [Low]; and
- (4) Complete a *Pre-Employment Affidavit for Applicants for Employment at Certain Child Care Operations* (Form 2912) before you hire the employee, as specified in Texas Human Resources Code §42.0563. [Low]

Technical Assistance
Regarding §746.1105(4), the affidavit is not a substitute for complying with CCR’s background check requirements. Regardless of what information a person documents on the affidavit about charges, convictions, or adjudications of a crime involving an inappropriate relationship with a minor, CCR may determine the prospective employee ineligible to be present at an operation due to a background check result. If CCR determines a person is eligible to be present at an operation based on the person’s background check results, and the person documents in the affidavit a charge of an inappropriate relationship with a minor, the operation may choose to employ the person if the operation determines that the charge was false based on the information disclosed in the affidavit. Moreover, an operation may terminate an employee for failing to disclose the information required in the affidavit.

§746.1107. What additional minimum qualifications must each of my caregivers meet?

Subchapter D, Personnel
Division 2, Child-Care Center Employees and Caregivers
October 2018

Except as otherwise provided in this division, each caregiver must comply with minimum standards for employees and must [Low]:

- (1) Be at least 18 years of age [Medium]; and
- (2) Have a:
 - (a) High school diploma [Medium-High];
 - (b) High school equivalent [Medium-High]; or
 - (c) High school certificate of coursework completion as defined in Texas Education Code, §28.025(d). [Medium-High]

Technical Assistance
• Research clearly shows that the caregiver-child relationship is the single most important component of a child’s experience in care. • Caregivers chosen for their knowledge of the developmental needs of the children in their care and for their ability to respond appropriately to these needs promote a healthy and safe child-care environment.

§746.1109. When may I employ a person under the age of 18 or a person who does not have a high school diploma or equivalent as a caregiver?

Subchapter D, Personnel
Division 2, Child-Care Center Employees and Caregivers
April 2017

- (a) You may employ a 16 or 17 year old who has a high school diploma or its equivalent and count the person in the child/caregiver ratio, provided that:
 - (1) You don't leave the person alone with sole responsibility for or in charge of an individual child, a group of children, or the child-care center [Medium];

(2)The person works in the same room with and is supervised by a caregiver qualified under §746.1107 of this title (relating to What additional minimum qualifications must each of my caregivers meet?) [Medium-High]; and

(3)The person has completed a child-care-related career program, which:

(A)The Texas Education Agency (including a charter school), the Texas Private School Accreditation Commission, other similar educational entity in another state, or federal agency approves [Medium]; or

(B)A home-school approves, and the person completes all 24 hours of pre-service training before being placed in a room with children. [Medium]

(b)You may employ a 16, 17, or 18 year old who attends high school but has not graduated and count the person in the child/caregiver ratio, provided that:

(1)You don't leave the person alone with sole responsibility for or in charge of an individual child, a group of children, or the child -care center [Medium];

(2)The person works in the same room with and is supervised by a caregiver qualified under §746.1107 of this title [Medium-High];

(3)The person is currently enrolled in or has completed a child-care-related career program, which:

(A) The Texas Education Agency (including a charter school), the Texas Private School Accreditation Commission, other similar educational entity in another state, or federal agency approves [Medium]; or

(B) A home-school approves, and the person completes all 24 hours of pre-service training before being placed in a room with children [Medium]; and

(4)The person is expected to obtain a high school diploma or equivalent. [Medium]

Technical Assistance

- Age 18 is the minimal age a caregiver can be expected to make independent decisions and respond appropriately to the needs of children.
- A high school diploma or its equivalency is a recognized indicator of basic literacy in our society.

§746.1111. Does education received outside of the United States count toward caregiver qualifications?

Subchapter D, Personnel
Division 2, Child-Care Center Employees and Caregivers
September 2003

Yes, however you must provide supporting information such as a copy of the diploma or letter from the school district to indicate that the education is equivalent to a high school diploma program in the United States. Documents written in a foreign language must be translated into English.
[Medium]

Technical Assistance
The U.S. Department of Education has more information regarding recognition of foreign qualifications.

Division 3, General Responsibilities for Child-Care Center Personnel

§746.1201. What general responsibilities do my child-care center employees have?

Subchapter D, Personnel

Division 3, General Responsibilities for Child-Care Center Personnel

December 2010

All child-care center employees, including persons not counted in the child/caregiver ratio, must:

- (1) Demonstrate competency, good judgment, and self-control in the presence of children and when performing assigned responsibilities [High];
- (2) Relate to children with courtesy, respect, acceptance, and patience [High];
- (3) Recognize and respect the uniqueness and potential of all children, their families, and their cultures [Medium-High];
- (4) Ensure that no child is abused, neglected, or exploited while in the care of the center [High]; and
- (5) Report suspected abuse, neglect, and exploitation to DFPS as specified in the Texas Family Code, §261.101. [High]

§746.1203. What additional responsibilities do my caregivers have?

Subchapter D, Personnel

Division 3, General Responsibilities for Child-Care Center Personnel

March 2023

In addition to the responsibilities for employees specified in this division, caregivers must:

- (1) Know and comply with the minimum standards for child-care centers [High];
- (2) Supervise children at all times, as specified in §746.1205 of this division (relating to What responsibilities does a caregiver have when supervising a child or children?);
- (3) Be free from activities not directly involving the teaching, care, and supervision of children, such as:
 - (A) Administrative and clerical duties that take the caregiver's attention away from the children [Medium-High];

- (B) Meal preparation, except when 12 or fewer children are in care [Medium-High];
 - (C) Janitorial duties [Medium-High]; and
 - (D) Personal use of electronic devices, such as cell phones, MP3 players, tablets, and video games [Medium-High];
- (4) Provide care that is consistent with the child's habits, interests, strengths, and any special needs, including any special supervision needs or care as outlined in §746.2202 of this chapter (relating to What are my responsibilities when planning activities for a child in care with special care needs?) [Medium-High];
 - (5) Interact with children in a positive manner [Medium-High];
 - (6) Set appropriate behavior expectations based on the child's current stage of development [Medium-High];
 - (7) Foster developmentally appropriate independence in children through planned but flexible program activities [Medium-High];
 - (8) Foster a cooperative rather than a competitive atmosphere [Medium-High];
 - (9) Show appreciation of children's efforts and accomplishments [Medium-Low]; and
 - (10) Ensure continuity of care for children by sharing with incoming caregivers information about each child's activities during the previous shift and any verbal or written instructions given by the parent. [Medium-High]

Technical Assistance

- Research has shown children's physical, social, emotional, and intellectual development and safety depend on consistent, caring interaction between children and their caregivers.
- Regarding paragraph (3)(A), administrative duties are tasks that involve meeting the business needs of a child-care center, such as bookkeeping, enrolling children, answering the main office telephone, giving tours to prospective families, etc. A caregiver who is engaged in these tasks is not fully available to meet the health and safety needs of the children in care, including supervising children and preventing situations that could result in a child getting hurt.
- Regarding paragraph (3)(C), janitorial duties include those tasks outlined in §746.123(39). As with administrative duties, a caregiver who is engaged in these tasks is not fully available to the children in care and is unable to supervise and interact with them in a way that meets their needs and keeps them safe.
- Regarding paragraph (3)(D), a child-care center may assign an electronic device, such as a tablet, to a caregiver or classroom so that the caregiver can record daily attendance, document a child's day, take photographs for parents, etc. However, the caregiver cannot use any electronic device (whether personal or center-owned) for personal reasons,

Technical Assistance
including texting, using social media, internet browsing, checking email, etc.

§746.1205. What responsibilities does a caregiver have when supervising a child or children?

Subchapter D, Personnel

Division 3, General Responsibilities for Child-Care Center Personnel

March 2023

(a) The caregiver is responsible for:

- (1) Knowing which children the caregiver is responsible for [High];
- (2) Knowing how many children the caregiver is responsible for [High];
- (3) Knowing each child's name and having information showing each child's age [Medium-High];
- (4) Providing the level of supervision necessary to ensure each child's safety and well-being, including physical proximity and auditory or visual awareness of each child's on going activity as appropriate [High]; and
- (5) Being able to intervene when necessary to ensure each child's safety [High].

(b) In deciding how closely to supervise a child, the caregiver must consider:

- (1) The child's chronological age;
- (2) The child's current stage of development;
- (3) The child's individual differences and abilities;
- (4) The indoor and outdoor layout of the operation;
- (5) The circumstances, hazards, and risks surrounding the child; and
- (6) The child's physical, mental, emotional, and social needs.

Technical Assistance
- Supervision is basic to the prevention of harm. Parents have an understanding that caregivers will supervise their children in their absence. Adults who are attentive and who understand young children's behaviors are in the best position to safeguard their well-being. - Child-care centers can also establish an understanding with parents regarding who (when the parent and when the center) is responsible for the child while the parent and the child are both on the grounds. These understandings could be laid out in the enrollment agreement. - Regarding paragraphs (a)(1) and (a)(2), the caregiver must always know which children

Technical Assistance
he or she is responsible for as well as how many children are in his or her group. This requirement is critical, especially during transitions, to ensure all children are accounted for and appropriately supervised.

Division 4, Professional Development

§746.1301. What are the training requirements for employees, caregivers, and directors?

Subchapter D, Personnel
Division 4, Professional Development
September 2024

(a) Employees, caregivers, and directors must complete the following training requirements.

Figure: 26 TAC §746.1301(a)

Weight	Type of training:	Who is required to take the training?	When must the training be completed?
Medium-High	(1)(A)Orientation to your child-care center as required by §746.1303 of this division (relating to What must orientation for employees at my child-care center include?).	(B) Each employee.	(C) Within seven days of employment and before having unsupervised access to a child in care.
Medium-High	(2)(A) 24 clock hours of pre-service training as required by §746.1305 of this division (relating to What must be covered in pre-service training for caregivers?).	(B) Each nonexempt caregiver. A caregiver may be exempt from pre- service training as specified in 746.1307 of this division (relating to Are any caregivers exempt from the pre-service training?).	(C) For nonexempt caregivers: Eight hours before the caregiver may be counted in the child/caregiver ratio; and 16 hours within 90 days of employment.

Weight	Type of training:	Who is required to take the training?	When must the training be completed?
Medium-High	(3)(A) Pediatric first aid with rescue breathing as required by 746.1315(a) of this division (relating to Who must have pediatric first-aid and pediatric CPR training?).	(B) Each caregiver and child-care center director.	(C)(i) Within 90 days of employment and before having unsupervised access to a child in care; and (C)(ii) The person must stay current in this training.
Medium-High	(4)(A) Pediatric CPR as required by §746.1315(b) of this division.	(B) Each caregiver and child-care center director.	(C)(i) Within 90 days of employment; and (C)(ii) The person must stay current in this training.
Medium-High	(5)(A) 24 clock hours of annual training as required by §746.1309 of this division (relating to What areas of training must the annual training for caregivers cover?).	(B) Each caregiver.	(C)(i) Within 12 months of employment; and (C)(ii) During each 12-month period, and as further required by §746.1313 of this division (relating to When must annual training for my caregivers and director be obtained?).
Medium-High	(6)(A) 30 clock hours of annual training as required by §746.1311 of this division (relating to What areas of training must the annual training for my child-care center director cover?).	(B) A child-care center director.	(C)(i) Within 12 months of employment; and (C)(ii) During each 12-month period, and as further required by §746.1313 of this division.

Weight	Type of training:	Who is required to take the training?	When must the training be completed?
Medium-High	(7)(A) Transportation safety training as required by §746.1316 of this division (relating to What additional training must an employee and director have if the operation transports children?).	(B)(i) The child-care center director, if the center transports a child whose chronological or developmental age is younger than nine years old; and (B)(ii) Each employee who transports a child whose chronological or developmental age is younger than nine years old.	(C)(i) Prior to transporting children; and (C)(ii) Annually, thereafter.
Medium-High	(8)(A) Water safety training as required by §746.1325 of this division (relating to What additional training must an employee and director have if the child-care center allows a child to access a swimming pool at or away from the center?)	(B)(i) The child-care center director, if the center allows a child to access a swimming pool at or away from the center; and (B)(ii) Each employee who accompanies a child to a swimming pool at or away from the center.	(C)(i) Prior to accompanying a child to a swimming pool; and (C)(ii) Annually thereafter.

(b) If a caregiver or employee does not yet have a current certificate in pediatric CPR as required in (a)(4)(A) in Figure: 26 TAC §746.1301(a), at least one caregiver or employee with a current certificate must also be on the premises with the caregiver.

§746.1303. What must orientation for employees at my child-care center include?

Subchapter D, Personnel

Division 4, Professional Development

October 2018

Your orientation for employees must include at least the following:

- (1)An overview of the minimum standards found in this chapter [Medium-High];
- (2)An overview of your operational policies including discipline and guidance practices, and procedures for the release of children [Medium-High];
- (3)An overview of your policy on the prevention, recognition, and reporting of child maltreatment, including:
 - (A)Factors indicating a child is at risk of abuse or neglect [Medium];
 - (B)Warning signs indicating a child may be a victim of abuse or neglect [Medium];
 - (C)Procedures for reporting child abuse or neglect [Medium]; and
 - (D) Community organizations that have training programs available to employees, children, and parents [Medium];
- (4)An overview of the procedures to follow in handling emergencies, which includes sharing the emergency preparedness plan with all employees. Emergencies may include, but are not limited to, fire, explosion, tornado, toxic fumes, volatile persons, and severe injury or illness of a child or adult [Medium-High];
- (5)The location and use of fire extinguishers and first-aid equipment [Medium-High];
- (6)Administering medication, if applicable, including compliance with §746.3803 of this chapter (relating to What authorization must I obtain before administering a medication to a child in my care?) [Medium];
- (7)Preventing and responding to emergencies due to food or an allergic reaction [Medium];
- (8)Understanding building and physical premises safety, including identification and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic [Medium];
- (9)Handling, storing, and disposing of hazardous materials including compliance with §746.3425 of this chapter (relating to Must caregivers wear gloves when handling blood or bodily fluids containing blood?) [Medium]; and
- (10)Precautions in transporting children if your center transports a child whose chronological or developmental age is younger than nine years old. [Medium]

Technical Assistance

- Orientation programs for new employees should be specific to the individual child-care center.
- Orientation, which addresses employee responsibilities, is different from training, which addresses issues general to the care of children.

§746.1305. What must be covered in pre-service training for caregivers?

Subchapter D, Personnel

Division 4, Professional Development

September 2016

(a) Pre-service training for caregivers must cover the following areas:

- (1) Developmental stages of children [Medium];
- (2) Age-appropriate activities for children [Medium];
- (3) Positive guidance and discipline of children [Medium];
- (4) Fostering children's self-esteem [Medium];
- (5) Supervision and safety practices in the care of children [Medium];
- (6) Positive interaction with children [Medium]; and
- (7) Preventing and controlling the spread of communicable diseases, including immunizations. [Medium]

(b) If a caregiver provides care for children younger than 24 months of age, one hour of that caregiver's pre-service training must cover the following topics:

- (1) Recognizing and preventing shaken baby syndrome and abusive head trauma [Medium-High];
- (2) Understanding and using safe sleep practices and preventing sudden infant death syndrome (SIDS) [Medium-High]; and
- (3) Understanding early childhood brain development. [Medium-High]

Technical Assistance

- Pre-service training should be viewed as a support to the caregiver who has taken on the responsibility of caring for children for the first time.
- Research indicates without some basic understanding of children and how to work with them, the health, safety, and well-being of the children in care are at risk.

§746.1307. Are any caregivers exempt from the pre-service training?

Subchapter D, Personnel

Division 4, Professional Development

September 2016

Yes. A caregiver is exempt from the pre-service training requirements if the caregiver has:

- (1) At least two years prior experience in a regulated child-care center; or
- (2) Documentation of at least 24 clock hours of training in the areas specified in §746.1305 of this title (relating to What must be covered in pre-service training for caregivers?) at another regulated child-care center.

§746.1309. What areas of training must the annual training for caregivers cover?

Subchapter D, Personnel

Division 4, Professional Development

September 2024

- (a) The 24 clock hours of annual training must be relevant to the age of the children for whom the caregiver provides care. [Medium]
- (b) At least six clock hours of the annual training hours must be in one or more of the following topics:
 - (1) Child growth and development [Medium];
 - (2) Guidance and discipline [Medium];
 - (3) Age-appropriate curriculum [Medium]; and
 - (4) Teacher-child interaction. [Medium]
- (c) At least one clock hour of the annual training hours must focus on prevention, recognition, and reporting of child maltreatment, including:
 - (1) Factors indicating a child is at risk for abuse or neglect [Medium];
 - (2) Warning signs indicating a child may be a victim of abuse or neglect [Medium];
 - (3) Procedures for reporting child abuse or neglect [Medium]; and
 - (4) Community organizations that have training programs available to employees, children, and parents. [Medium]

- (d) If a caregiver provides care for children younger than 24 months of age, one clock hour of the annual training hours must cover the following topics:
- (1) Recognizing and preventing shaken baby syndrome and abusive head trauma [Medium-High];
 - (2) Understanding and using safe sleep practices and preventing sudden infant death syndrome (SIDS) [Medium-High]; and
 - (3) Understanding early childhood brain development. [Medium-High]
- (e) While there are no clock hour requirements for the topics in this subsection, the annual training hours must also include training on the following topics:
- (1) Emergency preparedness [Medium];
 - (2) Preventing and controlling the spread of communicable diseases, including immunizations [Medium];
 - (3) Administering medication, if applicable, including compliance with §746.3803 of this chapter (relating to What authorization must I obtain before administering a medication to a child in my care?) [Medium];
 - (4) Preventing and responding to emergencies due to food or an allergic reaction [Medium];
 - (5) Understanding building and physical premises safety, including identification and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic [Medium]; and
 - (6) Handling, storing, and disposing of hazardous materials including compliance with §746.3425 of this chapter (relating to Must caregivers wear gloves when handling blood or bodily fluids containing blood?). [Medium]
- (f) The remaining annual training hours must be in one or more of the following topics:
- (1) Care of children with special needs [Low];
 - (2) Child health (for example, nutrition and physical activity) [Low];
 - (3) Safety [Low];
 - (4) Risk management [Low];
 - (5) Identification and care of ill children [Low];
 - (6) Cultural diversity for children and families [Low];
 - (7) Professional development (for example, effective communication with families and time and stress management) [Low];
 - (8) Topics relevant to the particular age group the caregiver is assigned (for example, caregivers assigned to an infant or toddler group should receive training on biting and toilet training) [Low];
 - (9) Planning developmentally appropriate learning activities [Low];

(10) Observation and assessment [Low];

(11) Attachment and responsive care giving [Low]; and

(12) Minimum standards and how they apply to the caregiver. [Low]

(g) At least five of the 24 required annual training hours must come from instructor-led training. The remaining 19 required annual training hours may come from self-instructional training, of which no more than three hours may come from self-study training [Medium-Low];

(h) The 24 clock hours of annual training are exclusive of any requirements for orientation, pre-service training, pediatric first-aid and pediatric CPR training, transportation safety training, water safety training, and high school child-care work-study classes.

Technical Assistance

- Research has shown that caregivers who are better trained are better able to prevent, recognize, and correct health and safety problems.
- Annual ongoing training provides caregivers an opportunity to learn the newest techniques for addressing children's behaviors, to discover the latest findings on what children need as they develop, and to refresh and re-energize their skills.
- Some re-training on previously studied topics is necessary to keep skills and knowledge up-to-date.
- Regarding paragraph (b)(1), annual training in child growth and development includes the major domains of child development, which are:
 - o Cognitive development;
 - o Social development;
 - o Emotional development;
 - o Physical development; and
 - o Approaches to learning
- Regarding paragraph (e), a caregiver is required to have annual training in topic areas (e)(1)-(e)(6), but the child-care center can determine how many hours the caregiver must have in each of those topics, based on the length of the training, a caregiver's job duties, etc. For example, the caregiver may have one hour of training in each topic area, or one hour in emergency preparedness, one hour in communicable disease prevention, two hours in medication administration, etc.
- Regarding paragraph (f), additional examples that may fall within the required categories include child mental health, social and emotional learning, and positive behavior interventions and supports.
- Regarding paragraph (g), CCR will only evaluate the number of required training hours a caregiver completes. As long as a caregiver has at least five hours of instructor-led training, a caregiver who exceeds the minimum number of required hours can complete the extra hours through instructor-led or self-instructional training as determined by the caregiver or child-care center.
- Regarding paragraph (g), most of a caregiver's training should come from sources that allow an assessment of the caregiver's understanding and feedback from an instructor. While self-study from materials such as videos, books, and articles provide an opportunity for a caregiver to expand knowledge on subjects of interest to him or her and for which there may not be an established training, this type of training does not assess what the caregiver learned. It is important that the majority of training come from sources that allow an assessment of the caregiver's understanding and feedback from an instructor to ensure that the caregiver appropriately applies the information learned in a child care setting.

§746.1311. What areas of training must the annual training for my child-care center director cover?

Subchapter D, Personnel

Division 4, Professional Development

March 2023

- (a) The 30 clock hours of annual training must be relevant to the age of the children for whom the child-care center provides care. [Medium]
- (b) At least six clock hours of the annual training hours must be in one or more of the following topics:
 - (1) Child growth and development [Medium];
 - (2) Guidance and discipline [Medium];
 - (3) Age-appropriate curriculum [Medium];
 - (4) Teacher-child interaction [Medium]; and
 - (5) Serving children with special care needs. [Medium]
- (c) At least one clock hour of the annual training hours must focus on prevention, recognition, and reporting of child maltreatment, including:
 - (1) Factors indicating a child is at risk for abuse or neglect [Medium];
 - (2) Warning signs indicating a child may be a victim of abuse or neglect [Medium];
 - (3) Procedures for reporting child abuse or neglect [Medium]; and
 - (4) Community organizations that have training programs available to employees, children, and parents. [Medium]
- (d) If the center provides care for children younger than 24 months of age, one hour of the annual training hours must cover the following topics:
 - (1) Recognizing and preventing shaken baby syndrome and abusive head trauma [Medium-High];
 - (2) Understanding and using safe sleep practices and preventing sudden infant death syndrome (SIDS) [Medium-High]; and
 - (3) Understanding early childhood brain development. [Medium-High]
- (e) While there are no clock hour requirements for the topics in this subsection, the annual training hours must also include training on the following topics:
 - (1) Emergency preparedness [Medium];

- (2) Preventing and controlling the spread of communicable diseases, including immunizations [Medium];
 - (3) Administering medication, if applicable, including compliance with §746.3803 of this chapter (relating to What authorization must I obtain before administering a medication to a child in my care?) [Medium];
 - (4) Preventing and responding to emergencies due to food or an allergic reaction [Medium];
 - (5) Understanding building and physical premises safety, including identification and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic [Medium]; and
 - (6) Handling, storing, and disposing of hazardous materials including compliance with §746.3425 of this chapter (relating to Must caregivers wear gloves when handling blood or bodily fluids containing blood?). [Medium]
- (f) A director with:
- (1) Five or fewer years of experience as a designated director of a child -care center must complete at least six clock hours of the annual training hours in management techniques, leadership, or staff supervision [Medium]; or
 - (2) More than five years of experience as a designated director of a child-care center must complete at least three clock hours of the annual training hours in management techniques, leadership, or staff supervision. [Low]
- (g) The remainder of the 30 clock hours of annual training must be selected from the training topics specified in §746.1309(f) of this division (relating to What areas of training must the annual training for caregivers cover?). [Low]
- (h) The director may obtain clock hours or CEUs from the same sources as caregivers.
- (i) A director may not earn training hours by presenting training to others.
- (j) At least six of the required 30 annual training hours must come from instructor-led training. The remaining 24 required annual training hours may come from self-instructional training, of which no more than three hours may come from self-study training. [Medium-Low]

Technical Assistance

- The 30 clock hours of annual training are exclusive of any requirements for orientation, pre- service training, pediatric first aid and pediatric CPR training, and transportation safety training.
- Regarding paragraph (b)(1), annual training in child growth and development includes the major domains of child development, which are:
 - o Cognitive development;
 - o Social development;
 - o Emotional development;
 - o Physical development; and
 - o Approaches to learning
- Regarding paragraph (e), a director is required to have annual training in topic areas (e)(1)-(e)(6), but the governing body or director can determine how many hours the director must have in each of those topics, based on the length of the training, the director's previous experience, etc. For example, the director may have one hour of training in each topic area, or one hour in emergency preparedness, one hour in communicable disease prevention, two hours in medication administration, etc.
- Regarding paragraph (j), CCR will only evaluate the number of required training hours a director completes. As long as a director has at least six hours of instructor-led training, a director who exceeds the minimum number of required hours can complete the extra hours through instructor-led or self-instructional training as determined by the director or child-care center.
- Regarding paragraph (j), most of a director's training should come from sources that allow an assessment of the director's understanding and feedback from an instructor. While self-study from materials such as videos, books, and articles provides an opportunity for directors to expand knowledge on subjects of interest to him or her and for which there may not be an established training, this type of training does not assess what the director learned. It is important that the majority of training come from sources that allow an assessment of the director's understanding and feedback from an instructor to ensure that the director appropriately applies the information learned in a child care setting.

§746.1313. When must annual training for my caregivers and director be obtained?

Subchapter D, Personnel

Division 4, Professional Development

December 2010

Each caregiver and director must obtain their annual training within 12 months from the date of their employment and during each subsequent 12-month period unless otherwise specified in this division. If they obtain more than the minimum number of annual training clock hours required, they may not carry the additional clock hours over to the next year. [Low]

§746.1315. Who must have pediatric first-aid and pediatric CPR training?

Subchapter D, Personnel

Division 4, Professional Development

October 2018

- (a) Each caregiver and the child-care center director must have a current certificate of training with an expiration or renewal date in pediatric first aid with rescue breathing and choking. [Medium-High]
- (b) Each caregiver and the child-care center director must have a current certificate of training with an expiration or renewal date in pediatric cardiopulmonary resuscitation (CPR). A new caregiver does not have to have a current certificate in pediatric CPR before having unsupervised access to a child in care. However, the operation must have at least one employee or caregiver on the premises while children are in care that has a current certificate in pediatric CPR. [Medium-High] The pediatric CPR:
 - (1) Must adhere to the guidelines for CPR for a layperson established by the American Heart Association, and consist of a curriculum that includes use of a CPR manikin and both written and hands-on skill-based instruction, practice, and testing [Medium-High]; and
 - (2) May be provided through blended learning that utilizes online technology, including self-instructional training, as long as the criteria in paragraph (1) of this subsection is met.

Technical Assistance

- According to the American Academy of Pediatrics, knowledge of pediatric first aid, including management of a blocked airway and rescue breathing and the confidence to use these skills, are critically important to the outcome of an emergency situation.
- The Pediatric CPR training obtained from resources that meet the criteria in paragraph (b)(1) will help ensure that the techniques and information the caregiver receives is up to date.
- Due to the risk of fraudulent CPR and First Aid courses, the American Heart Association (AHA) recommends individuals check with their employer about the course completion cards the employer accepts before paying anyone for CPR and First Aid courses. The AHA further clarifies: *"The American Heart Association does not approve training courses created by other organizations, does not allow its course completion cards to be given to students who do not complete the skills check portion of American Heart Association training, and there are no "AHA-compliant" training courses or "AHA-certified" professionals conducting training. An organization that has been approved to issue cards with the AHA logo upon successful completion of an AHA training course should display the "Authorized Training Center" logo to help you know they are authorized."*

§746.1316. What additional training must an employee and director have if the operation transports children?

Subchapter D, Personnel

Division 4, Professional Development

October 2018

- (a) If the operation transports children whose chronological or developmental age is younger than nine years old, two hours of annual transportation safety training is required for:
- (1) Each employee prior to transporting a child [Medium-High]; and
 - (2) Each child-care center director. [Medium-High]
- (b) The two hours of transportation safety training are exclusive of any requirements for orientation, pre-service training, and annual training.

§746.1317. Must the training for my caregivers and the director meet certain criteria?

Subchapter D, Personnel

Division 4, Professional Development

August 2024

(a) Training may include clock hours or CEUs provided by:

- (1) A training provider registered with the Texas Early Childhood Professional Development System Training Registry, maintained by the Texas Head Start State Collaboration Office [Low];
- (2) An instructor who teaches early childhood development or another relevant course at a secondary school or institution of higher education accredited by a recognized accrediting agency [Low];
- (3) An employee of a state agency with relevant expertise [Low];
- (4) A physician, psychologist, licensed professional counselor, social worker, or registered nurse [Low];
- (5) A person who holds a generally recognized credential or possesses documented knowledge relevant to the training the person will provide [Low];
- (6) A director at your child-care center if:
 - (A) The director has demonstrated core knowledge in child development and caregiving [Low]; and
 - (B) HHSC has not placed your center on probation or suspended, revoked, or refused to renew your permit in the two years preceding the training [Low];
 - (C) HHSC has not assessed an administrative penalty against your center during the previous two years while your director was serving in that role [Low]; and
 - (D) The only caregivers receiving the training are employees of your child-care center [Low].
- (7) A person who has at least two years of experience working in child development, a child development program, early childhood education, a childhood education program, or a Head Start or Early Head Start program and:
 - (A) Has a current Child Development Associate (CDA) credential [Low]; or
 - (B) Holds at least an associate degree in child development, early childhood education, or a related field. [Low]

- (b) Training may include clock hours or CEUs obtained through self-instructional materials, if the materials were developed by a person who meets one of the qualifications in subsection (a) of this section. [Medium-Low]
- (c) Instructor-led and self-instructional training, but not self-study training, must include:
- (1) Specifically stated learning objectives [Medium-Low];
 - (2) A curriculum, which includes experiential or applied activities [Medium-Low];
 - (3) An evaluation/assessment tool to determine whether the person has obtained the information necessary to meet the stated objectives [Medium-Low]; and
 - (4) A certificate of successful completion from the training source. [Medium-Low]

§746.1319. Does Licensing approve training resources or trainers for training hours?

Subchapter D, Personnel
Division 4, Professional Development
March 2023

- (a) We do not approve or endorse training resources or trainers for training hours, however, you must ensure you and your employees receive training that:
- (a) Meets the criteria specified in §746.1317 of this title (relating to Must the training for my caregivers and the director meet certain criteria?);
 - (b) Is relevant to the topics specified in this division; and
 - (c) Provides the participants with original documentation of completion, as specified in this division.
- (b) If the training is provided through a block certification training, the training must allocate clock hours to each specific topic included in the training [Medium].

Technical Assistance
• We recommend you: • Ask the trainer to provide you with a résumé or vita showing relevant experience and education, or be certain you are obtaining training through reliable sources in the community who have verified the presenter’s qualifications for you; • Make sure a trainer registered with the Texas Early Childhood Professional Development System Training Registry is actually registered and approved to deliver the particular training; and • Ask to preview the materials before entering into an agreement to purchase any

Technical Assistance

training. Your preview should:

- o Make sure the materials contain the information necessary to meet the stated objectives;
- o Look at the evaluation/assessment tool to determine whether the training is of sufficient quality; and
- o Review a copy of the certificate your employees will receive to make sure it meets the requirements of §746.1329.

- Regarding paragraph (b):

- “Block certification training” is training that is typically obtained through a single source or trainer and is designed to comprehensively address all or most of the training topics required for a center director;
- The training should include the number of clock hours that are allocated to each topic; and
- The training hours an individual obtains through the program should be a realistic reflection of the time it takes the individual to complete the training. For example, a block of 150 clock hours of training could not realistically be obtained in 10 days, as this would require 15 hours of training each day. However, an individual could reasonably complete the 150 clock hours over a period of 50 days if the individual dedicated three hours per day to completing relevant coursework

§746.1321. If I have a caregiver who attends college or a Child Development Associate / Certified Child-Care Professional credential program, may I count these clock hours toward the annual training requirement?

Subchapter D, Personnel

Division 4, Professional Development

September 2003

Yes. If the training is in a topic specified in this division and the caregiver can provide documentation of completion as specified in this division, then you may count this training toward the annual training requirement.

§746.1323. If I hire a caregiver or a director that received training at another operation, may these hours count towards the annual training requirement at my center?

Subchapter D, Personnel
Division 4, Professional Development
March 2023

Training received at another operation can be applied towards the annual training requirement, if:

- (1) The caregiver or director provides documentation of training as specified in §746.1329 of this title (relating to What documentation must I provide to Licensing to verify employees have met training requirements?);
- (2) The person obtained the training from a child-care center, a school-age or before or after-school program, or a child-care home that we license or register; and
- (3) The training was obtained within two months before coming to work for your child-care center.

Technical Assistance
For example, a caregiver comes to work for you on June 1, 2023 and needs 24 hours of annual training. The caregiver provides documentation that she had 6 hours of appropriate annual training on April 15, 2023 at the child-care center she previously worked for. The caregiver would only need 18 additional hours of annual training for June 1, 2023 - May 31, 2024.

§746.1325. What additional training must an employee and director have if the child-care center allows a child to access a swimming pool at or away from the center?

Subchapter D, Personnel
Division 4, Professional Development
September 2024

- (a) If the child-care center allows a child to access a swimming pool at or away from the center, annual water safety training is required for [Medium-High]:
 - (1) Each employee prior to accompanying a child to a swimming pool [Medium-High]; and
 - (2) Each child-care center director. [Medium-High]
- (b) The training must be specific to water safety in and around swimming pools. [Medium]

(c) Water safety training is exclusive of any requirements for orientation, pre-service training, and annual training.

Technical Assistance

- The [American Red Cross](#) offers water safety resources and water safety courses for caregivers at no cost.
- [Colin's Hope and Live Like Cati](#) also offer water safety resources and water safety webinars focused specifically on preparing staff who take children to the pool.
- Water safety advocacy groups recommend water safety training curriculum include:
 - o an overview of current childhood drowning data;
 - o drowning recognition;
 - o an understanding of risks of drowning;
 - o precautions to promote safer activities around water;
 - o basics of proper water rescue and resuscitation;
 - o technique and guidelines for effective and active supervision (Water Watcher);
 - o understanding of an aquatic emergency action plan;
 - o safer pool behavior rules;
 - o understanding of the minimum water safety standards and caregiver to child ratios in Texas CCR regulations;
 - o water competency assessment and parent education; and
 - o lifejacket use, ratings, and proper fitting consistent with [Cati's Act](#).

§746.1329. What documentation must I provide to Licensing to verify that employees have met training requirements?

Subchapter D, Personnel

Division 4, Professional Development

October 2018

- (a) You must maintain the original certificate or letter documenting the completion of annual training in each employee's personnel record at the child-care center. [Medium-Low]
- (b) For annual training to be counted toward compliance with the minimum standards, the trainer or training source must provide the participant with an original certificate or letter showing:
- (1) The participant's name [Medium-Low];

(2) Date of the training [Medium-Low];

(3) Title/subject of the training [Medium-Low];

(4) The trainer's name, or the source of the training for self-instructional training [Low];

(5) The trainer's qualifications, in compliance with §746.1317 of this division (relating to Must the training for my caregivers and the director meet certain criteria?) [Low]; and

(6) Length of the training specified in clock hours, CEUs, or college credit hours, as appropriate. [Low]

(c) For pediatric first aid with rescue breathing and choking and pediatric CPR to count toward compliance with the minimum standards:

(1) The certificate or letter must include:

(A) The same information required in subsection (b) of this section [Low]; and

(B) The expiration or renewal date of the training, as determined by the organization providing the training [Low]; and

(2) You must maintain:

(A) The original certificate or letter documenting the completion of pediatric first aid and pediatric CPR in each employee's personnel record at the center [Low]; or

(B) A photocopy of the original certificate or letter documenting the completion of pediatric first aid and pediatric CPR in each employee's personnel record at the center, so long as the employee is able to provide an original certificate or letter upon Licensing's request. [Low]

(d) For orientation and pre-service training, you must obtain a signed and dated statement from the employee and the person providing the orientation or pre-service training stating the employee has received the orientation or pre-service training, or you may obtain an original certificate or letter as specified in subsection (b) of this section. [Low]

Technical Assistance

- Original certificates help to verify an employee actually received the training. A permit holder has the discretion to release training records to an employee upon leaving their employment.
- Regarding paragraph (b)(4) and (5), when an employee receives training at a conference then the conference sponsors may be responsible for ensuring that all the presenters meet the required trainer qualifications. This may be done instead of listing on the training certificate all the presenters and their qualifications.

Division 5, Substitutes, Volunteers, and Contractors

§746.1401. What minimum standards must substitutes, volunteers, or contractors comply with?

Subchapter D, Personnel
Division 5, Substitutes, Volunteers, and Contractors
March 2023

- (a) Substitutes not counted in the child/caregiver ratio must comply with minimum standards that apply to employees, except as otherwise provided in this division. [Medium]
- (b) Volunteers and contractors who are regularly or frequently present at the child-care center but not counted in the child/caregiver ratio must comply with minimum standards that apply to employees. [Medium]
- (c) Substitutes, volunteers, and contractors who are counted in the child/caregiver ratio must comply with minimum standards that apply to employees and caregivers, except as otherwise noted in subsection (d) of this section. [Medium]
- (d) Volunteers, including parents, who only supplement the ratios for field trips and water activities do not have to comply with the minimum standards that apply to employees and caregivers, but they do have to comply with the relevant minimum standards in Subchapter E of this chapter relating to (Child/Caregiver Ratios and Group Sizes).
- (e) Substitutes, volunteers, and contractors who do not meet caregiver qualifications must never be left alone with children. [Medium-High]
- (f) Substitutes, volunteers, and contractors must comply with the training requirements in §746.1403 of this division (relating to What are the training requirements for substitutes, volunteers, and contractors?).

Technical Assistance
Substitute, volunteer, or contracted caregivers counted in the child/caregiver ratio are required to meet the same qualifications and minimum standards as other caregivers who have responsibility for the direct care and supervision of children to protect the health, safety, and well-being of children in care. The risk to children from an unqualified caregiver is the same whether the caregiver is a paid employee, substitute, volunteer, or contractor.

§746.1403. What are the training requirements for substitutes, volunteers, and contractors?

Subchapter D, Personnel
Division 5, Substitutes, Volunteers, and Contractors
September 2024

(a) Substitutes, volunteers, and contractors must complete the following training requirements.

Figure 26 TAC §746.1403(a)

Weight:	Type of training:	Who is required to take the training?	When must the training be completed?
[Medium]	(1)(A) Orientation to your child-care center as required by §746.1303 of this subchapter (relating to What must orientation for employees at my child-care center include?).	(B)(i) Each substitute; (B)(ii) Each contractor; and (B)(iii) Each volunteer, except as noted in §746.1401(d) of this division (relating to What minimum standards must substitutes, volunteers, or persons under contract with my center comply with?).	(C) Before beginning the relevant duties.
[Medium-High]	(2)(A) 24 clock hours of pre-service training as required by §746.1305 of this subchapter (relating to What must be covered in pre-service training for caregivers?).	(B) Each substitute, volunteer, and contractor who is counted in the child to caregiver ratio, except as noted in §746.1401(d) of this division.	(C)(i) 8 hours before the substitute, volunteer, or contractor may be counted in the child to caregiver ratio; and (C)(ii) 16 hours within 90 days of beginning the relevant caregiver duties.

Weight:	Type of training:	Who is required to take the training?	When must the training be completed?
[Medium-High]	(3)(A) Pediatric first aid with rescue breathing, as required by 746.1315(a) of this subchapter (relating to Who must have pediatric first-aid and pediatric CPR training?).	(B) Each substitute, volunteer, and contractor who is counted in the child to caregiver ratio, except as noted in §746.1401(d) of this division.	(C)(i) Within 90 days of beginning the relevant caregiver duties and before having unsupervised access to a child in care; and (C)(ii) The person must stay current in this training.
[Medium-High]	(4)(A) Pediatric CPR as required by §746.1315(b) of this subchapter.	(B) Each substitute, volunteer, and contractor who is counted in the child to caregiver ratio, except as noted in §746.1401(d) of this division.	(C)(i) Within 90 days of beginning the relevant caregiver duties; and (C)(ii) The person must stay current in this training.
[Medium-High]	(5)(A) 24 hours of annual clock training, as required by §746.1309 of this subchapter (relating to What areas of training must the annual training for caregivers cover?).	(B) Each substitute, volunteer, and contractor who is counted in the child to caregiver ratio, except as noted in §746.1401(d) of this division.	(C)(i) Within 12 months of beginning the relevant caregiver duties; and (C)(ii) During each 12-month period, as further required by §746.1313 of this subchapter (relating to When must annual training for my caregivers and director be obtained?).

Weight:	Type of training:	Who is required to take the training?	When must the training be completed?
[Medium-High]	(6)(A) 2 clock hours of transportation safety training, as required by §746.1316 of this subchapter (relating to What additional training must an employee and director have if the operation transports children?).	(B) Each substitute, volunteer, and contractor who transports a child whose chronological or developmental age is younger than nine years old.	(C)(i) Prior to transporting children; and (C)(ii) Annually, thereafter.
[Medium-High]	(7)(A) Water safety training as required by §746.1325 of this subchapter (relating to What additional training must an employee and director have if the child-care center allows a child to access a swimming pool at or away from the center?).	(B) Each substitute, volunteer, and contractor who accompanies a child to a swimming pool at or away from the center.	(C)(i) Prior to accompanying a child to a swimming pool; and (C)(ii) Annually thereafter.

(b) If the person does not complete the pre-service training within the 90-day period as specified in (a)(2)(C)(ii) in Figure: 26 TAC 746.1403(a), the person must cease performing any caregiver duties at the center until the person completes the pre-service training [Medium].

(c) If a substitute, volunteer, or contractor who is counted in the child to caregiver ratio does not yet have a current certificate in pediatric CPR, as required in (a)(4)(A) in Figure: 26 TAC §746.1403(a), at least one caregiver or employee with a current certificate must also be on the premises with the substitute, volunteer, or contractor [Medium-High].

§746.1405. When is a substitute, volunteer, or contractor exempt from the pre-service training?

Subchapter D, Personnel

Division 5, Substitutes, Volunteers, and Contractors

March 2023

A substitute, volunteer, or contractor is exempt from the pre-service training requirements if the substitute, volunteer, or contractor:

- (1) Has at least two years of documented prior experience in a regulated child-care center; or
- (2) Provides documentation of at least 24 clock hours of training in the areas specified in §746.1305 of this chapter (relating to What must be covered in pre-service training for caregivers?) at another regulated child-care center.

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 1, Ratios and Group Sizes at the Child-Care Center

§746.1501. What is child /caregiver ratio?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 1, Ratios and Group Sizes at the Child-Care Center

September 2003

- (a) The child/caregiver ratio is the maximum number of children one caregiver can be responsible for.
- (b) Each child must have a caregiver who is responsible for the child and who is aware of details of the child's habits, interests, and any special problems. [Medium-High]

§746.1503. What is considered a group?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 1, Ratios and Group Sizes at the Child-Care Center

September 2003

A group of children is defined by the number of children assigned to a specific caregiver or group of caregivers, occupying an individual classroom or well-defined physical space within a larger room. Each child in any group has two things in common with every other child in his group: the same caregiver(s) responsible for the child's basic needs and the same classroom or activity space. Generally, the group stays with the assigned caregiver(s) throughout the day and may move to different areas throughout the child-care center, indoors and out. The group may not mix freely with other children, unless specific criteria are met as specified in this subchapter. The number of children who may be in a group varies according to the age of the children and the number of caregivers as specified in this subchapter.

§746.1505. May I place more than one group of children in a large room?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 1, Ratios and Group Sizes at the Child-Care Center

September 2003

Yes. More than one group of children may occupy a room, provided the following conditions are met:

- (1) The room is divided so that groups are separated. For example, a group of 25 children and another group of ten children may be cared for in the same room if the placement of shelves, accordion doors, or low movable walls divide the area so that children in one group do not freely mix with children in another group [Medium];
- (2) Groups may move from one activity area to another within the room during the day, but individual children may not freely mingle between groups [Medium]; and
- (3) The total number of children must not routinely exceed the room capacity based on activity space. [Medium]

§746.1507. How do I determine the child /caregiver ratio?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 1, Ratios and Group Sizes at the Child-Care Center

September 2003

In determining child/caregiver ratio, the following apply:

- (1) Child/caregiver ratio is based on the specified age of the children in the caregiver's group or the age of the youngest child in the group, depending on the activity and the number of children at the child-care center. [Medium]
- (2) You may use the developmental or emotional age, rather than the chronological age, of a child with special care needs, if this is recommended by a health-care professional or other qualified professional and is documented in the child's record. [Medium]
- (3) You must consider the skills of the caregiver and the needs of the individual children and the group when assigning a caregiver to a group of children. For example, if a group of toddlers is experiencing biting, consider assigning a caregiver who is trained to handle these behaviors and perhaps additional caregivers or volunteers to assist in the supervision and redirection of the children. [Medium]
- (4) You must include all children in care, including children related to the child-care center director and employees. [Medium]

- (5) In emergency situations, you may use child-care center employees who do not meet caregiver qualifications for a limited time while a substitute caregiver is being secured. The time must be no longer than is reasonably necessary to secure a qualified substitute caregiver. Emergency situations include, but are not limited to, illness, accident, or death. [Medium]
- (6) The total number of children in care at the center and in care away from the center, such as during a field trip, must never exceed the licensed capacity of the center. [Medium-High]

Technical Assistance

Regarding paragraph (2), it can be beneficial to adjust the child to caregiver ratio if you have a child or children in care with special care needs. A child who may require additional supervision or care may require more individualized attention or benefit from a smaller group.

Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children

§746.1601. How many children may one caregiver supervise?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children

September 2003

The classroom ratio is the number of children one caregiver may supervise and is shown in the following chart. The classroom ratio is based on the specified age of the children in the group, unless otherwise stated in this subchapter [\[Medium-High\]](#):

If the specified age of the children in the group is...	Then the maximum number of children one caregiver may supervise is...
0 – 11 months	4
12 – 17 months	5
18 – 23 months	9
2 years	11
3 years	15
4 years	18
5 years	22
6-8 years	26
9-13 years	26

Technical Assistance

- Adults must be more actively involved in the supervision of children under 24 months due to their limited muscle control and physical skills. Children under 24 months are also at greater risk during an emergency requiring evacuation of the center.
- Research indicates direct, warm, social interactions between adults and children are more likely to occur with lower child/caregiver ratios.
- According to the American Academy of Pediatrics (AAP), caregivers must be recognized as performing a job for groups of children that parents would rarely be considered capable of handling alone. Caring for a group of three infants is the same as caring for infant triplets; four toddlers can be the equivalent to a set of quadruplets.

§746.1603. How do I determine the specified age of the children in each group?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children

September 2003

Identify the specified age of the children in each group using this formula:

- (1) List all of the children in the group in order of their ages from youngest to oldest. Children younger than 24 months should be listed by their age in months. Children two years and older are listed by their age in years.
- (2) Determine the total number of children in the group and divide this number by two. If the result is not a whole number but is .5, such as 6.5, round up to the next number, which is 7. This will be the core number of the group.
- (3) Begin counting at the first or youngest child on your list and count down the list from youngest to oldest, until you reach the core number. The age of this child is the specified age of the children in this group.

§746.1605. When may I combine infants with children 18 months and older?

Subchapter E, Child/Caregiver Ratios and Group Sizes
Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children
March 2023

You may combine infants with children 18 months and older in the following situations.

- (1) If you have 13 or more children in care, you may combine infants with older children as long as the oldest child in the group is not more than 18 months older than the youngest child. For example, if the youngest child in a group is eight months old, the oldest child in the group must not be more than 26 months old; [Medium-High] or
- (2) If you have 12 or fewer children in care you may combine infants with older children without regard to age, as described in §746.1703 of this subchapter (relating to If I have 12 or fewer children in care, may I combine infants with children 18 months and older?).

Technical Assistance
• There are some programs that offer what is called “continuity of care” for infants and toddlers. This is where a mixed age group made up of children between the ages of birth through 35 months is cared for together from the time they enroll in the center until they turn three. Benefits of this arrangement include consistency in caregivers in a setting that resembles siblings within a family, as well as developmental and curricular advantages. • When infants are infrequently grouped with older children in a space not specifically designed to meet their needs and without additional caregivers there is increased risk to their health and safety.

§746.1607. If I have two caregivers with each group, may I double the number of children one caregiver may supervise?

Subchapter E, Child/Caregiver Ratios and Group Sizes
Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children
September 2003

The maximum number of children two or more caregivers may supervise is limited by the maximum group size. [Medium-High]

§746.1609. What is the maximum group size?

Subchapter E, Child/Caregiver Ratios and Group Sizes
Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children
September 2003

The maximum group size and the number of children two or more caregivers may supervise when 13 or more children are in care is specified in the following chart and is based on the specified age of the children in the group [Medium-High]:

If the specified age of the children in the group is...	Then the maximum group size and number of children two or more caregivers may supervise is...
0 – 11 months	10
12 – 17 months	13
18 – 23 months	18
2 years	22
3 years	30
4 years	35
5 years	35
6-8 years	35
9 – 13 years	35

Technical Assistance
Research has shown that when caregivers have fewer children to supervise and the group size is limited it reduces the likelihood of injuries and illness in children and increases opportunities for positive interaction with children. Excessive numbers of young children increase the danger of high caregiver stress and loss of control.

§746.1611. Are there times when I may mix groups of children and exceed the maximum group size?

Subchapter E, Child/Caregiver Ratios and Group Sizes
Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children
September 2003

- (a) Yes. When 13 or more children are in care, you may mix groups for joint activities and exceed the maximum group size for limited times under the following conditions:
 - (1) For children 18 months through four years, for a maximum of 30 minutes [Medium];
 - (2) For children five years and older, for a maximum of 1 1/2 hours [Medium];
 - (3) For mealtimes, field trips, outdoor play, and naptimes, for the length of that activity. [Medium]
- (b) The child/caregiver ratio must be met for each group and activity. [Medium-High]

Technical Assistance
During special activities when children are combined and the room capacity may be exceeded, consider whether the children are overcrowded or would be endangered in the event of an emergency requiring evacuation of the child-care center.

§746.1613. If 13 or more children are in care, may I reduce the number of caregivers supervising children during naptime?

Subchapter E, Child/Caregiver Ratios and Group Sizes
Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children
September 2003

- (a) Yes. If 13 or more children are in care, you may reduce the child/caregiver ratio for children 18 months and older by 50% during naptime under the following conditions [Medium]:
 - (1) Groups of children using reduced ratio must be combined in a central sleeping location that safely accommodates naptime equipment [Medium-High];
 - (2) Groups of children that cannot be combined in a central location due to space limitations must not use reduced ratios [Medium-High];
 - (3) Caregivers with groups that cannot be combined must not be counted as additional caregivers in the building or in the naptime ratio [Medium-High];

- (4) If only one caregiver is required to supervise the naptime group, at least one other employee or caregiver must be present in the building [Medium-High];
- (5) If more than one caregiver(s) must supervise the naptime group, one additional employee or caregiver must be present in the building for every two caregivers supervising the naptime group [Medium-High];
- (6) Caregivers supervising during naptime must be physically present in the room or area in which children are napping and must be able to summon the additional employee(s) without leaving the room or area [Medium-High]; and
- (7) Other child-care center employees, such as the director or cook, who are not supervising a group of children may be counted as additional adults required in the building during naptime. [Medium-High]

(b) The following chart shows the 50% naptime ratio and the number of additional caregivers required in the building [Medium-High]:

If the total number of caregivers required to supervise the combined groups before naptime is...	Then the number of caregivers needed to supervise groups combined in a central sleeping location is...	And the number of additional employees required in the building must be at least...
10	5	3
9	5	3
8	4	2
7	4	2
6	3	2
5	3	2
4	2	1
3	2	1
2	1	1
1	1	1

Technical Assistance

Regarding paragraph (a)(1), a central sleeping location is any location within the child-care center where all of the children in a combined group can safely lie down to nap or rest. The location must allow for adequate room between mats or cots and must allow for caregivers to maintain supervision as required by the rule.

§746.1615. May I adjust the child/caregiver ratio when I am opening and closing my child-care center?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 2, Classroom Ratios and Group Sizes for Centers Licensed To Care for 13 or More Children

September 2003

Yes. When 13 or more children are in care, children who are 18 months and older may be grouped at a ratio of one caregiver per group of 16 children during the 45 minutes after opening and 45 minutes before closing. Child/caregiver ratios cannot be adjusted during opening and closing for children who are younger than 18 months. **[Medium]**

Division 3, Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care

§746.1701. How many children may one caregiver supervise if 12 or fewer children are in care?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 3, Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care

September 2003

The number of children one caregiver may supervise when 12 or fewer children are present at the child-care center is specified in the following ratio chart and is based on the number of children in each age category [Medium]:

Number of children 0–17 months old	Number of children 18 months – 4 years old	Number of children 5 years old and older	Maximum number of children to be supervised by one caregiver
0	8	4	12
0	7	5	12
0	6	6	12
0	5	7	12
0	4	8	12
0	3	9	12
0	2	10	12
0	1	11	12
0	0	12	12
1	5	5	11
1	4	6	11
1	3	7	11
1	2	8	11
1	1	9	11

Number of children 0–17 months old	Number of children 18 months – 4 years old	Number of children 5 years old and older	Maximum number of children to be supervised by one caregiver
1	0	10	11
2	4	4	10
2	3	5	10
2	2	6	10
2	1	7	10
2	0	8	10
3	2	2	7
3	1	3	7
3	0	4	7
4	0	0	4

§746.1703. If I have 12 or fewer children in care, may I combine infants with children 18 months and older?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 3, Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care

September 2003

Yes. If you have 12 or fewer children in care, infants may be cared for with older children without regard to age, although you must ensure the safety of all children in the group. **[Medium-High]**

§746.1705. If I have two caregivers with each group, may I double the number of children one caregiver may supervise?

Subchapter E, Child/Caregiver Ratios and Group Sizes
Division 3, Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care
September 2003

No. The maximum number of children two caregivers may supervise is limited by the maximum group size. When 12 or fewer children are in care, the number of children two caregivers may supervise and the maximum group size is specified in the following chart and is based on the number of children in each age group [Medium-High]:

Number of children 0–17 months old	Number of children 18 months old and older	Maximum group size and number of children two caregivers may supervise
0	12	12
1	11	12
2	10	12
3	9	12
4	8	12
5	7	12
6	6	12
7	5	12
8	4	12
9	3	12
10	0	10

§746.1707. What is the maximum group size if I have more than two caregivers supervising the children?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 3, Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care

September 2003

If 12 or fewer children are in care and you have more than two caregivers supervising the children, the 12 children in care may be any age from birth through 13 years. [Medium-High]

§746.1709. May I adjust the child/caregiver ratio when I am opening and closing my child-care center?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 3, Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care

September 2003

No. Ratios may not be adjusted for opening and closing when 12 or fewer children are in care. [Medium-High]

Division 4, Ratios for Field Trips

§746.1801. Do I need additional caregivers when I take children away from the child- care center for field trips or walks?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 4, Ratios for Field Trips

September 2024

(a) When children are on a field trip and are mixing with children and adults who are not from your child-care center, such as during trips to the skating rink, shopping center, public or amusement park, you must meet the following child/caregiver ratio [Medium-High]:

Figure: 26 TAC §746.1801(a)

If the age of the youngest child in the group is...	Then you must have (number of caregivers) caregivers to supervise...	Every (number of children) children
0 – 23 months	1	1
2 years	1	2
3 years	1	6
4 years	1	8
5 years	1	10
6 years and older	1	12

(b) The child/caregiver ratio for a field trip to a location where children mix with non-center children and adults may include adult volunteers or child-care center employees who do not meet the minimum qualifications for caregivers specified in Subchapter D of this chapter (relating to Personnel) if you maintain at least the classroom child/caregiver ratio required in the following, as applicable: [Medium-High]

- (1) Division 2 of this subchapter (relating to Classroom Ratios and Group Sizes for Centers Licensed to Care for 13 or More Children); or
- (2) Division 3 of this subchapter (relating to Classroom Ratios and Group Sizes for Centers When 12 or Fewer Children are in Care).

- (c) When children are on a walk or field trip in an enclosed, controlled area, such as specially arranged trips for children in your child-care center only to a fire station, library, or museum, you must maintain at least the classroom child/caregiver ratio. Refer to §746.2101 of this subchapter (relating to Must I have additional caregivers for wading activities?) and §746.2105 of this subchapter (relating to What are the child/caregiver ratios for swimming activities?) for child/caregiver ratios for wading and swimming activities when children are not mixing with other children and adults. [Medium-High]

Technical Assistance

Field trips involve higher risk to children and require increased supervision by adults. Injuries and serious incidents are more likely to occur when a child's surroundings change or when there is a change in routine. When children are excited or busy playing in unfamiliar areas, they are likely to forget safety measures unless they are closely supervised.

§746.1805. If I provide transportation, how many caregivers must I have in the vehicle to supervise the children?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 4, Ratios for Field Trips

September 2003

- (a) When you transport children younger than two years, you must have one caregiver in addition to the driver for each group of four children younger than two years. [Medium-High]
- (b) When you transport children two years and older, you must comply with classroom child/caregiver ratio. The driver may be counted in this ratio if the driver meets caregiver qualifications. [Medium-High]

Technical Assistance

Research indicates motor vehicle accidents are the leading cause of death in children in the United States. Additional adults are needed when transporting groups of younger children to free the driver from the distraction of supervising children while driving, and to assist in the evacuation and supervision of children in case of an accident or breakdown.

Division 5, Ratios for the Get-Well Care Program

§746.1901. If I operate a get-well care program, must I use a different child /caregiver ratio?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 5, Ratios for the Get-Well Care Program

September 2003

The number of children one caregiver may supervise in a get-well care program is specified in the following chart and is based on the age of the youngest child in the program [Medium-High]:

If the age of the youngest child is...	Then you must have (number of caregivers) caregivers to supervise...	Every (number of children) children
0 – 23 months	1	3
2 – 5 years	1	4
6 – 13 years	1	6

§746.1903. What is the child /caregiver ratio if I have more than two caregivers supervising the children in the get-well care program?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 5, Ratios for the Get-Well Care Program

September 2003

The maximum number of children two caregivers may supervise is limited by the maximum group size. The number of children two caregivers may supervise in a get-well care program is specified in the following chart and is based on the age of the youngest child in the group [Medium-High]:

If the age of the youngest child is...	Then maximum group size and maximum number of children two caregivers may supervise is...
0 – 23 months	6
2 – 5 years	8
6 – 13 years	12

§746.1905. May I combine infants with children 18 months and older in my get-well care program?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 5, Ratios for the Get-Well Care Program

September 2003

You may care for infants with older children only if there are 12 or fewer children present in the get-well care program. [Medium-High]

Division 6, Ratios for Nighttime Care

§746.2001. Must I have additional caregivers during nighttime care?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 6, Ratios for Nighttime Care

September 2003

No. Additional caregivers are not needed for the child/caregiver ratio for nighttime care, although naptime ratios must not be used during nighttime care. [Medium-High]

Division 7, Ratios for Water Activities

§746.2101. Must I have additional caregivers for wading activities?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 7, Ratios for Water Activities

September 2024

- (a) The maximum number of children one caregiver can supervise while children use a wading pool is based on the age of the youngest child in the group and is specified in the following chart: [Medium-High]:

Figure: 26 TAC §746.2101(a)

Ratio for Wading Pools		
If the age of the youngest child is...	Then you must have (number) adults to supervise...	Every (number) children.
0 – 23 months	1	1
0 – 23 months	2	4
2 years	1	2
2 years	2	5
3 years	1	6
4 years	1	16
5 years	1	20

Ratio for Wading Pools		
If the age of the youngest child is...	Then you must have (number) adults to supervise...	Every (number) children.
6-8 years	1	22
9 years and older	1	25

(b) When children are using a wading pool while mixing with children and adults who are not from your child-care center, you must follow the child/caregiver ratios for field trips as specified in §746.1801 of this subchapter (relating to Do I need additional caregivers when I take children away from the child-care center for field trips or walks?). [High]

§746.2105. What are the child /caregiver ratios for swimming activities?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 7, Ratios for Water Activities

September 2024

(a) When your child-care center uses a swimming pool, there must be at least two caregivers supervising the children if four or more children are swimming. [High]

(b) The maximum number of children one caregiver can supervise while children are swimming is based on the age of the youngest child in the group and is specified in the following chart [High]:

Figure: 26 TAC §746.2105(b)

Ratio for Swimming Pools		
If the age of the youngest child is...	Then you must have (number) adult to supervise...	Every (number) children.
0 – 23 months	1	1
2 years	1	2
3 years	1	6
4 years	1	8
5 years	1	10

Ratio for Swimming Pools		
If the age of the youngest child is...	Then you must have (number) adult to supervise...	Every (number) children.
6 years and older	1	12

Technical Assistance
Varying levels of children’s comfort and skill in the water combined with the increased difficulty seeing children in the water requires closer supervision to reduce the risk of drowning.

§746.2109. Must a certified lifeguard be on duty when children are swimming in more than 18 inches of water?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 7, Ratios for Water Activities

September 2024

A certified lifeguard must be on duty at all times when children are swimming in more than 18 inches of water. [High]

§746.2111. May I count the certified lifeguard in the child/caregiver ratio?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 7, Ratios for Water Activities

September 2003

- (a) You must not count the certified lifeguard in the child/caregiver ratio when people other than the children from your child-care center are swimming. [Medium-High]
- (b) If only children from your child-care center are swimming, you may count the certified lifeguard in the child/caregiver ratio, although the lifeguard must never be left alone with any of the children unless the lifeguard is also a qualified caregiver for your center. [Medium-High]

Technical Assistance

The lifeguard has the necessary skills to rescue a child in distress; however, being responsible for assisting and supervising children who are in the water at the same time may take away from their ability to react quickly in an emergency.

§746.2113. Must persons who are counted in the child/caregiver ratio during swimming know how to swim?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 7, Ratios for Water Activities

September 2024

Each caregiver included in the child/caregiver ratio for swimming in 18 inches or more of water must be able to swim and must be prepared to do so in an emergency. [High]

Technical Assistance

The ability to swim is crucial when providing adequate supervision and safety of children during swimming activities and allows a caregiver to intervene when necessary to protect the child.

§746.2115. May I include volunteers or child-care employees who do not meet minimum qualifications for caregivers in the child/caregiver ratio for water activities?

Subchapter E, Child/Caregiver Ratios and Group

Sizes Division 7, Ratios for Water Activities

September 2024

You may include adult volunteers and adult child-care center employees who do not meet the minimum qualifications for caregivers specified in Subchapter D of this chapter (relating to Personnel) to meet the child/caregiver ratio for swimming and wading activities, provided that [Medium-High]:

- (1) You maintain at least the classroom child/caregiver ratios required in this subchapter with caregivers who do meet the minimum qualifications for caregivers [Medium-High];
- (2) All persons included in the ratios for water activities must be able to swim and must be prepared to do so in an emergency [High]; and
- (3) You ensure compliance with all other minimum standards, including, but not limited to, standards relating to supervision, discipline and guidance. [High]

§746.2117. Must I have additional caregivers for sprinkler play?

Subchapter E, Child/Caregiver Ratios and Group Sizes

Division 7, Ratios for Water Activities

September 2003

We do not require additional caregivers for sprinkler play; however, you must not leave a child alone with the sprinkler equipment. [Medium-High]

Subchapter F, Developmental Activities and Activity Plan

§746.2201. What must caregivers consider when providing planned activities for the children in their care?

Subchapter F, Developmental Activities and Activity Plan

March 2023

Caregivers must provide planned activities designed to meet the individual needs and developmental level of each child [Medium].

Technical Assistance

- The Texas Infant, Toddler, and Three-Year-Old Early Learning Guidelines are a resource to assist caregivers in understanding early childhood development and in planning high-quality learning experiences to support a child's growth. You may obtain a copy of the Texas Infant, Toddler, and Three-Year-Old Early Learning Guidelines at: <https://childrenslearninginstitute.org/resources/itelg/>
- The Texas Prekindergarten Guidelines are a caregiver resource that provides developmentally appropriate guidance for planning quality learning experiences for children three to five years of age. You may obtain a copy of the Texas Prekindergarten Guidelines by visiting the Texas Education Agency (TEA) website at: <https://tea.texas.gov/academics/early-childhood-education/texas-prekindergarten-guidelines>
- Research has shown that learning in young children is the result of interaction between the child's thoughts and experiences with materials, ideas, and people. The quality of these interactions is enhanced by providing structure and a variety of opportunities to practice and explore new skills.
- While planning children's activities, keep in mind the diverse and ever-changing developmental needs of children, the abilities and interests of the children in the group, and the importance of children's play in developing physically, emotionally, intellectually, and socially.
- Planning daily activities ensures the children have a variety of activities that

Technical Assistance
meet their developmental needs. A written plan helps to clarify for parents the services a center provides and also provides the caregiver with a guideline to follow.

§746.2202. What are my responsibilities when planning activities for a child in care with special care needs?

Subchapter F, Developmental Activities and Activity Plan

March 2023

You must:

- (1) Provide a child with special care needs with the accommodations recommended by [Medium-High]:
 - (A) A health-care professional; or
 - (B) A qualified professional affiliated with the local school district or early childhood intervention program;
- (2) Utilize as recommended any adaptive equipment that has been provided to the center for a child's use [Medium-High];
- (3) Ensure that a child who receives early intervention services or special education services can receive those services from a qualified service provider at your operation, with parental request and approval [Medium-High];
- (4) Ensure that activities integrate children with and without special care needs [Medium-High]; and
- (5) Ensure that caregivers adapt equipment and procedures and vary methods as necessary to ensure that you care for a child with special needs in a natural environment [Medium-High].

Technical Assistance
Research has shown that children with disabilities benefit from learning alongside their peers in high-quality inclusive settings. One study found that young children with disabilities in high-quality inclusive early childhood programs made larger gains in their cognitive, communication, and social-emotional development compared to their peers in segregated settings. In addition, inclusion has benefits for all children, not just children with disabilities. Young children without disabilities who participate in an inclusive classroom learn life skills such as empathy and compassion.

Technical Assistance

- Child-care programs can be a great resource for parents who have questions about their child's development and specialized services available in the community. In order to best serve parents who have questions about their child's development, a child-care center should make available to parents information regarding early intervention services in the community. Access to such information enables parents to request an evaluation of their child's development from experts who are qualified to assess the child's development and recommend appropriate services for the child. [Early Childhood Intervention Services](#) (ECI) has additional information regarding the specific services they provide, as well as locations in your community.
- If a child's parent has shared with the child-care center an Individualized Educational Program (IEP) from a school district or an Individualized Family Service Plan (ISFP) from ECI, the child-care center should make every effort to incorporate the plan, where applicable, into the child's daily activities.
- The child-care center is not responsible for the purchase or maintenance of adaptive equipment recommended for a child.
- The child-care center is not responsible for ensuring ECI or another qualified service provider visits the operation to provide services. However, the child will receive the benefit of services in a natural environment and the caregiver will learn methods for best serving the child when the center encourages caregivers to incorporate ECI or another service provider into classroom activities.
- A child-care center is considered a place of public accommodation under the Americans with Disabilities Act (ADA), Title III, because it holds itself out to the public as a business. [Americans with Disabilities Act \(ADA\), Title III \(Title 3\) & Child Care Operations – FAQ](#) and [Commonly Asked Questions About Child Care Centers and the Americans with Disabilities Act](#) have additional information regarding ADA and child-care operations.

§746.2203. What written activity plans must caregivers follow?

Subchapter F, Developmental Activities and Activity Plan

March 2021

- (a) Your operation, director, or each caregiver must develop a written activity plan that complies with §746.2205 of this subchapter (relating to What must a written activity plan include?). [Medium]
- (b) The caregivers responsible for the relevant group of children must follow the plan. [Medium]
- (c) The activity plan must include all children in the group regardless of special care needs. [Medium]

Technical Assistance

Planning daily activities ensures the children have a variety of activities that meet their developmental needs. A written plan helps to clarify for parents the services a center provides and provides the caregiver with a guideline to follow.

§746.2205. What must a written activity plan include?

Subchapter F, Developmental Activities and Activity Plan

March 2021

- (a) A written activity plan must:
 - (1) Identify the group the activity plan is designed for and list the dates (daily, weekly, or monthly) the plan covers [Medium];
 - (2) Outline the specific daily activities, as required by §746.2206 of this subchapter (relating to What specific activities must I include in a written activity plan?) [Medium];
 - (3) Include sufficient time for activities and routines so that children can progress at their own developmental rate [Medium]; and
 - (4) Not include long waiting periods between activities or prolonged periods during which children stand or sit. [Medium]
- (b) A written activity plan may include one or more screen time activities, as specified in §746.2207 of this subchapter (relating to May I use a screen time activity with a child?), if you also include alternative activities for children who do not want to participate. [Medium]

Technical Assistance

Research indicates children receive significantly more developmental benefits from attending centers that offer a variety of activities addressing emotional, social, intellectual, and physical development. A planned but flexible program that allows children to make decisions about their activities fosters independence and creative expression.

§746.2206. What specific activities must I include in a written activity plan?

Subchapter F, Developmental Activities and Activity Plan

March 2021

You must include these daily activities and the approximate times they will occur in your written activity plan:

- (1) A minimum of two daily opportunities for outdoor play, weather permitting, in which a child makes use of both small and large muscles [Medium]:
 - (A) An infant birth through 12 months of age may engage in outdoor play for an amount of time as tolerated by the infant [Medium]; and
 - (B) An infant 13 months through 17 months of age, a toddler, or a pre-kindergarten age child must engage in outdoor play for a minimum of 60 total minutes daily [Medium];
- (2) A balance of active and quiet play that incorporates group and individual activities, both indoors and outdoors, and must include [Medium]:
 - (A) A minimum of 60 minutes of moderate to vigorous active play for toddlers [Medium]; and
 - (B) A minimum of 90 minutes of moderate to vigorous active play for pre-kindergarten age children [Medium];
- (3) Child-initiated activities where:
 - (A) The equipment, materials, and supplies are within reach of the child [Medium]; and
 - (B) The child chooses the activity on the child's own initiative [Medium];
- (4) Caregiver-initiated activities that the caregiver directs or chooses, at least two of which must promote movement [Medium];
- (5) Regular meal and snack times, as specified in Subchapter Q of this chapter (relating to Nutrition and Food Service) [Medium]; and
- (6) Supervised naptimes or rest times. [Medium]

Technical Assistance

- Regarding paragraph (1) and outdoor play:
 - o For an infant from birth through 12 months of age, there is no recommended total minutes of outdoor play;
 - o You may divide the total minutes of outdoor play into shorter time frames that total 60 minutes;
 - o You may accommodate weather and air quality by adjusting the scheduled outdoor play, the length of time outdoors, and children's clothing;
 - o When you shorten or cancel outdoor play to accommodate weather or air quality, you should increase the time of indoor physical activity, so the total amount of physical activity remains the same; and
 - o You should incorporate opportunities to actively enjoy physical activity into part-time programs by prorating these requirements accordingly (e.g., 20 minutes of outdoor play for every three hours at the center).
- Regarding paragraph (2) and active play: Opportunities for active play may overlap with outdoor play and do not need to be counted separately (e.g. 30 minutes of active outdoor play that includes moderate to vigorous physical activity may be counted toward the required 60 or 90 minutes of active play).
- Regarding paragraph (2) and active play, you may prorate these requirements if you operate a part-time program. To prorate active play, allow 20 minutes of play for every three hours children are in care.
- Outdoor play provides for greater freedom and flexibility, fuller expression through loud talk, and a greater range of active movement. Outdoor play also extends opportunities for large muscle development, social-emotional development, and small muscle development by offering variety, challenge, and complexity in ways that are not attainable in a confined indoor space.

§746.2207. May I use a screen time activity with a child?

Subchapter F, Developmental Activities and Activity Plan

March 2021

(a) You may not use a screen time activity for a child under the age of two years.

[Medium]

- (b) You may use a screen time activity to supplement, but not to replace, an activity for a child who is two years old or older that is described in §746.2507 of this chapter (relating to What activities must I provide for a toddler?); §746.2607 of this chapter (relating to What activities must I provide for a pre-kindergarten-age child?); and §746.2707 of this chapter (relating to What activities must I provide for a school-age child?). [Medium]
- (c) If you use a screen time activity for a child at the center, you must ensure that the activity:
- (1) Is related to the planned activities that meet educational goals [Medium];
 - (2) Is age-appropriate [Medium];
 - (3) Does not exceed one hour per day [Medium];
 - (4) Is not used during mealtime, snack times, naptimes, or rest times [Medium];
 - (5) Does not include advertising or violence [Medium]; and
 - (6) Is turned off when not in use. [Medium]
- (d) A school-age child may use screen time without restriction for homework. [Medium]

Technical Assistance

- The requirements for screen time activities are consistent with the [Caring for Our Children: National Health and Safety Performance Standards, 4th Edition](#).
- For children under the age of two, no media time is recommended since during the first two years of life children's brains and bodies are going through critical periods of growth and development. It is important that very young children have positive social interactions with their parents and caregivers instead of through media time that takes away from these vital interactions.
- Excessive media use has been associated with lags in achievement of knowledge and skills, as well as negative impacts on sleep, weight, and social and emotional health.
- Children should view screen time activities with an adult who can help the children apply what they are learning to the world around them.
- Research indicates that screen time is most appropriate and offers the most benefit when children are actively engaged with the content they are viewing. Labeling objects, identifying people on screen, and asking questions are all active viewing strategies that maximize children's learning during screen time.
- Caregivers serve as role models and should not be using digital media that is not directly involved in the care of children. Also see §746.1203(6)(D) of this chapter, which does not allow caregivers to use personal electronic devices, such as cell phones, tablets, and video games that are not directly involved in the teaching, care, or supervision of children in care.
- Regarding paragraph (c)(3), the one hour limit on screen time does not apply to field trips away from the center.
- Regarding paragraph (d), homework refers to assignments given by a child's public, private, or charter school teacher that are intended to be completed outside of regular school hours. Homework does not include work assigned by the child-care center.

§746.2209. Must I post the activity plan?

Subchapter F, Developmental Activities and Activity Plan

September 2003

Yes. You must post the activity plan for each group of children in the child-care center in a prominent place where parents and others can see it. [Medium]

Technical Assistance

Posting a written description of the planned program of daily activities helps caregivers and parents have a common understanding about the center's child-care and education practices and allows for monitoring and accountability of these.

§746.2211. How long must I keep the activity plan?

Subchapter F, Developmental Activities and Activity Plan

September 2003

You must keep activity plans at your child-care center for at least three months and you must make them available for review by Licensing and parents upon request during hours of operation. [Medium-Low]

Subchapter H, Basic Care Requirements for Infants

§746.2401. What are the basic care requirements for infants?

Subchapter H, Basic Care Requirements for Infants

April 2017

Basic care for infants must include:

- (1) Care by the same caregiver on a regular basis, when possible [Medium];
- (2) Individual attention given to each infant including playing, talking, cuddling, and holding [Medium-High];
- (3) Holding and comforting an infant who is upset [Medium-High];
- (4) Prompt attention given to physical needs, such as feeding and diapering [Medium-High];
- (5) Talking to infants as they are fed, changed, and held, such as naming objects, singing, or saying rhymes [Medium-High];
- (6) Ensuring the environment is free of objects that may cause choking in infants or toddlers [High]; and
- (7) Never leaving an infant unsupervised. [High]

Technical Assistance

- Regarding paragraph (1), children learn best from adults who know and respect them and with whom they have established a trusting relationship. Individual attention received during the early years of life is crucial to an infant's emotional and social development. Studies of infant behavior show that infants have difficulty forming trusting relationships in settings where many adults interact with the infant. The overall health and well-being of an infant can be positively impacted by providing infants with the same caregiver(s) on a regular basis.
- Regarding paragraph (3), the American Academy of Pediatrics (AAP) recommends that the wishes of children, regardless of their ages, should always be respected with regard to physical contact and their comfort/discomfort with it. If a child indicates that the child does not wish to be held or comforted, even "friendly contact" with a child should be avoided.
- Regarding paragraph (6), a commercial choke tube or empty toilet paper roll can be used to test toys and objects in the room that an infant or toddler may easily choke on. Try to place the toy or object into the tube. If the object easily passes through the tube, an infant or toddler may choke on it and such toys or objects must be removed from the children's access. If the object cannot pass through the tube, an infant or toddler is not likely to choke on it.

§746.2403. How must I arrange the infant care area?

Subchapter H, Basic Care Requirements for Infants

March 2023

The room arrangement of the infant care area must:

- (1) Make it possible for caregivers to hear all infants and see all infants at a glance, and be able to intervene when necessary [High];
- (2) Include safe, open floor space for floor time play [Medium-High];
- (3) Separate infants from children more than 18 months older than the youngest child in the group, except when 12 or fewer children are in care, as required by §746.1605 of this chapter (relating to May I combine infants with children 18 months and older?);
- (4) Have cribs far enough apart so that one infant may not reach into another crib [Medium- High];
- (5) Provide caregivers with enough space to walk and work between cribs, cots, and mats [Medium-High]; and
- (6) Ensure older children do not use the infant area as a passageway to other areas of the building. [Medium-High]

Technical Assistance

Infants need calm environments away from the stimulation of older children. Placing cribs far enough apart to prevent one infant from reaching into the crib of another infant protects the safety of the infants. This spacing also reduces the likelihood of transmission of infectious respiratory diseases spread by large droplets, generated by a sneeze or cough, and can be effective in controlling the spread of other infectious diseases in the child care environment.

§746.2405. What furnishings and equipment must I have in the infant care area?

Subchapter H, Basic Care Requirements for Infants

March 2023

Furnishings and equipment for infants must include at least the following:

- (1) An adult-sized rocker or chair [Medium-High];
- (2) An individual crib to sleep in for each non-walking infant younger than 12 months of age [Medium-High];
- (3) An individual crib, cot, bed, or mat that is waterproof or washable for each: [Medium]
 - (A) Walking infant; and
 - (B) Non-walking infant 12 months of age or older;
- (4) A hand-washing sink in the diaper-changing area, as specified in §746.4403 of this title (relating to Must I have a hand-washing sink in the diaper-changing area?) [Medium-High]; and
- (5) A sufficient number of toys to keep the infants engaged in activities. [Medium-High]

Technical Assistance

A chair or rocker allows the caregiver to hold, rock, comfort, talk, sing, and read to infants in an intimate, nurturing manner. It also provides a place for a mother to breastfeed her child.

§746.2407. Must the equipment I use for infants be equipped with safety straps?

Subchapter H, Basic Care Requirements for Infants

April 2017

If you use high chairs, swings, strollers, infant carriers, bouncer seats, or similar types of equipment, they must be equipped with safety straps that must be fastened whenever an infant is using the equipment. [Medium-High]

§746.2409. What specific safety requirements must my cribs meet?

Subchapter H, Basic Care Requirements for Infants

April 2017

(a) All full-size and non-full-size cribs must have:

- (1) A firm, flat mattress that snugly fits the sides of the crib and that is specifically designed for use with the crib model number. The mattress must not be supplemented with additional foam material or pads [Medium-High];
- (2) Sheets that fit snugly and do not present an entanglement hazard [Medium-High];
- (3) A mattress that is waterproof or washable [Medium-High];
- (4) Secure mattress support hangers, and no loose hardware or improperly installed or damaged parts [Medium-High];
- (5) A maximum of 2 3/8 inches between crib slats or poles [Medium-High];
- (6) No corner posts over 1/16 inch above the end panels [High];
- (7) No cutout areas in the headboard or footboard that would entrap an infant's head or body [High];
- (8) Drop gates, if present, which fasten securely and cannot be opened by a child [High];
- (9) Documentation that each crib meets the applicable federal rules at Title 16, Code of Federal Regulations, Parts 1219 or 1220, concerning "Safety Standards for Full- Size Baby Cribs" and "Safety Standards for Non-Full-Size Baby Cribs," respectively, or documentation that each crib is a medical device listed and registered with the U.S. Food and Drug Administration [High]; and
- (10) A label with the infant's name. As an alternative, you may label cribs with a number and have a number/infant assignment map available. [Medium]

(b) You must sanitize each crib before a different infant uses it and when soiled.

[Medium- High]

(c) You must never leave an infant in the crib with the drop gate down. [High]

Technical Assistance

- Research shows more babies die in incidents involving cribs than with any other piece of nursery equipment.
- Non-full-size cribs may be either smaller or larger than a full size crib, or shaped differently than the usual rectangular crib. The category of non-full-size cribs includes oversized, specialty, undersized, and portable cribs, but does not include any product with mesh/net/screen siding, non-rigidly constructed cribs, cradles, car beds, baby baskets or bassinets. For requirements for play yards, which are mesh or fabric sided products, see §746.2411 of this title (relating to Are play yards allowed?).
- Regarding paragraph (1), a mattress is too loose if there are more than two finger widths between the edge of the mattress and the crib side.
- Regarding paragraph (5) if a soda can fits easily between the slats on a crib, the slats are too wide.
- Regarding paragraph (9):
 - o Cribs manufactured before 06/28/2011 may not meet the safety standards established by the Consumer Product Safety Commission (CPSC).
 - o The applicable federal rules at Title 16, Code of Federal Regulations, Part 1219, concerning "Safety Standards for Full-Size Baby Cribs" are the rules amended on December 9, 2013. You can review them [here](#).
 - o The applicable federal rules at Title 16, Code of Federal Regulations, Part 1220, concerning "Safety Standards for Non-Full-Size Baby Cribs," are the rules effective on December 28, 2010. You can review them [here](#).
 - o Documentation that you may use to verify your crib is in compliance with CPSC regulations includes the certificate of compliance, registration card, or tracking label. You may request this documentation from the manufacturer or retailer.
 - The certificate of compliance is a document that describes the crib and whether the crib complies with 16 CFR 1219 or 16 CFR 1220. The certificate includes the contact information for the importer or domestic manufacturer and the testing lab. It also lists the date and location of manufacture and

Technical Assistance

testing.

- The registration card is a postage-paid form provided by the crib manufacturer. The card includes the manufacturer's name and contact information, model name, model number, and the date of manufacture.
- The tracking label is attached to the crib and contains basic information such as the date of manufacture and the source of the crib.
- You may find additional guidance on obtaining supporting documentation for your cribs on the CPSC website at <http://www.cpsc.gov>.
- In order to maintain the required documentation for each crib consider developing a system to easily tie the required documentation to the appropriate crib. Examples may include photographs of each crib attached to the documentation or a tracking sheet that includes information such as the date of purchase, manufacturer and model number, date of manufacture, and what documentation is on file (certificate of compliance, tracking label, or registration card).
- A crib that meets the definition of “device” in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. § 201(h)) is subject to regulation by the Food and Drug Administration (FDA), not CPSC. A crib that is not a “device” is subject to CPSC’s crib standards.
- If your crib is a medical device, the manufacturer must be registered with the FDA.

§746.2411. Are play yards allowed?

Subchapter H, Basic Care Requirements for Infants

April 2017

You may use a play yard, which is a mesh or fabric sided crib, if it meets the following safety requirements:

- (1) The play yards must be used according to the manufacturer's instructions, including the cleaning of the play yard [Medium-High];
- (2) Play yards must have:
 - (A) A firm, flat mattress that snugly fits the sides of the play yard and that is designed by the manufacturer specifically for the play yard model number. The mattress must not be supplemented with additional foam material or pads [High];

- (B) Sheets that fit snugly and do not present an entanglement hazard [Medium-High];
- (C) A mattress that is waterproof or washable [Medium-High];
- (D) Secure mattress support hangers, and no loose hardware or improperly installed or damaged parts [Medium-High];
- (E) A minimum height of 22 inches from the top of the railing to the mattress support at its lowest level [High];
- (F) Folded sides that securely latch in place when raised [High];
- (G) For play yards that have mesh sides, mesh openings that are 1/4 inch or less [High];
- (H) Mesh or fabric that is securely attached to the top rail, side rail, and floor plate [High]; and
- (I) A label with the infant's name. As an alternative, you may label play yards with a number and have a number/infant assignment map available [Medium]; and
- (J) You must never leave an infant in a play yard with a side folded down. [High]

§746.2413. Are stacking wall cribs allowed?

Subchapter H, Basic Care Requirements for Infants

April 2017

You may use a stacking wall crib that meets the requirements in §746.2409 of this title (relating to What specific safety requirements must my cribs meet?), and you:

- (1) Do not stack more than two cribs [Medium-High];
- (2) Only use a stacked crib for an infant who cannot stand or is able to stand without hitting the infant's head on either the top crib or the ceiling above the top crib [Medium-High];
- (3) Use the crib according to manufacturer's directions [Medium-High]; and
- (4) Securely latch the crib's doors/gates anytime an infant is in the crib. [Medium-High]

§746.2415. What specific types of equipment am I prohibited from using with infants?

Subchapter H, Basic Care Requirements for Infants

March 2023

- (a) You may not use the following equipment for infants, which has been identified as unsafe for infants by the Consumer Product Safety Commission and the American Academy of Pediatrics:
- (1) Baby walkers, which are devices that allow an infant to sit inside a walker equipped with rollers or wheels and move across the floor [Medium-High];
 - (2) Baby doorway jumpers, which are devices that allow an infant to bounce while supported in a seat by an elastic "bungee cord" suspended from a doorway [Medium-High];
 - (3) Accordion safety gates [Medium-High];
 - (4) Toys that are not large enough to prevent swallowing or choking [High]; or
 - (5) Bean bags, waterbeds, and foam pads for use as sleeping equipment. [High]
- (b) Except for a tight-fitting sheet and as provided in subsection (c), the crib or play yard must be bare for an infant younger than 12 months of age. [High]
- (c) A crib mattress cover may also be used to protect against wetness, but the cover must:
- (1) Be designed specifically for the size and type of crib and crib mattress that it is being used with [Medium-High];
 - (2) Be tight fitting and thin [Medium-High]; and
 - (3) Not be designed to make the sleep surface softer. [High]

Technical Assistance

- Regarding paragraph (a)(1), baby walkers present a hazard due to a risk of falling down stairs or steps and tipping over thresholds or carpet edges. They also provide infants accessibility to potentially hot surfaces such as oven doors, heaters, and fireplaces; containers of hot liquids such as coffee, soup, or cooking oils; dangling appliance cords; poisonous plants or hazardous materials; and buckets, toilets, or other containers of water.
- Regarding paragraph (a)(2), baby doorway jumpers require individual supervision of the infant to ensure the infant's safety and are not appropriate for use in a group setting.
- Regarding paragraph (a)(3), accordion gates with large V-shaped openings along the top edge and diamond shaped openings between the slats present entrapment and entanglement hazards resulting in strangulation, choking, or pinching to infants who try to crawl through or over the gate.
- Regarding paragraph (a)(4), examples of items that present a choking hazard for infants and toddlers include coins, balloons, safety pins, marbles, Styrofoam® and similar products, and sponge, rubber, or soft plastic toys.
- Regarding paragraph (b), studies on SIDS support eliminating soft bedding materials, sleep positioning devices, and stuffed toys for infants under twelve months.

§746.2417. What activities must I provide for an infant?

Subchapter H, Basic Care Requirements for Infants

March 2021

Daily activities for infants must include at least the following:

- (1) Opportunities for outdoor play, weather permitting, as specified in §746.2206 of this chapter (relating to What specific activities must I include in a written activity plan?)
[Medium];
- (2) Multiple opportunities to explore that ensure the infant is:
 - (A) Outside of the crib [Medium-High]; and
 - (B) Not seated in any restrictive device for more than 15 minutes, unless the infant is eating or being transported [High];
- (3) Opportunities for physical activity, including supervised tummy time, reaching, grasping, pulling up, creeping, crawling, and walking in a safe, clean, uncluttered area
[Medium- High];
- (4) Opportunities for visual stimulation through nonverbal communication. Examples of age- appropriate equipment include large pictures of faces and familiar objects;

simple, soft, washable books and toys; unbreakable mirrors or mobiles attached to cribs visible from the baby's position; and brightly patterned crib sheets [Medium-High];

(5) Opportunities for auditory stimulation. Examples of age-appropriate equipment or activities include verbal communication, soothing music, and musical or sounding toys [Medium-High];

(6) Opportunities for sensory stimulation. Examples of age-appropriate equipment include surfaces, fabrics, textured toys, washable dolls, and toy animals [Medium-High]; and

(7) Opportunities for small-muscle development. Examples of age-appropriate equipment include busy boxes, rattles, teethingers, grasping toys, shaking or squeezing toys, or cloth toys [Medium-High]; and

(8) Opportunities for large-muscle development. Examples of age-appropriate equipment or activities include blankets or quilts for floor or supervised tummy time, crib and play gyms, variety of light-weight balls, and pillows or supportive equipment for those learning to sit up. [Medium-High]

Technical Assistance

- Each infant should follow an individual schedule that will vary based on the infant's individual needs, but caregivers should offer a variety of opportunities that aid in the development of social, cognitive, and motor skills. Participation in activities will be dependent on the ability and developmental level of each individual infant. For example, a developmentally appropriate physical activity for a younger infant is supervised tummy time, as this helps the infant develop neck and shoulder muscles. However, once an infant is crawling, alternate physical activities become more appropriate to develop motor skills and tummy time is no longer necessary.
- Regarding paragraph (3) of this section and supervised tummy time, caregivers should begin tummy time with infants for short periods of time (3 – 5 minutes), increasing the amount of time as the infant shows the infant is enjoying the activity.
- You should always encourage the least restrictive environment when planning activities for infants.

§746.2419. Are there specific requirements for feeding infants?

Subchapter H, Basic Care Requirements for Infants

April 2017

Yes. You must:

(1) Hold infants birth through six months while feeding them [Medium-High];

- (2) Hold infants over six months who are unable to sit unassisted in a high chair or other seating equipment while feeding them [Medium-High];
- (3) Never prop or support bottles with some object. The infant or an adult must hold the bottle [High];
- (4) Provide regular snack and meal times for infants who eat table food [High];
- (5) Ensure infants no longer being held for feeding are fed in a safe manner [Medium-High];
- (6) Label bottles and training cups with the infant's first name and initial of last name [Medium-High];
- (7) Never allow infants to walk around with or sleep with a bottle or training cup [Medium-High];
- (8) Never use the hand-washing sink or diaper-changing surface for food preparation, or for washing food service/preparation equipment, bottles, pacifiers or toys [Medium-High]; and
- (9) Sanitize high chair trays before each use. [Medium-High]

Technical Assistance

- Regarding paragraph (3), research has shown that propping bottles can cause choking, aspiration, and increased risk for development of ear infections, tooth decay, and injuries to the teeth, as well as depriving infants of much-needed face- to-face interaction.
- Regarding paragraph (8), using diaper changing surfaces and hand-washing sinks for food preparation or for washing items used for food service increases the spread of germs from cross contamination.

§746.2421. What written feeding instructions must I obtain for an infant not ready for table food?

Subchapter H, Basic Care Requirements for Infants

April 2017

- (a) For an infant who is not yet ready for table food, you must obtain and follow written feeding instructions that are signed and dated by the infant's parent or health-care professional. [Medium]
- (b) You must review and update the feeding instructions with the parent every 30 days until the infant is able to eat table food. [Medium]

Technical Assistance

- Regarding paragraph (a), “table food” refers to non-baby food and regular, non-pureed meals and snacks provided to other children in the child-care center. If parents, rather than the child-care center, provide meals, written feeding instructions are still required because infants not yet ready for table food have rapidly changing nutritional needs. The amount of formula or breastmilk, baby cereal, and types of baby food changes multiple times throughout the infant’s early stages. Infant caregivers must have updated information to ensure they are feeding each infant according to the current needs of the infant.
- Written feeding instructions ensure that all caregivers, including substitutes, have clear instructions for feeding infants. Each infant's needs vary greatly during this critical time of growth and development.
- Reviewing and updating feeding instructions every 30 days ensures that caregivers are following parent instructions as the nutritional needs of the infants change.

§746.2423. Must I provide a regularly scheduled naptime for infants?

Subchapter H, Basic Care Requirements for Infants

September 2003

Yes. Each infant must have a supervised nap period that allows the infant to maintain his or her own pattern of sleeping and waking periods. [Medium]

§746.2424. Where must an infant sleep?

Subchapter H, Basic Care Requirements for Infants

March 2023

An infant must sleep in a designated crib, cot, bed, or mat as required by §746.2405 of this subchapter (relating to What furnishings and equipment must I have in the infant care area?) [High].

§746.2425. How long are infants allowed to remain in their cribs after awakening?

Subchapter H, Basic Care Requirements for Infants

April 2017

An infant may remain in the crib for up to 30 minutes after awakening, as long as the infant is content and responsive. [Medium]

Technical Assistance

Exploring outside of the crib gives infants freedom of movement, which cannot be met in swings, infant carriers, strollers, or otherwise physically limiting equipment.

§746.2426. May I allow infants to sleep in a restrictive device?

Subchapter H, Basic Care Requirements for Infants

March 2023

- (a) If you do not have a Sleep Exception Form that includes a signed statement from a health-care professional stating that the child sleeping in a restrictive device is medically necessary:
- (1) You may not allow an infant to sleep in a restrictive device [High]; and
 - (2) If an infant falls asleep in a restrictive device, you must remove the infant from the device and place the infant in a crib as soon as possible [High].
- (b) You may allow an infant to sleep in a restrictive device if you have a completed Sleep Exception Form that includes a signed statement from a health-care professional stating that the child sleeping in a restrictive device is medically necessary.

Technical Assistance

- Infants sleeping in restrictive devices are at risk for strangulation, injury, and positional asphyxiation. Documentation from a health care professional is required for an infant to sleep in a device other than a CPSC approved crib.
- Infants arriving at the center asleep in a car seat must be removed from the car seat and placed in a crib. You must not place the car seat in the crib with a sleeping infant.
- If applicable, a copy of the Sleep Exception Form should be kept in the infant's classroom for easy review by caregivers and licensing staff.

§746.2427. How must I position an infant for sleep?

Subchapter H, Basic Care Requirements for Infants

March 2023

- (a) You must place an infant in a face-up sleeping position in the infant's own crib, unless you have a completed Sleep Exception Form that includes a signed statement from a health-care professional stating that a different sleeping position for the child is medically necessary [High].
- (b) An infant who is developmentally able to roll from back to stomach and stomach to back may do so independently after you have placed the infant in a face-up position for sleep.

Technical Assistance

- Sudden Infant Death Syndrome (SIDS), the sudden and unexplained death of an infant, is the major cause of death in babies between 1 and 4 months old. After 30 years of research, scientists still cannot find a cause for SIDS; however, research has found the risk of SIDS may be reduced by placing a healthy infant on his or her back to sleep.
- If the infant was born with special care needs, has gastroesophageal reflux, often spits up after eating, or has a breathing, lung, or heart problem, a doctor or nurse may recommend a different sleep position to use.
- Providing “tummy time” several times each day is important because it prepares infants for the time when they will be able to slide on their bellies and crawl. The caregiver needs to stay near and closely supervise the infant during tummy time.
- If applicable, a copy of the Sleep Exception Form should be kept in the infant's classroom for easy review by caregivers and licensing staff.
- For additional information, see the CDC webpage [Safe Sleep for Babies](#).

§746.2428. May I swaddle an infant to help the infant sleep?

Subchapter H, Basic Care Requirements for Infants

April 2017

You may not lay a swaddled infant down to sleep or rest on any surface at any time unless you have a completed Sleep Exception Form that includes a signed statement from a health-care professional stating that swaddling the child for sleeping purposes is medically necessary. [High]

Technical Assistance

- If applicable, a copy of the Sleep Exception Form should be kept in the infant's classroom for easy review by caregivers and licensing staff.
- There is evidence that swaddling can increase the risk of serious health outcomes, including SIDS and hip disease, and research does not provide definitive data to support the use of swaddling. Even with newborns, research does not provide conclusive data about whether swaddling should be used. Swaddling blankets that become loose during sleep pose an additional risk for infants. For concerns with maintaining an infant's temperature, appropriate clothing and/or a sleeveless infant sleep sack that does not restrict the infant's movement can be utilized. For more information on safe sleep, see the [American Academy of Pediatrics Health Initiatives for Safe Sleep](#) and the [National Institutes of Health Safe to Sleep Campaign](#).

§746.2429. If an infant has difficulty falling asleep, may I cover the infant's head or crib?

Subchapter H, Basic Care Requirements for Infants

September 2003

No. Infants must not have their heads, faces, or cribs covered by items such as blankets, linens, or clothing at any time. [High]

§746.2431. Must I share a daily report with parents for each infant in my care?

Subchapter H, Basic Care Requirements for Infants

April 2017

You must provide a daily written or electronic report to the infant's parent when or by the time the infant is picked up from the child-care center. [Medium-High] The report must contain:

- (1) Times the infant slept [Medium];
- (2) Times and amount of food consumed [Medium-High];
- (3) Times of diaper changes [Medium-High];
- (4) Infant's general mood for the day [Medium]; and
- (5) A brief summary of the activities in which the infant participated. [Medium]

Technical Assistance

Because infants are not able to communicate essential information to their parents, it is important that the caregiver do so. In child-care centers, several caregivers may care for an infant or there may be a shift change. A report for each parent will allow the parent to know how their infant spent the day, so the parent can supplement the infant's activities, meals and so on at home, based on the infant's activities. This is a very good way of creating solid communication and healthy relationships with parents, and it enhances the protection and well-being of infants.

Subchapter I, Basic Care Requirements for Toddlers

§746.2501. What are the basic care requirements for toddlers?

Subchapter I, Basic Care Requirements for Toddlers

April 2017

Basic care for toddlers must include:

- (1) Routines such as diapering, feeding, sleeping, and indoor and outdoor activity times, maintained as closely as possible [Medium];
- (2) Care given by the same caregiver on a regular basis, when possible [Medium];
- (3) Individual attention given to each toddler, including playing, talking, and cuddling [Medium-High];
- (4) Holding and comforting a toddler who is upset [Medium-High]; and
- (5) Ensuring the environment is free of objects that may cause choking in infants or toddlers. [High]

Technical Assistance

A commercial choke tube or empty toilet paper roll can be used to test toys and objects in the room that an infant or toddler may easily choke on. Try to place the toy or object into the tube. If the object easily passes through the tube, an infant or toddler may choke on it and it must be removed from the children's access. If the object does not fit through the tube, an infant or toddler is not likely to choke on it.

§746.2503. How must I arrange the toddler care area?

Subchapter I, Basic Care Requirements for Toddlers

March 2023

The toddler care area must include:

- (1) Spaces in the room that allow both individual and group time [Medium]; and
- (2) A play environment that allows the caregiver to supervise all children as defined in §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children?). [High]

§746.2505. What furnishings and equipment must I provide for toddlers?

Subchapter I, Basic Care Requirements for Toddlers

April 2017

Furnishings and equipment for toddlers must include at least the following:

- (1) Age-appropriate seating, tables, and nap or rest equipment [Medium-High];
- (2) Enough popular items available so that toddlers are not forced to compete for them [Medium-High];
- (3) Containers or low shelving that are accessible to toddlers, so toddlers can safely obtain the items without adult intervention [Medium]; and
- (4) Bottles and training cups, if used, must be:
 - (A) Labeled with the toddler's first name and initial of last name or otherwise individually assigned to each toddler [Medium];
 - (B) Cleaned and sanitized between each use [Medium]; and
 - (C) Used for drinking and feeding, and never allow toddlers to sleep with or walk around with a bottle or training cup. [Medium]

Technical Assistance
• It is acceptable to assign training cups using individualized colors or symbols that toddlers may recognize as theirs. • If the training cups are cleaned and sanitized between each use then you are not also required to label each cup with the toddler's name.

§746.2507. What activities must I provide for a toddler?

Subchapter I, Basic Care Requirements for Toddlers

March 2021

Daily activities for a toddler must include at least the following:

- (1) Opportunities for outdoor play, weather permitting, as specified in §746.2206 of this chapter (relating to What specific activities must I include in a written activity plan?) [Medium-High];
- (2) Opportunities for thinking skills and sensory development. Examples of age-appropriate equipment or activities include shape or item sorting toys, stacking or nesting toys, puzzles with less than six pieces, washable board books, washable blocks, and snapping and take-apart toys [Medium];

- (3) Opportunities for small-muscle development. Examples of age-appropriate equipment or activities include large-size washable crayons and markers, variety of paper and art materials, table or easel for art, large paintbrushes, non-toxic play-dough, large-sized washable toy transportation vehicles, toy animals, and toy people [Medium];
- (4) Opportunities for large-muscle development. Examples of age-appropriate equipment or activities include low-climbing structures, small riding toys, toys for pushing or pulling, a variety of light-weight balls for indoor and outdoor play, and rhythm instruments [Medium];
- (5) Opportunities for moderate to vigorous active play, both indoors and outdoors, as specified in §746.2206 of this chapter. Examples of age-appropriate equipment or activities include music, songs, simple games and dramatic or imaginary play that encourage movement such as dancing, running, climbing, stretching, walking, and marching [Medium-High];
- (6) Opportunities for language development. Examples of age-appropriate equipment or activities include washable soft animals or puppets, simple picture books, and pictures of familiar items and places [Medium];
- (7) Opportunities for social and emotional development. Examples of age-appropriate equipment or activities include dress-up clothes and accessories, housekeeping equipment, unbreakable mirrors, washable dolls with accessories, items for practicing buttoning, zipping, lacing, and snapping, and baskets, tubs, and tote bags (not plastic bags) for carrying and toting [Medium]; and
- (8) Opportunities to develop self-help skills such as toileting, hand washing, and self-feeding. [Medium]

Technical Assistance

- You may accommodate weather, air quality, and seasonal changes by adjusting the scheduled outdoor time, the length of time outdoors, and children's clothing.
- Indoor and outdoor active play enhances fitness and general health and supports creativity, learning, and development.
- Active play opportunities must be offered throughout the day. It is recommended that caregivers incorporate two or more short (5 to 10 minutes) structured activities or games daily that promote physical activity.
- Active play must never be withheld from toddlers who misbehave although toddlers exhibiting out of control behavior may need a few minutes to calm themselves or settle down before resuming cooperative play or activities.
- Nap times and meal and snack times are also required by §746.2901 et al and §746.3301 et al, respectively.

§746.2509. Must I share a daily report with parents for each toddler in my care?

Subchapter I, Basic Care Requirements for Toddlers
April 2017

No, however you must have a plan for personal contact with parents that provides for an exchange of information regarding observations, comments, and concerns regarding their toddler. [Medium]

Technical Assistance
Although a written report is not required, toddlers benefit when caregivers share any significant information with the parents.

Subchapter J, Basic Care Requirements for Pre-Kindergarten Age Children

§746.2601. What are the basic care requirements for pre-kindergarten age children?

Subchapter J, Basic Care Requirements for Pre-Kindergarten Age Children

March 2023

Basic care for pre-kindergarten age children must include:

- (1) Routines such as diapering or toileting, eating, napping or resting, indoor activity times, and outdoor activity times [Medium];
- (2) Individual attention given to each pre-kindergarten age child [Medium]; and
- (3) Interactions that encourage children to communicate and express feelings in appropriate ways [Medium].

Technical Assistance

The American Academy of Pediatrics (AAP) offers these examples for encouraging children to communicate, "Ask Johnny if he will share the book." "Tell him you don't like being hit." "Tell Sarah what you saw at the store yesterday." "Tell mommy about what you built in the block center this morning." Follow these encouraging statements with respectful listening, without pressuring the child to speak.

§746.2603. What physical space requirements must I provide for pre-kindergarten age children?

Subchapter J, Basic Care Requirements for Pre-Kindergarten Age Children

September 2003

Physical space requirements for pre-kindergarten age children must include:

- (1) Space for furnishings and activities without limiting children's movement [Medium]; and
- (2) Space in which children are allowed to find or create individual activities, but which still permits the caregiver to easily supervise. [Medium-High]

Technical Assistance
The National Association for the Education of Young Children reports that a learning environment that supports child initiated activities and individual learning styles fosters confidence and curiosity in the child.

§746.2605. What furnishings and equipment must I provide for pre- kindergarten age children?

Subchapter J, Basic Care Requirements for Pre-Kindergarten Age Children

September 2003

Furnishings and equipment for pre-kindergarten age children must include at least the following:

- (1) Interest centers, such as dramatic play, block building, stories and books, science and nature activities, art and music activities, sensory, and problem-solving activities that are:
 - (A) Clearly defined [Medium];
 - (B) Organized for independent use by children [Medium]; and
 - (C) Arranged so the children's activities are visible to the caregiver [Medium-High];
- (2) Age-appropriate seating, tables, and nap or rest equipment [Medium];
- (3) Enough popular items available so that children are not forced to compete for them [Medium]; and
- (4) Containers or low shelving available so items children can safely use without direct supervision are accessible to children. [Medium]

Technical Assistance
• First-hand experiences encourage children to talk to each other and to adults, to seek increasingly more complex vocabulary, and to use language to express thinking, feeling, and curiosity. • Bored or frustrated children may be indicators of inappropriate or insufficient equipment and materials.

§746.2607. What activities must I provide for a pre-kindergarten age child?

Subchapter J, Basic Care Requirements for Pre-Kindergarten Age Children

March 2021

Daily activities for a pre-kindergarten age child must include at least the following:

- (1) Opportunities for outdoor play, weather permitting, as specified in §746.2206 of this chapter (relating to What specific activities must I include in a written activity plan?) [Medium-High];
- (2) Opportunities for thinking skills and sensory development. Examples of age-appropriate equipment or activities include sand and water play, blocks, framed puzzles with up to 30 pieces, variety of large stringing beads, and simple board games [Medium];
- (3) Opportunities for small-muscle development. Examples of age-appropriate equipment or activities include large non-toxic crayons, markers, paint, water colors and various size brushes, adjustable easels, collage materials, chalkboard and chalk, clay or dough and tools, workbench and accessories, round end scissors, glue and paste, different types of music and videos, rhythm instruments, and fingerplays [Medium];
- (4) Opportunities for large-muscle development. Examples of age-appropriate equipment or activities include small wagons, light-weight balls of all sizes, small wheelbarrows, tricycles, push toys, swings, slides, climbing equipment, balance beam, hanging bars, and outdoor building materials [Medium];
- (5) Opportunities for moderate to vigorous active play, both indoors and outdoors, as specified in §746.2206 of this chapter. Examples of age-appropriate equipment or activities include active games such as tag and hot potato, dancing and creative movement to music and singing, simple games and dramatic or imaginary play that encourages running, stretching, climbing, walking and marching [Medium-High];
- (6) Opportunities for language development. Examples of age-appropriate equipment or activities include flannel board stories, puppets, and variety of storybooks, writing materials, and stories on tape [Medium];
- (7) Opportunities for social and emotional development. Examples of age-appropriate equipment or activities include dress-up clothes and accessories, mirrors, dolls, simple props for different themes, puppets, transportation toys, play animals, and table games [Medium]; and
- (8) Opportunities to develop self-help skills such as toileting, hand washing, returning equipment to storage areas or containers, and serving and self-feeding. [Medium]

Technical Assistance
• If children have access to natural elements such as sticks, rocks, etc. for outdoor play, the caregiver should supervise children to ensure the objects are safe and children are engaging with the materials in a manner that is appropriate and will not result in injury to a child.

Subchapter K, Basic Care Requirements for School-age Children

§746.2701. What are the basic care requirements for school-age children?

Subchapter K, Basic Care Requirements for School-age Children

September 2003

Basic care requirements for school-age children must include:

- (1) Individual attention from and conversation with adults [Medium];
- (2) Physical care routines appropriate to each child's developmental needs [Medium];
- (3) Flexible programming according to ages, interests, and abilities of the children [Medium]; and
- (4) A caregiver who is aware of the arrival and departure of each child, including dismissing children who ride the bus or walk home. [Medium-High]

Technical Assistance

A school age child develops a strong secure sense of identity through positive experiences with adults and peers. Although school-age children are learning to accept personal responsibility and act independently, they continue to need the supervision and support of adults.

§746.2703. What physical space requirements must I provide for the school-age care area?

Subchapter K, Basic Care Requirements for School-age Children

March 2023

The school-age care area must include:

- (1) Space to set up interest centers or focused play areas during the activity, such as arts and crafts; music and movement; blocks and construction; drama and theater; math and reasoning activities; science and nature; language and reading activities, such as books, story tapes and language games, stories read or told on a weekly basis, and cultural awareness, [Medium] which are:
 - (A) Organized for independent use by children [Medium]; and

(B)Arranged so the caregiver can supervise the children according to §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children?) [Medium-High];

(2)Space where children can have individual activities yet be supervised [Medium]; and

(3)Space for quiet time to do homework. [Medium]

§746.2705. What furnishings and equipment must I provide for school-age children?

Subchapter K, Basic Care Requirements for School-age Children

September 2003

Furnishings and equipment for school-age children must include at least the following:

(1)Age-appropriate seating, tables, or desks to meet children’s needs, such as workspace to do homework and table-top activities [Medium];

(2)Age-appropriate nap or rest equipment [Medium]; and

(3)Containers or shelving available so that items children can safely use without direct supervision are accessible to children. [Medium]

§746.2707. What activities must I provide for a school-age child?

Subchapter K, Basic Care Requirements for School-age Children

March 2021

Daily activities for a school-age child must include at least the following:

(1)Study time for those children who choose to work on homework assignments [Medium];

(2)Opportunities for outdoor play, weather permitting [Medium-High];

(3)Opportunities for thinking skills and sensory development. Examples of age-appropriate equipment or activities include sand and water play; construction materials and blocks; puzzles with 50 or more pieces; pattern-making materials, such as wood, paper, plastic, beads, ceramic tiles, cloth, or cardboard; games that contain rules and require some skill or strategy; specific skill development materials, such as rulers, tape measures, telescopes, weather observation equipment, models of the solar system, and microscopes; books; and magazines [Medium];

- (4) Opportunities for small-muscle development. Examples of age-appropriate equipment or activities include art and craft materials, such as paints, markers, colored pencils, crayons, clay, weaving, or braiding materials; music and musical instruments of all types; and puzzles or interlocking building blocks [Medium];
- (5) Opportunities for large-muscle development. Examples of age-appropriate equipment or activities include balls and sports equipment, such as kick balls, baseballs, soccer balls, basketballs, skates, and horseshoes; riding equipment, such as kick scooters or skateboards, with kneepads, elbow pads, and helmets; and outdoor and gym equipment, such as slides, swings, climbing apparatus, and upper-body equipment [Medium];
- (6) Opportunities for active play both indoors and outdoors. Examples of age-appropriate equipment or activities include active games such as tag and Simon Says, dancing and creative movement to music and singing, simple games and dramatic or imaginary play that encourages running, stretching, climbing, and walking [Medium-High]; and
- (7) Opportunities for social and emotional development. Examples of age-appropriate equipment or activities include dolls with detailed, realistic accessories; role-play materials, including real equipment for library, hospital, post office, costumes, makeup and disguise materials; puppets and puppet show equipment; transportation toys, such as small vehicles or models; play and art materials; nature materials; and human and animal figurines. [Medium]

Technical Assistance

- Research has shown that school-age children benefit from an after-school care program that provides an enriching contrast to the formal school environment. Activities including team sports, cooking, art, dramatics, music, crafts, and games allow them to explore new interests and relationships.
- Indoor and outdoor active play enhances fitness and general health and supports creativity, learning, and development.
- Naptime and rest time for school-age children will vary with each child's individual needs. Children in full-day care benefit from resting or napping during their long day. A rest period may be reading books or listening to soft music or books on tape.

Subchapter L, Discipline and Guidance

§746.2803. What methods of discipline and guidance may a caregiver use?

Subchapter L, Discipline and Guidance

April 2017

Discipline must be:

- (1) Individualized and consistent for each child [Medium]
- (2) Appropriate to the child's level of understanding [Medium-High];
- (3) Directed toward teaching the child acceptable behavior and self-control [Medium];
and
- (4) A positive method of discipline and guidance that encourages self-esteem, self-control, and self-direction, [Medium-High] including the following:
 - (A) Using praise and encouragement of good behavior instead of focusing only upon unacceptable behavior [Medium-High];
 - (B) Reminding a child of behavior expectations daily by using clear, positive statements [Medium-High];
 - (C) Redirecting behavior using positive statements [Medium-High]; and
 - (D) Using brief supervised separation or time out from the group, when appropriate for the child's age and development, which is limited to no more than one minute per year of the child's age. [Medium]

Technical Assistance

- Research has shown that positive guidance teaches children skills which help them get along in their physical and social environment. The goal is to develop personal standards in self-discipline, not to enforce a set of inflexible rules.
- Giving children understandable guidelines and re-directing their behavior helps them to develop internal control of their actions and encourages acceptable behavior.

§746.2805. What types of discipline and guidance or punishment are prohibited?

Subchapter L, Discipline and Guidance

March 2023

There must be no harsh, cruel, or unusual treatment of any child. The following types of discipline and guidance are prohibited [High]:

- (1) Corporal punishment or threats of corporal punishment [High];
- (2) Punishment associated with food, naps, or toilet training [High];
- (3) Grabbing or pulling a child [High];
- (4) Putting anything in or on a child's mouth [High];
- (5) Humiliating, ridiculing, rejecting, or yelling at a child [High];
- (6) Subjecting a child to harsh, abusive, or profane language [High];
- (7) Placing a child in a locked or dark room, bathroom, or closet [High];
- (8) Placing a child in a restrictive device for time out [High];
- (9) Withholding active play or keeping a child inside as a consequence for behavior, unless the child is exhibiting behavior during active play that requires a brief supervised separation or time out that is consistent with §746.2803(4)(D) of this subchapter (relating to What methods of discipline and guidance may a caregiver use?) [High]; and
- (10) Requiring a child to remain silent or inactive for inappropriately long periods of time for the child's age [High].

Technical Assistance

- Child development research supports that physical punishment such as pinching, shaking, or hitting children teaches them that hitting or hurting others is an acceptable way to control unwanted behavior or get what they want.
- Children will also mimic adults who demonstrate loud or violent behavior.
- Rapping, thumping, popping, yanking, and flicking a child are all examples of corporal punishment.
- Regarding paragraph (9), you must never withhold active play from a child who misbehaves (i.e., keeping a child indoors with another caregiver while the rest of the children go outside or making a child sit out of active play in the afternoon for a behavior that occurred in the morning). However, if a child is exhibiting poor behavior during active play, you may separate the child from the group, as described in §746.2803(4)(D), to allow the child to settle down before resuming cooperative play or activities.

§746.2807. May my employees discipline their own children who are in care at my center?

Subchapter L, Discipline and Guidance

September 2003

Yes, during operating hours an employee may discipline the employee's own child as long as the employee does not violate the requirements specified in this subchapter. [Medium-High]

Technical Assistance

It is recommended that a caregiver does not work with a group of children that includes her own child since it may be difficult for the child to understand why he must share his parent's attention with other children.

Subchapter M, Naptime

§746.2901. Must children have a naptime every day?

Subchapter M, Naptime

September 2003

You must provide a supervised sleep or rest period after the noon meal for all children 18 months of age or older who are in care five or more consecutive hours, or according to the child's individual physical needs. You may provide sleep or rest for each child who attends the child-care center for fewer than five hours and whose individual physical needs call for a rest period while the child is in care. [Medium-High]

§746.2903. How long may the nap and rest time last each day?

Subchapter M, Naptime

September 2003

The sleep or rest period must not exceed three hours. [Medium]

§746.2905. Are children required to sleep during this time?

Subchapter M, Naptime

April 2017

No. You must not:

- (1) Force a child to sleep or put anything in or on a child's head or body to force the child to rest or sleep [Medium]; or
- (2) Confine a child in a restrictive device to make the child rest or sleep. [Medium-High]

§746.2907. Must I provide an alternative activity for those children who cannot sleep?

Subchapter M, Naptime

September 2003

- (a) Yes. You must allow each child who is awake after resting or sleeping for one hour to participate in an alternative, quiet activity until the nap/rest time is over for the other children. [Medium]

- (b) You must take a toddler who sleeps or rests in a crib out of the crib for other activities when he awakens. [Medium]

§746.2909. Must I arrange the napping equipment in a specific manner?

Subchapter M, Naptime

March 2023

Napping equipment must:

- (1) Not block entrances or exits to the area [Medium-High];
- (2) Not be set up during other activities or left in place to interfere with children's activity space [Medium];
- (3) Be arranged to provide a sufficient walk and work space for caregivers between each cot and mat [Medium-High];
- (4) Be arranged so that each child and caregiver has access to a walkway without having to walk on or over the cots or mats of other children [Medium-High]; and
- (5) Be arranged so the caregiver can adequately supervise all children in the group, as specified in §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children?) [High].

§746.2911. May I lower the lighting in the room while children are sleeping?

Subchapter M, Naptime

April 2017

Yes. You may lower the lighting, provided there is adequate lighting to allow visual supervision of all children in the group at all times. Lighting in a room is adequate if a person's eyes do not need to adjust for the person to be able to see upon entering the room. [Medium-High]

Subchapter N, Field Trips

§746.3001. May I take children away from my child-care center for field trips?

*Subchapter N,
Field Trips October
2018*

Yes. You must ensure the safety of all children on field trips or excursions and during any transportation provided by the child-care center. Anytime you take a child on a field trip, you must comply with each of the following requirements [High]:

- (1) You must have signed permission from the parent to take a child on a field trip, including permission to transport the child, if applicable [Medium-High];
- (2) One or more caregivers must carry emergency medical consent forms and emergency contact information for each child on the field trip [Medium-High];
- (3) Caregivers must have a written list of all children on the field trip and must check the list frequently to account for the presence of all children [High];
- (4) Caregivers must have a first-aid kit immediately available on field trips [High];
- (5) Caregivers must have a copy of a child's food allergy emergency plan and allergy medications, if applicable [Medium-High];
- (6) Each child must wear a shirt, nametag, or other identification listing the name of the child-care center and the child-care center's telephone number [Medium-High];
- (7) Each caregiver must be easily identifiable by all children on the field trip by wearing a hat, child-care center tee-shirt, brightly-colored clothes, or other easily spotted identification [Medium-High];
- (8) Each caregiver supervising a field trip must have transportation available, a communication device such as a cellular phone or two-way radio available, or an alternate plan for transportation at the field-trip location in case of emergency [Medium-High]; and
- (9) One or more caregivers per group of children must have current training in pediatric first aid and pediatric CPR. [High]

Technical Assistance

- Regarding Paragraph (3):
 - Conducting multiple name to face checks while away from the center will help ensure a child has not wandered off, gotten lost, or been left behind;
 - Conducting multiple name to face checks while away from the center will alert staff to begin an immediate search if a child is missing; and
 - Caregivers should record the count on an attendance sheet or on a pocket card, along with the time the count occurred.
- For child/caregiver ratios and groups sizes, see subchapter E of this chapter.

§746.3003. Must I notify parents before I take children away from the child-care center on a field trip?

Subchapter N, Field Trips

September 2003

Yes. You must notify the parent of each child who will be on the field trip, indicating when and where the child will be going, and when the child is expected to return to the child-care center. The notice must be posted at least 48 hours in advance of a field trip. You must post the field trip notice in a prominent place where parents and others may view it. The notice must remain posted until all children on the field trip have returned to the child-care center.

[Medium-High]

Subchapter O, Get-Well Care Program

§746.3101. May I care for children who are ill?

Subchapter O, Get-Well Care Programs

September 2003

Yes, if you are licensed as a get-well care program to provide care for children who are ill. The primary objective of this program is to ensure that children in care receive the required attention necessary for certain ill children, as specified in this subchapter. [Medium]

§746.3103. Which children may be included in the get-well care program?

Subchapter O, Get-Well Care Programs

December 2010

Get-well care includes care for children who are too sick to attend well-child day care according to the exclusions in Subchapter R, Division 3 of this chapter (relating to Illness and Injury), but who do not exhibit any of the excludable diseases defined by the Texas Department of State Health Services (DSHS) in 25 TAC §97.7 (relating to Diseases Requiring Exclusion from Schools). [Medium]

§746.3105. What must I do before I admit a child to my get-well care program?

Subchapter O, Get-Well Care Programs

September 2003

Before a child may enter your get-well care program, you must determine the child's needs and that your program can meet those needs without compromising the care of other children in the program. [Medium]

§746.3107. When must I remove a child from my get-well care program?

Subchapter O, Get-Well Care Programs

December 2010

You must remove a child from your get-well care program immediately when the child's condition meets one of the excludable diseases or symptoms specified by DSHS. The child may return to your regular child-care program when you have obtained a doctor's statement that he no longer has the excludable condition, or when the child is free of symptoms for 24 hours. [Medium]

§746.3109. Are the parents of children in the get-well care program required to provide a doctor's statement before I may admit the child?

Subchapter O, Get-Well Care Programs

September 2003

No. Each parent must provide you with information on the child's specific diagnosis from a health-care professional, including current status of the illness, any dietary needs, activity level, and medication plan. You must record this information and the name and telephone number of the health-care professional on the get-well care program admission form or other similar form that captures the same information. You must update this information as the child's needs or diagnosis changes. [Medium]

§746.3111. Must I care for children in the get-well care program in an area separate from the well children in care?

Subchapter O, Get-Well Care Programs

September 2003

If your get-well care program is located in the same building as your other child-care programs:

- (1) The get-well care program must have a separate entrance and a separate ventilation system [Medium];
- (2) Indoor hallways, bathrooms, and activity areas utilized by the get-well care program must be separate from the other child-care programs [Medium];
- (3) A single kitchen may be used if the cook has no child-care responsibility [Medium];

- (4) Separate toileting facilities must be available for the children in the get-well care program from the children in the well child-care program at a ratio of one toilet for every ten children [Medium]; and
- (5) Linens, furniture, fixtures, equipment, and supplies designated for use by the get-well care program must be sanitized before being used by the well children. [Medium-High]

Technical Assistance

Most health authorities believe that adequate space and ventilation reduce the transmission of disease.

§746.3113. What extra safety features must I have in my get-well care program?

Subchapter O, Get-Well Care Programs

September 2003

- (a) You must care for children with respiratory illnesses separately from children with gastrointestinal illnesses. Curtains, partitions, or walls can define separate rooms. [Medium-High]
- (b) A hand-washing sink must be available in every room in your get-well care program. [Medium-High]
- (c) If children in diapers are in care, the diaper-changing surface must be adjacent to the hand-washing sink. [Medium-High]

Technical Assistance

Hand-washing sinks stationed in each room provide the opportunity to maintain cleanliness and give the caregivers an opportunity for continuous supervision of the other children in care.

§746.3115. May caregivers working with the get-well care program also work with other children in the child-care center?

Subchapter O, Get-Well Care Programs

September 2003

No. Caregivers supervising and caring for children in your get-well care program must not also care for well children in the child-care center on the same day. [Medium-High]

Technical Assistance

The American Academy of Pediatrics (AAP) supports separating caregiver responsibilities, limiting child- to-child interaction, and limiting the co-mingling of supplies, toys, and equipment to reduce the likelihood of disease transmission between ill and well children.

§746.3117. Do caregivers in my get-well care program require special training?

Subchapter O, Get-Well Care Programs

October 2018

Yes, in addition to the orientation, pre-service training, pediatric first aid, pediatric CPR, and annual training required of caregivers in this chapter, all get-well care program caregivers must have five additional hours of annual training in prevention and control of communicable diseases and care of ill children for a total of 29 hours per year. [Medium-High]

Technical Assistance

Special training is required for employees who care for ill children because they are dealing with communicable diseases and need to know how to prevent the spread of infection.

§746.3119. May the director of my well child-care program also direct my get-well care program?

Subchapter O, Get-Well Care Programs

April 2017

Yes, although the director of your get-well care program must:

- (1) Meet all qualifications specified in Subchapter D of this chapter (relating to Personnel) [Medium];
- (2) Not be counted in child/caregiver ratio or be responsible for supervising or caring for any children in either program [Medium];
- (3) Have current certification in CPR and first aid, including rescue breathing and choking [Medium-High]; and
- (4) Have ten additional hours of annual training in prevention and control of communicable diseases and care of ill children, for a total of 40 hours per year. [Medium]

§746.3121. Must I provide activities for children in the get-well care program?

Subchapter O, Get-Well Care Programs

September 2003

You must:

- (1) Provide quiet activities appropriate to each child's developmental age and needs; outdoor play is not required [Medium];
- (2) Give children access to nap or rest areas without distraction or disturbance from other activities when the child demonstrates a need for rest or desires to rest [Medium]; and
- (3) Follow physician's directions. [Medium-High]

Technical Assistance

According to the American Academy of Pediatrics (AAP), ill children, like well children, need to engage in activities that are suitable to their age and developmental level and which are consistent with their state of health or illness and their accompanying level of interest or responsiveness. A low level of responsiveness in the school-age child may lead to her sleeping and resting for much of the day, requiring a minimum of activities and stimulation. Infants, toddlers, and pre-kindergarten age children tend to be unable to rest for such long periods of time, and therefore may require more attention from the caregiver in terms of providing activities and guidance.

§746.3123. Must my get-well care program follow any special handling procedures?

Subchapter O, Get-Well Care Programs

April 2017

Yes. In addition to the minimum standards noted in this Chapter, including Subchapter R (relating to Health Practices), you must follow these procedures when providing get-well care:

- (1) Sanitize all laundry each day and when soiled [Medium-High];
- (2) Keep all garbage containers covered and take them out of the building daily [Medium-High];
- (3) Sanitize all toys and equipment after every use and before a different child uses them [Medium-High];

- (4) Use disposable, single-use cups, plates, and utensils for food service and drinks [Medium-High]; and
- (5) Provide nutritious meals and snacks according to the children's needs or the directions of a health-care professional. [High]

Subchapter P, Nighttime Care

§746.3201. What is nighttime care?

Subchapter P, Nighttime Care

April 2017

- (a) Nighttime care is care given on a regular or frequent basis to children who are starting or continuing their night sleep, or to children who spend the night or part of the night at the child-care center between the hours of 9:00 p.m. and 6:00 a.m.
- (b) Nighttime care does not include the occasional sleep-over program offered at infrequent intervals. [Medium]

§746.3203 May I provide nighttime care to children at my child-care center?

Subchapter P, Nighttime Care

April 2017

- (a) You may care for children both during the day and night if we approve it. Even then, a child may only be in care for [Medium-High]:
 - (1) No more than 16 hours within a 24-hour period on a daily basis [Medium]; or
 - (2) No more than three consecutive 24-hour periods with a maximum of six 24-hour periods per month, as specified in §745.383 of this title (relating to Can a licensed child day-care operation offer 24-hour care?). [Medium]
- (b) You cannot exceed these limits. [Medium]

Technical Assistance

The only way to exceed these limits would be to obtain a separate residential child-care license and comply with the standards relevant to that license.

§746.3205. Must caregivers stay awake while supervising children during nighttime care?

Subchapter P, Nighttime Care

March 2023

Yes. Caregivers supervising children during nighttime care must be awake and supervising the children at all times, as specified in §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children?) [High].

Technical Assistance
Additional safety precautions must be in place to protect sleeping children and to allow for timely evacuation in case of emergency.

§746.3207. What are the building, furnishings, physical space, and equipment requirements for nighttime care?

Subchapter P, Nighttime Care

September 2003

In addition to all other building, furnishing, physical space, and equipment requirements specified in this chapter:

- (1) All exits must be visible. This may be provided by lighted exit signs or by lighted exits (such as a hall light or lamp, which lights the exit path and door) [High];
- (2) You cannot count a window as one of the child-care center's required fire exits [Medium- High];
- (3) Each child 18 months and older must be provided a cot, bed, or mattress that is waterproof or washable and developmentally appropriate [Medium-High];
- (4) Children under the age of 18 months must be provided with a crib for nighttime sleeping [Medium-High]; and
- (5) Boys and girls six years old or older must have separate sleeping and dressing areas. [Medium]

§746.3209. Must I provide activities for children in nighttime care?

Subchapter P, Nighttime Care

March 2021

- (a) Activities and routines must meet the unique needs of children in nighttime care. These may include quiet activities, such as homework, reading, puzzles, or board games; time for personal care routines and preparation for sleep, such as brushing teeth, washing hands and face, toileting, and changing clothes; and an evening meal, breakfast, and snack as specified in Subchapter Q of this chapter (relating to Nutrition and Food Service). [Medium]
- (b) Screen time activities:
 - (1) Must meet the requirements of §746.2207 of this chapter (relating to May I use a screen time activity with a child?) [Medium]; and
 - (2) May not be used in a cot, bed, or mattress, or one hour before bedtime. [Medium]

Subchapter Q, Nutrition and Food Service

§746.3301. What are the basic requirements for meal and snack times?

Subchapter Q, Nutrition and Food Service

March 2023

- (a) You must serve all children ready for table food regular meals and morning and afternoon snacks as specified in this subchapter. [Medium-High]
- (b) The meals and snacks must follow the meal patterns established by the U.S. Department of Agriculture (USDA) Child and Adult Care Food Program (CACFP) that is administered by the Texas Department of Agriculture. You must follow these patterns regardless of whether you are participating in the program for reimbursement. [Medium-High]
- (c) If you serve breakfast, you do not have to serve a morning snack.
- (d) A child must not go more than three hours without a meal or snack being offered, unless the child is sleeping. [Medium-High]
- (e) You must serve enough food to allow a child to have second servings from the vegetable, fruit, grain, and milk groups if the child requests it. [Medium]
- (f) You must ensure a supply of clean, sanitary drinking water:
 - (1) Is always available to each child at every snack, mealtime, and during and after active play [Medium-High]; and
 - (2) Is served in a safe and sanitary manner [Medium-High].
- (g) You must not serve beverages with added sugars, such as carbonated beverages, fruit punch, or sweetened milk except for a special occasion such as a holiday or birthday celebration, unless otherwise allowed by the CACFP. [Medium]
- (h) You must not use food as a reward. [Medium-High]
- (i) You must not serve a child a food identified on the child's food allergy emergency plan, as specified in §746.3817 of this chapter (relating to What is a food allergy emergency plan?). [Medium-High]

Technical Assistance

- You can find the CACFP meal and snack patterns at <https://www.fns.usda.gov/cacfp/meals-and-snacks>.
- All infant formula and dry infant cereal must be iron-fortified. Look for "infant formula with iron" or a similar statement on the front of the formula. Make sure the formula is

Technical Assistance

not an “FDA exempt infant formula”, which you should use only if there is a statement from a health care professional.

- To help ensure that grains are whole grain-rich, look closely at the ingredient list to make sure a whole grain is listed as the first ingredient or second after water.
- Research indicates serving drinking water to children ensures they are properly hydrated and facilitates reducing the intake of extra calories from nutrient poor foods and drinks which are associated with weight gain and obesity.
- Water should not be a substitute for milk at meals or snacks where milk is a required component. It is appropriate to require children to first drink the milk before serving themselves water.
- Water for infant formula must not come from private well water sources unless it meets the requirements outlined in §746.3431 of this chapter (relating to May I use water from a private water supply instead of a public water supply for my child-care center?).
- Beverages with added sugars should be avoided because they can contribute to child obesity, tooth decay, and poor nutrition.
- The CACFP meal pattern for infants does not allow centers to serve fruit and vegetable juices to infants.
- The center may only use pasteurized full-strength juice to meet the vegetable or fruit requirement at one meal or snack per day.
- Caregivers should encourage children to sample a variety of food of different colors and textures.
- Regarding paragraph (e), because it is unlikely that every child in care will request two servings from every food group, you do not need to prepare a quantity of food that allows two servings for every child in care. You need to have enough food from each of the required food groups so that if a child requests a second serving, there is enough food to fulfill the child’s request. In addition, if you participate in the CACFP program for reimbursement, it is important to be aware of the reimbursement requirements and limitations of the program as it relates to second servings. You can consult your local CACFP administrator for additional information.
- Regarding paragraph (g), the CACFP allows flavored fat-free (skim) or low-fat (1 percent fat or less) milk for children 6 years old and older.

§746.3303. How often must I feed a child in my care?

Subchapter Q, Nutrition and Food Service

March 2021

You must follow the guidelines in Figure 26 TAC §746.3303 when determining how often to feed a child in your care. [Medium-High]

Figure: 26 TAC §746.3303

If a child is in care:	You must offer the child at least this amount of food:
(1) Less than four hours	One snack.
(2) Four to five hours	One meal.
(3) Six to eight hours	One meal and one snack.
(4) More than eight hours	(A) Two meals and one snack; or (B) One meal and two snacks.
(5) During the nighttime	Depending on the time child arrives and leaves: (A) An evening meal and breakfast; (B) A bedtime snack and breakfast; or (C) An evening meal, a bedtime snack, and breakfast.

Technical Assistance

- Well-balanced meals provide the food children need to grow, think, fight infection, and fuel their bodies.
- The American Academy of Pediatrics (AAP) affirms that, since young children eat in small feedings and a child's appetite and interest in food may vary from one meal or snack to the next, children need to be fed often. As a result, snacks often become a significant part of a child's daily food intake.

§746.3309. May parents provide meals and snacks for their child instead of my child-care center providing them?

Subchapter Q, Nutrition and Food Service

March 2021

- (a) Yes. However, your enrollment agreement, or an addendum to the agreement, signed by the parent must include a statement that the parent [Medium]:
- (1) Is choosing to provide the child's meals and snacks from home [Medium]; and
 - (2) Understands the child-care center is not responsible for its nutritional value or for meeting the child's daily food needs. [Medium]
- (b) If the parent provides a meal but not a snack, you are responsible for providing a snack as specified in this subchapter. [Medium]
- (c) You must provide safe and proper storage and service of the individual meals and snacks provided by parents. [Medium]
- (d) Snacks provided by a parent must not be shared with other children unless:
- (1) A parent is providing baked goods for a celebration or party being held at the center [Medium]; and
 - (2) You ensure the shared snacks meet the needs of children who require special diets. [Medium]

Technical Assistance

- When a parent provides the child's meals and snacks from home, it is important to share information with the parents on the nutritional value of foods, sample menus, information on food allergies, and choking hazards, such as:
 - o Sample menu items, introducing new foods, MyPlate materials, understanding nutrition labels, and more can be found at www.fns.usda.gov/tn/myplate; and
 - o Resources on choking foods, food allergies, nutrition for young children, and other information can be found or downloaded from the Licensing Technical Assistance Library.
- A child with food allergies is at risk when eating foods that have not been prepared or served by the child's own parent or a center employee who has knowledge of the food ingredients and the child's needs.

§746.3311. What are the requirements for a child who requires a special diet or does not want to eat foods that the center serves?

Subchapter Q, Nutrition and Food Service

March 2021

- (a) To serve a child a therapeutic or special diet, you must: [Medium-High]
- (1) Have written approval from:
 - (A) A physician or health-care professional with prescriptive authority if the diet relates to a disability that restricts the child's diet [Medium-High]; or
 - (B) A health-care professional or a registered or licensed dietitian if the diet does not relate to a disability that restricts the child's diet [Medium-High];
 - (2) Maintain the written approval in the child's record [Medium-High]; and
 - (3) Give the information to all employees preparing and serving food [Medium-High].
- (b) You must discuss recurring eating problems with the child's parent. [Medium]
- (c) You may encourage but must not force children to eat. [Medium]
- (d) You must not serve nutrient concentrates and supplements such as protein powders, liquid protein, vitamins, minerals, and other nonfood substances without written instructions as required in paragraph (a)(1) of this section. [Medium-High]

Technical Assistance

The center may serve meat alternatives to accommodate vegetarian diets without special authorization from a health-care professional or dietitian. The CACFP offers guidance on how to include meat alternatives as part of the meal pattern.

§746.3313. Can I make substitutions and/or rotate the daily menus?

Subchapter Q, Nutrition and Food Service

April 2017

Yes:

- (1) Substitutions of comparable food value may be made to the daily menu, but you must keep a record of any substitutions made [Medium]; and
- (2) You may rotate menus, but you must keep a record of which menu was used for each date. [Medium]

Technical Assistance

- Planning menus in advance helps to ensure that adequate food will be on hand.
- Posting menus helps to inform parents about food served in the child-care center and enables them to balance it with the food they serve at home.

§746.3317. What general requirements apply to food service and preparation?

Subchapter Q, Nutrition and Food Service

September 2003

All food and drinks must be of safe quality and must be stored, prepared, distributed, and served under sanitary and safe conditions, including but not limited to the following [Medium-High]:

- (1) You must sanitize food service equipment, dishes, and utensils after each use [Medium-High];
- (2) If your child-care center lacks adequate facilities for sanitizing dishes and utensils, you must use only disposable, single-use items [Medium-High];
- (3) You must wash re-useable napkins, bibs, and tablecloths after each use [Medium];
- (4) You must discard single-service napkins, bibs, dishes, and utensils after use [Medium-High];
- (5) Caregivers with open wounds and/or any injury that inhibits hand washing, such as casts, bandages, or braces, must not prepare food [Medium-High];
- (6) You must serve children's food on plates, napkins, or other sanitary holders such as a high chair tray, and you must not place food on a bare table or eating surface, which includes the floor [Medium-High];
- (7) You must not serve foods that present a risk of choking for infants and toddlers [High];
- (8) You must cover all food stored in the refrigerator [Medium-High];
- (9) When meals are prepared at the child-care center, the food preparation area must be separated from the eating, play, and bathroom areas. You must not use the food preparation area as a passageway while food is being prepared [Medium-High]; and
- (10) You must not store poisonous or toxic materials and cleaning supplies with food. [Medium-High]

Technical Assistance

- Research has shown that 90% of fatal choking occurs in children younger than four years of age. Examples of foods that present a risk of choking include hot dogs sliced into rounds, whole grapes, hard candy, string cheese, nuts, seeds, raw peas, dried fruit, pretzels, chips, peanuts, popcorn, marshmallows, spoonful's of peanut butter, and chunks of meat larger than can be swallowed whole.
- Tables are often used for many purposes in child care. Although the tables should be washed before mealtime, they will still bear a heavier load of infecting organisms than plates or sanitized food holders.
- Expiration dates should be monitored to ensure that food and beverage quality is safe for consumption.

§746.3319. Must I serve meals family style?

Subchapter Q, Nutrition and Food Service

March 2021

- (a) You do not have to use family-style meal service, although all meals and snack times must:
- (1) Be unhurried [Medium]; and
 - (2) Allow children to feed themselves according to their developmental level [Medium]; and
 - (3) Include adult supervision of children. [Medium-High]
- (b) If meals and snacks are served family style, caregivers must supervise children to prevent cross-contamination of the food. [Medium]

Technical Assistance

- Mealtime is a great opportunity for children to learn about new food, develop new motor skills, increase their dexterity, and develop language and social skills through conversation. They also learn about counting, colors, shapes, amounts, smells, temperatures, and tastes.
- While feeding themselves, children use fine motor skills and learn self-help skills that build a child's self-esteem.
- The presence of adult caregivers during mealtime:
 - o Helps prevent behaviors that increase risk, such as fighting, children feeding each other, children stuffing food into the mouth, etc.;
 - o Ensures that children do not increase their risk of choking by eating while talking, crying, laughing, or playing; and
 - o Offers an opportunity for caregivers to model appropriate dining etiquette.

§746.3321. Are children allowed to use toothbrushes after meal and snack times?

Subchapter Q, Nutrition and Food Service

September 2003

- (a) Yes, although toothbrushes and tooth powders or pastes provided for each child's individual use must be:
 - (1) Labeled with the child's full name [Medium];
 - (2) Stored out of children's reach when not in use [Medium]; and
 - (3) Stored in a manner that prevents the toothbrushes from touching each other during storage. [Medium]
- (b) Children must have adult supervision while brushing their teeth. [Medium]

Subchapter R, Health Practices

Division 1, Environmental Health

§746.3401. Must my child-care center have an annual sanitation inspection?

Subchapter R, Health Practices

Division 1, Environmental Health

April 2017

- (a) Your child-care center must have a sanitation inspection before we issue your initial permit and at least once every 12 months, unless your child-care center is located in a public school facility operated by the local independent school district. [Medium-High]
- (b) If an inspection is required, a local sanitation official must conduct the inspection. [Medium-High]
- (c) If an inspection is not available from a local sanitation official, you must:
 - (1) Obtain documentation from a local sanitation official or county judge stating that an inspection is not available [Medium-High]; and
 - (2) Maintain this documentation at the center and make it available to us upon request. [Medium-High]

§746.3403. How do I document that a sanitation inspection has been completed?

Subchapter R, Health Practices

Division 1, Environmental Health

December 2010

If required, you must keep a copy of the most recent sanitation report, letter, or checklist at the child-care center during hours of operation to verify the inspection date and findings. The report must include the name and telephone number of the inspector. [Medium-High]

§746.3405. Do I have to make corrections called for in the report?

Subchapter R, Health Practices
Division 1, Environmental Health
April 2017

Yes, you must comply with corrections, restrictions, or conditions specified by the inspector in the sanitation report, letter, or checklist. [Medium-High]

Technical Assistance
The sanitation inspector has greater expertise in how long it should take to make the correction and can balance this with the risk to children.

§746.3407. What steps must I take to ensure a healthy environment for children at my child-care center?

Subchapter R, Health Practices
Division 1, Environmental Health
September 2016

You must clean, repair, and maintain the building, grounds, and equipment to protect the health of the children. [Medium-High] This includes, but is not limited to:

- (1)Setting aside toys and equipment that are placed in children’s mouths, or are otherwise contaminated by body secretion or excrement, to be sanitized before handling by another child [Medium-High];
- (2)Machine washing cloth toys, if used, at least weekly and when contaminated [Medium- High];
- (3)Machine washing all linens at least weekly, and when soiled or before another child uses them [Medium-High];
- (4)Sanitizing sleeping equipment before a different child uses it and when soiled [Medium- High];
- (5)Sanitizing potty-chairs after each child’s use [Medium-High];
- (6)Emptying water play tables and toys used in water tables daily, sanitizing, and ensuring children and caregivers wash their hands before using the water table [Medium-High];
- (7)Maintaining sand boxes and sand tables in a sanitary manner [Medium-High];
- (8)Making all garbage inaccessible to children and managing it to keep the child-carecenter inside and outside, free of insects, rodents, and offensive odors, and disposing of it according to local and state requirements [Medium-High];

- (9) Keeping all floors, ceilings, and walls in good repair and clean. Paints used at the child-care center must be lead-free [Medium-High];
- (10) Keeping all parts of the child-care center used by children well heated, lighted, and ventilated [Medium-High];
- (11) Sanitizing table tops, furniture, and other similar equipment used by children when soiled or contaminated with matter such as food, body secretions, or excrement [Medium-High];
- (12) Clearly marking cleaning supplies and other toxic materials and keeping them separate from food and inaccessible to children [High]; and
- (13) Using, storing, and disposing of hazardous materials as recommended by the manufacturer. [Medium-High]

Technical Assistance

- Research supports preventive steps to help limit the spread of infections, such as regular and proper hand washing, ventilating rooms regularly with lots of fresh air, and establishing cleaning routines. Germs have difficulty growing in clean, dry and well-ventilated environments.
- Contamination of toys and other objects in the room contributes to the transmission of diseases and germs in operations. Providing enough toys to rotate through the cleaning process allows children to stay in active play while maintaining a healthy environment.
- Regarding paragraphs (1) and (11), secretions are bodily fluids that may contain virus particles or bacteria that can be transmitted to others. Examples of secretions include blood, saliva, mucus, and urine
- Regarding paragraph (9):
 - o All painted surfaces should be free from chipping, peeling, and flaking to ensure children are not exposed to hazards;
 - o Construction or renovations of child-occupied facilities built before January 1, 1978 should adhere to the [EPA's Lead Renovation, Repair, and Painting \(RRP\) rule](#). EPA's RRP rule requires that renovations of child-occupied facilities be carried out only by Lead-Safe Certified renovation firms, using certified renovators trained in lead-safe work practices. This is to ensure that these renovations do not inadvertently contaminate your facility and expose children to hazardous lead dust. The Texas Department of State Health Services has more information regarding the [Environmental Lead Program](#); and
 - o Surfaces in and around the operation should be free from mold and mildew.
- Regarding paragraph (10), areas that are well ventilated can help control temperature, reduce dampness, and reduce the risk of allergies, asthma, and headaches.
- You can reduce chemical exposure and asthma triggers inside the child-care center by:
 - o Selecting fragrance and dye free products for cleaning and sanitizing;
 - o Ensuring adequate ventilation when cleaning; and
 - o Using chemicals that may produce fumes or are irritants when children are not present.

Technical Assistance

- The [EPA](#) has additional information about how to protect the indoor air quality in your child-care center

§746.3413. May I use a dishwasher or washing machine to sanitize items at my child-care center?

Subchapter R, Health Practices

Division 1, Environmental Health

September 2003

Items that may be washed in a dishwasher or hot cycle of a washing machine which runs at a temperature of 160 degrees Fahrenheit or higher for five or more minutes do not need additional disinfecting because these machines use water that is hot enough, for long enough, to kill most germs. [Medium]

§746.3415. When must employees wash their hands?

Subchapter R, Health Practices

Division 1, Environmental Health

April 2017

Employees must wash their hands:

- (1) Before eating or handling food or medication [Medium-High];
- (2) Before feeding a child [Medium-High];
- (3) After arriving at the child-care center [Medium-High];
- (4) After diapering a child [Medium-High];
- (5) After assisting a child with toileting [Medium-High];
- (6) After personal toileting [Medium-High];
- (7) After handling or cleaning bodily fluids, such as after wiping noses, mouths, or bottoms, and tending sores [Medium-High];
- (8) After handling or feeding animals [Medium-High];
- (9) After outdoor activities [Medium-High];
- (10) After handling raw food products [Medium-High];
- (11) After eating, drinking, or smoking [Medium-High];
- (12) After using any cleaners or toxic chemicals [Medium-High]; and

(13) After removing gloves. [Medium-High]

Technical Assistance
When hand washing and cleaning routines are modeled, the children learn good health and safety practices.

§746.3417. When must children wash their hands?

Subchapter R, Health Practices

Division 1, Environmental Health

September 2003

Children must wash their hands:

- (1) Before eating [Medium-High];
- (2) Before playing in a water play table [Medium-High];
- (3) After toileting or having a diaper changed [Medium-High];
- (4) After outdoor activities [Medium-High];
- (5) After playing in sand [Medium-High];
- (6) After feeding or touching animals [Medium-High]; and
- (7) Any other time that the caregiver has reason to believe the child has come in contact with substances that could be harmful to the child. [Medium-High]

Technical Assistance
It is a best practice to require all children to wash their hands immediately upon entering a child care center or the child's first room. It is also a best practice to require all parents visiting the center to wash their hands upon entering the center or their child's room. Studies have shown an increase in overall health in a center when programs eliminate the transmission of germs from the home environment to the center by requiring hand hygiene for all entering the center.

§746.3419. How must children and employees wash their hands?

Subchapter R, Health Practices

Division 1, Environmental Health

April 2017

Children 18 months of age and older and employees must wash their hands with soap and running water. [Medium-High]

Technical Assistance

- Research has shown the single most effective practice that prevents the spread of germs in the child-care setting is good hand washing by caregivers and children.
- Rubbing hands together under running water is the most important part of washing away infectious germs. Deficiencies in hand washing, including sharing basins of water, have contributed to many outbreaks of diarrhea among children and caregivers in child - care centers.
- The Centers for Disease Control (CDC) recommends these hand washing steps:
 - Wet your hands with clean running water and apply soap;
 - Rub your hands together to make lather and scrub them well and be sure to scrub the backs of your hands, between your fingers, and under your nails;
 - Continue rubbing your hands for at least 20 seconds (tip: hum the “Happy Birthday” song twice;
 - Rinse your hands well under running water;
 - Dry your hands using a clean towel or air dry; and
 - Use a paper towel to turn off the faucet.

§746.3420. May I use hand sanitizer as a substitute for washing hands?

Subchapter R, Health Practices

Division 1, Environmental Health

April 2017

You may use hand sanitizers as a substitute for washing hands if all of the following conditions are met:

- (1) You only use hand sanitizers on children 24 months and older [Medium-High];
- (2) You do not use hand sanitizers to wash hands that are visibly dirty or greasy or have chemicals on them, unless you are away from the classroom and soap and water are not available for hand washing [Medium-High];
- (3) You follow the labeling instructions for the appropriate amount to be used and for how long the hand sanitizer needs to remain on the skin surface to be effective [High];
- (4) Children have adult supervision when using hand sanitizers [Medium-High]; and
- (5) You store hand sanitizers out of the reach of children when not in use. [Medium-High]

Technical Assistance

- The use of hand sanitizers should be used in moderation and should not be substituted for all hand washing.
- Supervision of children is required to monitor effective use of hand sanitizers and to avoid potential ingestion or inadvertent contact with a child's eyes, mouth, or nose.
- The [FDA](#) has additional information and recommendations regarding safely using hand sanitizer.

§746.3421. How must I wash an infant's hands?

Subchapter R, Health Practices

Division 1, Environmental Health

April 2017

- (a) Until the infant is old enough to be raised to the faucet and reach for the water, you must wash the infant's hands using an individual cloth or disposable towel with soap, followed by a cloth or disposable towel used to rinse with clear water and dry. [Medium-High]
- (b) Use soap and running water as specified in this division when infants are old enough to be raised to the faucet and reach for the water and any other time that the caregiver has reason to believe the infant has come in contact with substances that could be harmful to the infant. [Medium-High]

Technical Assistance

- An infant that does not have muscle control of the infant's head and neck must not be raised to the sink to wash the infant's hands.
- Baby wipes may be used for infants that do not have the muscle control to hold up their head and reach for the water. However, the baby wipes must state they are safe to use for infants and must be discontinued once the infant is able to be raised to the faucet and reach for the water.

§746.3423. Must my child-care center have hot water for hand washing?

Subchapter R, Health Practices

Division 1, Environmental Health

September 2003

No. We do not require you to have hot water for hand washing. However, if hot water is accessible to the children, a thermostat must control it so that the water temperature is no higher than 120 degrees Fahrenheit. [Medium-High]

Technical Assistance

- Although hot water is not required, adults and children are more likely to wash their hands when the running water can be adjusted to a comfortable temperature. Many local health departments require hot water.
- When children have access to a hand-washing sink, it is important to protect them from being scalded. Research indicates tap water burns are a leading cause of non-fatal burns and children under five are the most frequent victims. If a local health department requires water hotter than 120 degrees F for other uses in the child-care center, several measures are available to adjust water temperature at a hand-washing sink.

§746.3425. Must caregivers wear gloves when handling blood or bodily fluids containing blood?

Subchapter R, Health Practices

Division 1, Environmental Health

September 2016

Yes. Caregivers must follow universal precautions outlined by the Centers for Disease Control (CDC) when handling blood, vomit, or other bodily fluids that may contain blood including:

- (1) Using disposable, nonporous gloves [Medium-High];
- (2) Placing gloves contaminated with blood in a tied, sealed, or otherwise closed plastic bag and discarding them immediately [Medium-High];
- (3) Discarding all other gloves immediately after one use [Medium-High]; and
- (4) Washing hands after using and disposing of the gloves. [Medium-High]

Technical Assistance

Although human milk is a body fluid, it is not necessary to wear gloves when feeding or handling human milk.

§746.3427. Must I use a licensed exterminator to treat my child-care center for insects, rodents, and other pests?

Subchapter R, Health Practices
Division 1, Environmental Health
December 2010

You may treat your center for pests only if you are certified as a noncommercial applicator by the Texas Department of Agriculture. Otherwise, you must use a pest control operator licensed by the Department of Agriculture to prevent, control, or eliminate pest infestations at your child-care center, including the use of over-the-counter products designed for controlling insects, rodents, and other pests. [Medium-High]

Technical Assistance
Refer to the Structural Pest Control Act and related regulation for further information on pest control before treating your child-care center.

§746.3429. Are there general precautions I must take when my child-care center is being treated for insects, rodents, and other pests?

Subchapter R, Health Practices
Division 1, Environmental Health
September 2003

- (a)Children must not be allowed in areas where there is pesticide residue that may be harmful to them. Follow written instructions from the licensed pest control operator or label directions in order to determine whether the residue may be harmful to children. [Medium-High]
- (b)Areas where children are present may be treated with chemicals only when permissible under the label directions. [Medium-High]

§746.3431. May I use water from a private water supply instead of a public water supply for my child-care center?

Subchapter R, Health Practices
Division 1, Environmental Health
September 2003

Yes, you may use water from a private water supply, although you must:

- (1) Maintain the water supply in a safe and sanitary manner. [Medium-High]
- (2) Maintain written records indicating the private water supply meets the requirements of the Texas Commission on Environmental Quality, if applicable. [Medium-High]

Technical Assistance
• Caring for Our Children recommends well water be tested annually, or as required by the local health department, for bacterio-logical quality, nitrates, total dissolved solids, pH levels, and other water quality indicators as required by the local health department. Testing for nitrate is especially important if there are infants under six months of age in care. • High levels of nitrates in drinking water can be dangerous and potentially fatal to infants. If you are unsure if your private water supply may contain nitrates, you can contact your state certification officer for a list of laboratories in your area that will perform tests on your water supply for a fee.

§746.3433. May I use a septic system for sewage disposal?

Subchapter R, Health Practices
Division 1, Environmental Health
September 2003

Yes, if the septic system is sanitary and meets the standards of the Texas Commission on Environmental Quality, including any routine inspections required by law. [Medium-High]

Division 2, Diaper Changing

§746.3501. What steps must caregivers follow for diaper changing?

Subchapter R, Health Practices

Division 2, Diaper Changing

April 2017

Caregivers must:

- (1) Promptly change soiled or wet diapers or clothing [Medium-High];
- (2) Thoroughly cleanse a child with individual cloths or disposable towels. You must discard any disposable towels after use and launder any cloths before using them again [Medium-High];
- (3) Ensure that a child is dry before placing a new diaper on the child. If the child must be dried, you must use a clean, individual cloth or disposable towel to dry the child. You must discard the disposable towel after use and launder any cloth before using it again [Medium-High];
- (4) Not apply powders, creams, ointments, or lotions unless you obtain the parent’s written permission. If the parent supplies these items, permission is implicit and you do not need to obtain permission for each use [Medium-High];
- (5) Label powders, creams, ointments, or lotions with the individual child’s name [Medium]; and
- (6) Keep all diaper-changing supplies out of the reach of children. [Medium-High]

Technical Assistance
• A pleasant attitude while changing a child’s diaper, even if a child has had a loose stool, helps to develop a child’s positive sense of self. • Wipes are helpful in removing residue, such as food off a baby’s face or feces from a baby’s bottom during diaper changing. • Parents need to give permission before over-the-counter creams or powders are used. A parent can address whether the child has a skin allergy or if a child’s pediatrician does not recommend use of topical products when diapering. Caregivers may seek written permission to use these products before the need arises.

§746.3503. What equipment must I have for diaper changing?

Subchapter R, Health Practices
Division 2, Diaper Changing
April 2017

- (a) You must have a diaper-changing table or surface that is smooth, non- absorbent, and easy to clean. [Medium-High]
- (b) You must not use areas that children come in close contact with during play or eating, such as dining tables, sofas, or floor play areas, for diaper changing. [Medium-High]
- (c) If the diaper-changing table or surface is above the floor level, then at all times when the child is on the table/surface:
 - (1) There must be a safety mechanism (such as raised sides) that is used [Medium-High];
 - (2) The caregiver's hand must remain on the child [Medium-High]; or
 - (3) The caregiver must be facing the child and within an arm's length of the child. [Medium-High]
- (d) You must have a hand-washing sink in the diaper-changing area. Refer to §746.4403 of this title (relating to Must I have a hand-washing sink in the diaper- changing area?). [Medium-High]

Technical Assistance
• A separate area used for diaper changing and/or changing of soiled underwear reduces contamination of other parts of the child-care environment. • Safety straps on a diaper-changing surface should not be used because the straps are difficult to sanitize and can cross contaminate.

§746.3505. What must I do to prevent the spread of germs when diapering children?

Subchapter R, Health Practices
Division 2, Diaper Changing
September 2016

- (a) You must wash your hands as specified in §746.3419 of this title (relating to How must children and employees wash their hands?). [Medium-High]
- (b) You must wash the infant’s hands or see that the child’s hands are washed after each diaper change as specified in §746.3421 of this title (relating to How must I wash an infant’s hands?). [Medium-High]

- (c) If you use disposable gloves, you must discard them after each diaper change and wash your hands with soap and running water. [Medium-High]
- (d) Caregivers with open wounds and/or any injury that inhibits hand washing, such as casts, bandages, or braces, must not change diapers. [Medium-High]
- (e) You must sanitize the diaper-changing surface after each use. However, if you are changing diapers on a number of children consecutively, you may cover the surface with a non-absorbent paper liner that is disposed of between each diaper change. [Medium-High]
- (f) You must cover containers used for soiled diapers or keep them in a sanitary manner, such as placing soiled diapers in individual sealed bags. [Medium-High]
- (g) You must place soiled clothing in a sealed plastic bag to be sent home with the child. [Medium-High]

Technical Assistance
• Recommendation: Assembling all of the supplies necessary for a diaper change before bringing the child to the changing table ensures the protection of the child. If the hand- washing sink is not adjacent to the diapering area, wipes may be used, as a temporary measure only, to clean the caregiver’s and child’s hands while supervising the child on the changing table. • During diaper changing, a child’s hands often stray into the area of the child’s body covered by the diaper. Germs are contained in human waste and body fluids and are present on the skin and the diaper even if they cannot be seen. Washing an infant’s or child’s hands after each diaper change helps reduce the spread of germs. • Because of the risk of splashing, and gross contamination of hands, sinks, and bathroom surfaces, rinsing diapers or clothes soiled with fecal material in the child-care setting increases the risk that you, other caregivers, and the children would be exposed to germs that cause infection. • Rotating 2 changing mats throughout the day, using one while another is sanitized and dries, provides an alternative to waiting between diaper changes.

Division 3, Illness and Injury

§746.3601. What types of illness would prohibit a child from attending the child-care center?

Subchapter R, Health Practices

Division 3, Illness and Injury

March 2023

Unless you are licensed to provide get-well care, you must not allow an ill child to attend your child-care center if one or more of the following exists:

- (1) The illness prevents the child from participating comfortably in child-care center activities including outdoor play [Medium];
- (2) The illness results in a greater need for care than caregivers can provide without compromising the health, safety, and supervision of the other children in care [Medium- High];
- (3) The child has one of the following (unless a medical evaluation by a health-care professional indicates that you can include the child in the child-care center's activities):
 - (A) An oral temperature above 101 degrees that is accompanied by behavior changes or other signs or symptoms of illness [Medium];
 - (B) A tympanic (ear) temperature above 100 degrees that is accompanied by behavior changes or other signs or symptoms of illness. Tympanic thermometers are not recommended for children under six months old [Medium];
 - (C) An axillary (armpit) temperature above 100 degrees that is accompanied by behavior changes or other signs or symptoms of illness [Medium];
 - (D) An infrared temporal (forehead) temperature above 100 degrees that is accompanied by behavior changes or other signs or symptoms of illness [Medium]; or
 - (E) Symptoms and signs of possible severe illness such as lethargy, abnormal breathing, uncontrolled diarrhea, two or more vomiting episodes in 24 hours, rash with fever, mouth sores with drooling, behavior changes, or other signs that the child may be severely ill [Medium]; or
- (4) A health-care professional has diagnosed the child with a communicable disease, and the child does not have medical documentation to indicate that the child is no longer contagious. [Medium]

Technical Assistance

- Regarding paragraph (3), when taking a child's temperature, the American Academy of Pediatrics (AAP) indicates:
 - o Electronic devices for measuring temperature require periodic calibration and specific training in proper technique;
 - o Using infrared temporal thermometers outside in direct sunlight may affect readings; and
 - o The height of fever does not indicate the severity of the illness.
- Regarding subparagraph (E), as with temperatures a child does not have to be sent home unless there are multiple symptoms and signs of possible severe illness. Some children may also have medical issues that cause one or more symptoms, but the symptoms may not be a sign of possible severe illness (for example, a child that is lactose intolerant or is taking an antibiotic that causes digestive side effects).
- To clarify "uncontrolled diarrhea", this is when:
 - A diapered child's stool:
 - o Is not contained in the diaper; and/or
 - o Exceeds two or more stools above the normal for that child; and
 - A toilet-trained child's diarrhea is causing soiled pants and clothing.

§746.3603. What communicable diseases would exclude a child from attending my child-care center?

Subchapter R, Health Practices

Division 3, Illness and Injury

December 2010

You must follow the communicable disease exclusions required for schools as defined by the Texas Department of State Health Services (DSHS) in 25 TAC §97.7 (relating to Diseases Requiring Exclusion from Schools). You can access this information from DSHS or Licensing staff. **[Medium-High]**

§746.3605. How must caregivers respond when a child becomes ill?

Subchapter R, Health Practices

Division 3, Illness and Injury

April 2021

(a) If a child becomes ill while in your care but does not require immediate treatment by a health-care professional or hospitalization, you must:

- (1) Contact the parent to pick up the child [Medium-High];
- (2) Care for the child apart from other children [Medium-High];
- (3) Give appropriate attention and supervision until the parent picks the child up [Medium-High]; and
- (4) Give extra attention to hand washing and sanitation if the child has diarrhea or vomiting. [Medium-High]

(b) If a child becomes ill while in your care and requires immediate treatment by a health-care professional or hospitalization, you must:

- (1) Contact emergency medical services (or take the child to the nearest emergency room after you have ensured the supervision of other children in the group) [High];
- (2) Give the child first-aid treatment or CPR when needed [High];
- (3) Contact the child's parent [High];
- (4) Contact the physician or other health-care professional identified in the child's record [Low]; and
- (5) Ensure the supervision of other children in the group. [High]

§746.3606. When may a child who was ill return to my child-care center?

Subchapter R, Health Practices

Division 3, Illness and Injury

April 2017

A child who was ill may return to your child-care center when:

- (1) The child is free of symptoms of illness for 24 hours [Medium]; or
- (2) You have obtained a health care professional's statement that the child no longer has an excludable disease or condition. [Medium]

§746.3607. How must caregivers respond when a child is injured and requires immediate treatment by a health-care professional?

Subchapter R, Health Practices

Division 3, Illness and Injury

April 2021

For an injury that requires immediate treatment by a health-care professional, you must:

- (1) Contact emergency medical services (or take the child to the nearest emergency room after you have ensured the supervision of other children in the group) [High];
- (2) Give the child first-aid treatment or CPR when needed [High];
- (3) Contact the child's parent [High];
- (4) Contact the physician or other health-care professional identified in the child's record [Low]; and
- (5) Ensure supervision of other children in the group. [High]

Technical Assistance
If emergency medical services has been contacted it is not necessary to also contact the child's physician unless directed to do so by EMS personnel.

§746.3609. What is a vaccine-preventable disease for the purpose of this division?

Subchapter R, Health Practices

Division 3, Illness and Injury

June 2014

A vaccine-preventable disease is a disease that is included in the most current recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

§746.3611. What must a policy for protecting children from vaccine- preventable diseases include?

Subchapter R, Health Practices

Division 3, Illness and Injury

June 2014

A policy for protecting the children in your care from vaccine-preventable diseases must:

- (1) Specify any vaccines that you have determined an employee must have for vaccine-preventable diseases based on the level of risk the employee presents to children by the employee's routine and direct exposure to children [Medium];
- (2) Require each employee to receive each specified vaccine that the employee is not exempt from having [Medium-High];
- (3) Include procedures for verifying whether an employee has complied with your policy [Medium];
- (4) Include procedures for an employee to be exempt from having a required vaccine because of:
 - (A) Medical conditions identified as contraindications or precautions by the Centers for Disease Control and Prevention (CDC) [Medium]; or
 - (B) Reasons of conscience, including a religious belief [Medium];
- (5) Include procedures that an exempt employee must follow to protect children in your care from exposure to disease, such as the use of protective medical equipment, including gloves and masks, based on the level of risk the employee presents to children by the employee's routine and direct exposure to children [Medium-High];
- (6) Prohibit discrimination or retaliatory action against an exempt employee, except that required use of protective medical equipment, including gloves and masks, may not be considered retaliatory action for purposes of this section [Medium-Low];
- (7) Outline how you will maintain a written or electronic record of each employee's compliance with or exemption from your policy [Medium]; and
- (8) State the disciplinary actions you may take against an employee who fails to comply with your policy. [Medium]

Technical Assistance

You can find more information on the current immunizations recommended for adults on the Center for Disease Control (CDC) website at:

<http://www.cdc.gov/vaccines/schedules/downloads/adult/adult-schedule.pdf>

The specific immunizations needed as an adult vary on such factors including age, overall health as well as persons you are in close contact with. Some immunizations given during adulthood may include:

- Influenza (Flu) – this immunization helps protect against the flu. When determining if a flu shot is required some factors to consider are people at a higher of risk of severe flu and persons with close contact with others who are at a higher risk of flu including persons who care for children younger than 12 months of age.
- HepA (Hepatitis) – this immunization helps protect against the hepatitis A disease. Factors to be considered when determining the need for the HepA immunization can include anyone who will be in close contact with a person or child from a country that has high rates of Hepatitis A.
- Pertussis (Whooping Cough) – two immunizations known as DTap and Tdap help protect against this disease. Whooping cough is very contagious and most severe for babies. Factors to consider when determining the need for this immunization include determining the level of risk associated with certain persons and caregivers who are in close contact with infants. It is important to understand that whooping cough is usually spread by coughing or sneezing and many babies who get whooping cough are infected by persons including caregivers who might not even know they have the disease.

For additional information regarding the development of your policy for protecting children from vaccine-preventable diseases please refer to Appendix III: Vaccine-Preventable Diseases.

Subchapter S, Safety Practices

Division 1, Safety Precautions

§746.3701. What safety precautions must I take to protect children in my child-care center?

Subchapter S, Safety Practices

Division 1, Safety Precautions

September 2024

All areas accessible to a child must be free from hazards including the following [Medium-High]:

- (1) Electrical outlets accessible to a child younger than five years must have childproof covers or safety outlets [Medium-High];
- (2) 220-volt electrical connections within a child's reach must be covered with a screen or guard [Medium-High];
- (3) Air conditioners, electric fans, and heaters must be mounted out of all children's reach or have safeguards that keep any child from being injured [Medium-High];
- (4) Glass in sliding doors must be clearly marked with decals or other materials placed at children's eye level [Medium-High];
- (5) Play materials and equipment must be safe and free from sharp or rough edges and toxic paints [Medium-High];
- (6) Poisonous or potentially harmful plants must be inaccessible to all children [Medium-High];
- (7) Bottle warmers must be inaccessible to all children and used only according to manufacturer instructions [Medium-High];
- (8) All storage chests, boxes, trunks, or similar items with hinged lids must be equipped with a lid support designed to hold the lid open in any position, be equipped with ventilation holes, and must not have a latch that might close and trap a child inside [Medium-High];
- (9) All bodies of water, wading pools, hot tubs, birdbaths, fountains, buckets, and rain barrels must be inaccessible to all children [High]; and
- (10) All televisions must be anchored, so they cannot tip over. A television may be anchored to a rolling cart, if it is anchored in a way that the cart will not tip over. [Medium-High]

Technical Assistance

- Supervision alone cannot prevent all accidents and injuries; therefore, the environment must be free of health and safety hazards to reduce risks to children.
- Additional examples of hazards to children include: sharp scissors, plastic bags, knives, cigarettes, matches, lighters, flammable liquids, drugs/medications, sharp instruments such as an ice pick, power tools, cleaning supplies, chemicals, and other items labeled keep out of the reach of children.
- Buildings, grounds, and equipment in a state of disrepair threaten the health and safety of children.
- Regarding paragraph (9), according to the U.S. Consumer Product Safety Commission (CPSC), any vessel that holds water, including bathtubs, pails, and toilets, presents a drowning risk to young children. An estimated 50 infants and toddlers drown each year in buckets containing liquid used for mopping floors and other cleaning chores. The 5-gallon bucket presents the greatest hazard to young children because of its tall straight sides and its weight with even a small amount of liquid. It is nearly impossible for top-heavy infants and toddlers to free themselves when they fall into a 5-gallon bucket headfirst.
- Regarding paragraph (10), CPSC estimates that more than 43,000 consumers are injured in tip-over incidents. More than 25,000 (59%) of those injuries are to children under the age of 18. Falling furniture accounts for more than half (52%) of the injury reports. Falling televisions have proven to be more deadly, as they are associated with more than half (62%) of reported fatalities.
- To assist in ensuring safety with respect to the outdoor grounds of the operation, the Texas Department of State Health Services provides free safe siting resources to child-care providers. These resources aid in determining whether the child-care center is located in an area where past or current chemical use could pose a threat to children. You can find additional information through [The Safe Siting Initiative](#)

§746.3703. How can I ensure the safety of the children from other persons?

Subchapter S, Safety Practices

Division 1, Safety Precautions

April 2017

- (a) People whose behavior and/or health status poses an immediate threat or danger to the health or safety of the children must not be present when children are in care. [High]
- (b) People must not consume alcohol or controlled substances without a prescription in the child-care center, during transportation, or on field trips. [High]
- (c) People must not be under the influence of or impaired by alcohol or controlled substances in the child-care center, during transportation, or on field trips. [High]

- (d) People must not smoke any e-cigarette, vaporizer, or tobacco product or otherwise use any tobacco product at your child-care center, on the premises, on the playground, in transportation vehicles, or during field trips. [High]

Technical Assistance

- According to the American Academy of Pediatrics (AAP), scientific evidence has linked respiratory health risks to secondhand smoke. Infants and young children exposed to secondhand smoke are at increased risk of developing respiratory infections such as bronchitis and pneumonia, and middle ear infections.
- Separation of smokers and nonsmokers within the same air space does not eliminate or minimize exposure of nonsmokers to secondhand smoke.

§746.3705. Am I required to have a video or audio monitoring system?

Subchapter S, Safety Practices

Division 1, Safety Precautions

December 2010

Although permissible, you are not required to have a video or audio monitoring system.

Technical Assistance

Research has shown that many incidents of abuse of children in child care occur when one caregiver is alone with a child and not easily observed from outside the area. Assuring that all children and caregivers are observable at all times greatly reduces the risk to children. Examples of removing barriers that prevent observation include keeping classroom doors open, placing windows in classroom doors, ensuring the presence of a second caregiver with the group, the use of close circuit cameras, or the use of mirrors.

§746.3707. Are firearms or other weapons allowed at my child-care center?

Subchapter S, Safety Practices

Division 1, Safety Precautions

April 2017

- (a) Peace officers as listed in §2.12 of the Code of Criminal Procedure and security officers commissioned by the Texas Private Security Board who are trained and certified to carry a firearm on duty may have firearms and ammunition on the premises of the child-care center.

- (b) For all other persons, firearms, hunting knives, bows and arrows, and other weapons are prohibited on the premises of the child-care center, unless the child-care center is also your residence. This prohibition does not apply to personal vehicles. [High]
- (c) Firearms, hunting knives, bows and arrows, and other weapons kept on the premises of a child-care center located in your home must remain in a locked cabinet inaccessible to children during all hours of operation. [High]
- (d) Ammunition must be kept in a separate locked cabinet and inaccessible to children during all hours of operation. [High]

§746.3709. May I have toys or other types of equipment that explode or shoot things?

Subchapter S, Safety Practices

Division 1, Safety Precautions

April 2017

A child may not use any type of toy or equipment that explodes or that shoots things, such as caps, BB guns, darts, or fireworks at the child-care center or on field trips. These types of toys and equipment are not allowed at your operation unless your operation is located in your home. If your child-care center is located in your home, you must keep any such toy or equipment in a locked cabinet inaccessible to any child during your hours of operation. [Medium-High]

Division 2, Medication and Medical Assistance

§746.3801. What does “medication” refer to in this division?

Subchapter S, Safety Practices
Division 2, Medication and Medical Assistance
April 2017

In this division, medication means:

- (1) A prescription medication; or
- (2) A non-prescription medication, excluding topical ointments such as diaper ointment, insect repellent, or sunscreen.

Technical Assistance
Supplements such as vitamins and minerals are not considered medications. Requirements regarding supplements are addressed in §746.3311 of this chapter.

§746.3803. What authorization must I obtain before administering a medication to a child in my care?

Subchapter S, Safety Practices
Division 2, Medication and Medical Assistance
March 2012

- (a) Authorization to administer medication to a child in your care must be obtained from the child’s parent:
 - (1) In writing, signed and dated [Medium-High];
 - (2) In an electronic format that is capable of being viewed and saved [Medium-High]; or
 - (3) By telephone to administer a single dose of a medication. [Medium-High]
- (b) Authorization to administer medication expires on the first anniversary of the date the authorization is provided. [Medium-High]
- (c) The child’s parent may not authorize you to administer medication in excess of the medication’s label instructions or the directions of the child’s health- care professional. [Medium]
- (d) Parent authorization is not required if you administer a medication to a child in a medical emergency to prevent the death or serious bodily injury of the child, provided that you administer the medication as prescribed, directed, or intended. [Medium-High]

§746.3805. How must I administer medication to a child in my care?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

March 2012

(a) Medication must be given:

- (1) As stated on the label directions [High]; or
- (2) As amended in writing by the child's health-care professional. [High]

(b) Medication must:

- (1) Be in the original container labeled with the child's full name and the date brought to the operation [Medium-High];
- (2) Be administered only to the child for whom it is intended [High]; and
- (3) Not be administered after its expiration date. [Medium-High]

(c) When you administer medication to a child in your care, you must record the following:

- (1) Full name of the child to whom the medication was given [Medium-High];
- (2) Name of the medication [Medium-High];
- (3) Date, time, and amount of medication given [Medium-High]; and
- (4) Full name of the employee administering the medication. [Medium-High]

(d) You must keep all medication records for at least three months after administering the medication. [Medium]

§746.3807. How must I store medication that I administer to a child?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

September 2003

You must store medications as follows:

- (1) Keep it out of the reach of children or in locked storage [High];
- (2) Store it in a manner that does not contaminate food [Medium-High]; and
- (3) Refrigerate it, if refrigeration is required, and keep it separate from food. [Medium-High]

§746.3809. How long may I keep the medication that I administer to a child?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

September 2003

You must dispose of the medication or return it to the parent when the child withdraws from the child-care center, or when the medication is out-of-date or is no longer required for the child.

[Medium]

§746.3811. Do I have to notify parents if I do not want to administer medications?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

September 2003

Yes. If you choose not to administer medication to children, you must inform the parents of this policy in writing before the child's enrollment. [Medium]

§746.3813. What is specialized medical assistance?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

March 2012

Specialized medical assistance is any medical assistance other than medication. Examples include, but are not limited to, assisting with an apnea monitor, protective helmet, or leg brace.

§746.3815. What are my requirements regarding specialized medical assistance?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

March 2012

- (a) If a child in your care requires specialized medical assistance, then you are required to provide specialized medical assistance as recommended or ordered by a health-care professional.

[High]

- (b) If you are provided with a written copy of the health-care professional's recommendations or orders, you must maintain this written information in the child's record for at least three months after the health-care professional has indicated that the specialized medical assistance is no longer needed. [Medium- High]

§746.3817. What is a food allergy emergency plan?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

September 2016

A food allergy emergency plan is an individualized plan prepared by the child's health care professional that includes:

- (1) a list of each food the child is allergic to;
- (2) possible symptoms if exposed to a food on the list; and
- (3) the steps to take if the child has an allergic reaction.

§746.3819. When must I have a food allergy emergency plan for a child?

Subchapter S, Safety Practices

Division 2, Medication and Medical Assistance

September 2016

You must have a food allergy emergency plan for each child with a known food allergy that has been diagnosed by a health-care professional. The child's health care professional and parent must sign and date the plan. You must keep a copy of the plan in the child's file. [Medium- High]

Division 3, Animals at the Child-Care Center

§746.3901. What steps must I take to have animals at my child-care center and/or on field trips?

Subchapter S, Safety Practices
Division 3, Animals at the Child-Care Center
April 2017

If you choose to have animals on the premises of your child-care center and/or on field trips, you must:

- (1) Notify parents in writing when animals are or will be present [Medium];
- (2) Ensure the animals do not create unsafe or unsanitary conditions [Medium-High]
- (3) Ensure that children do not handle any animal that shows signs of illness, such as lethargy or diarrhea [Medium-High]; and
- (4) Ensure that caregivers and children practice good hygiene and hand washing after handling or coming in to contact with an animal and items used by an animal, such as water bowls, food bowls, and cages. [Medium-High]

Technical Assistance
- Informing parents in writing when animals are or will be present in the child -care center and/or on field trips allows parents to decide whether to enroll their child and whether to prohibit or allow their child to have contact with the animals. - Caregivers should supervise children near and around animals’ water bowls to ensure children don’t play in or drink from the water bowl.

§746.3903. Must I keep documentation of vaccinations on file for the animals?

Subchapter S, Safety Practices
Division 3, Animals at the Child-Care Center
December 2010

- (a) Yes. You must have documentation at your child-care center showing dogs and cats have been vaccinated as required by Texas Health and Safety Code, Chapter 826. [Medium-High]
- (b) You must have a statement of health from a local veterinarian at your child-care center for dogs, cats, ferrets, and other animals other than small rodents, such as guinea pigs, mice, and hamsters. [Medium]

Technical Assistance
A statement of health from a local veterinarian, trained to assess the health of animals and the spread of disease through direct or indirect means, is important to decrease the health risk to children.

§746.3905. Must I prevent children from having contact with certain animals while at my child-care center?

Subchapter S, Safety Practices

Division 3, Animals at the Child-Care Center

December 2010

- (a) Yes. Children must not have contact with chickens, ducks, and reptiles, such as snakes, turtles, lizards, iguanas, and amphibians, such as frogs and toads. [Medium-High]
- (b) You must keep the child-care center and playground free of animals unfamiliar to you. [Medium-High]
- (c) You must not allow children to play with animals unfamiliar to you or other animals that could be dangerous, including exotic animals such as monkeys. [Medium-High]

Technical Assistance
Research has shown there is a high risk of contracting and spreading salmonellosis by either direct contact or indirect contact with chickens, ducks, and reptiles, such as snakes, turtles, lizards, iguanas, and amphibians, such as frogs and toads.

Division 4, First-Aid Kits

§746.4001. Must I have a first-aid kit at my child-care center?

Subchapter S, Safety Practices

Division 4, First-Aid Kits

September 2003

Yes. You must have a complete first-aid kit available in each building at the child-care center, during all field trips, and while transporting children. [Medium-High] Each first-aid kit must be:

- (1) Clearly labeled [Medium];
- (2) Kept in a clean and sanitary condition [Medium-High];
- (3) Easily accessible to all employees [Medium-High];
- (4) Stored in a designated location known to all employees [Medium-High]; and
- (5) Kept out of the reach of children. [Medium-High]

§746.4003. What items must each first-aid kit contain?

Subchapter S, Safety Practices

Division 4, First-Aid Kits

March 2023

- (a) Each first-aid kit must contain the following supplies:
 - (1) A guide to first aid and emergency care [Medium];
 - (2) Adhesive tape [Medium];
 - (3) Antiseptic solution or wipes [Medium];
 - (4) Adhesive bandages [Medium];
 - (5) Scissors [Medium];
 - (6) Sterile gauze pads [Medium];
 - (7) Thermometer, preferably non-glass [Medium];
 - (8) Tweezers [Medium]; and
 - (9) Waterproof, disposable gloves. [Medium]
- (b) The first-aid supplies must not have expired. [Medium]

Technical Assistance

Center staff should exercise care when using glass thermometers containing mercury due to the risks associated with mercury contact in the event the thermometer breaks.

Division 5, Release of Children

§746.4101. To whom may I release a child?

Subchapter S, Safety Practices
Division 5, Release of Children
August 2024

- (a) You must release a child only to a parent or a person designated by the parent. [Medium-High]
- (b) Upon receipt of a valid court order signed by a judge that prohibits a parent from removing the named child or children from the child-care center, the child-care center must:
 - (1) Comply with the court order immediately and until [Medium-High]:
 - (A) Receipt of a subsequent court order that revokes the primary order; or
 - (B) The court order expires as defined in the document; and
 - (2) Maintain a copy of the court order in the child's file. [Medium-High]

Technical Assistance
• If you suspect the person picking up a child is under the influence of drugs or alcohol, you may call local police and request their assistance. • You may not legally prevent the child from being picked up by a parent or person designated by the parent, however, you may address this issue at enrollment by asking parents what they would like for you to do if you do not feel comfortable releasing the child to one of the parents and signing an agreement to this effect. • Law enforcement officers and DFPS Child Protective Services staff have the authority by law to remove a child without a parent’s permission. • Always ask to see identification of persons you do not know.

§746.4103. How do my employees verify the identity of a parent or a person a parent has designated to pick up the child?

Subchapter S, Safety Practices

Division 5, Release of Children

September 2003

- (a) You must develop child-care center policies for the release of children, including a plan to verify the identity of a person authorized to pick up a child but whom the caregiver does not know. If your child-care center transports children, the plan must include verifying the identity of a person to whom you release a child from a child-care-center transportation vehicle. [Medium-High]
- (b) Your policies must include a reasonable means to record the identity of the individual, such as a copy of a valid photo identification, an instant photograph of the individual, or recording the driver's license number and car tag numbers. You must retain this information in the child's records for at least three months. [Medium-High]
- (c) You must instruct all employees in the child-care center's policies for the release of children, including the verification plan. [Medium-High]

Division 6, Product Safety

§746.4131. What are “children’s products?”

Subchapter S, Safety Practices

Division 6, Product Safety

March 2010

Children’s products are products that are designed or intended to be used by a child under 13 years of age or used by a caregiver during the care of a child under 13 years of age. The term does not include:

- (1)An item that is not designed or intended to be used solely or primarily by a child under 13 years of age or for the care of a child under 13 years of age;
- (2)A medication, drug, food, or other item that is intended to be ingested; or
- (3)Clothing.

§746.4133. When is a children’s product considered to be unsafe?

Subchapter S, Safety Practices

Division 6, Product Safety

March 2010

A children’s product is considered to be unsafe if after it has been recalled for any reason by the United States Consumer Product Safety Commission:

- (1)The recall has not been rescinded; and
- (2)The product has not been made safe through being remanufactured or retrofitted.

§746.4135. What are my responsibilities regarding unsafe children’s products in my child-care center?

Subchapter S, Safety Practices

Division 6, Product Safety

March 2010

- (a) You are responsible for reviewing the United States Consumer Product Safety Commission (CPSC) recall list. You may view all current and past recalls through the CPSC’s Internet website at: www.cpsc.gov. You must ensure that there are no unsafe children’s products in your child-care center unless one or more of the following apply:
- (1) The product is an antique or collectible children’s product and is not used by, or accessible to any child [Medium-High]; or
 - (2) The unsafe children’s product is being retrofitted to make it safe and the product is not used by, or accessible to any child. [Medium-High]
- (b) You must certify annually in writing using a form provided by DFPS that you have reviewed each of the recall notices issued by the CPSC and that there are no unsafe products in the center except products specified in subsection (a) of this section. The form must be kept on file and available for review upon request by Licensing staff, parents, and employees during hours of operation. [Medium]
- (c) You must post a notice for parents and employees in a prominent and publicly accessible place that includes information on how to access a listing of unsafe children’s products through the CPSC Internet website or through the DFPS Internet website. [Medium]

Technical Assistance

Regarding subsection (b), the HHSC product certification form may be found at:

[Child Care Regulation Forms | Texas Health and Human Services](https://www.hhs.texas.gov/providers/protective-services-providers/child-care-regulation/child-day-care-provider/child-care-regulation-forms)

(<https://www.hhs.texas.gov/providers/protective-services-providers/child-care-regulation/child-day-care-provider/child-care-regulation-forms>). Select Form 2885, Children’s Product Certification.

When checking the CPSC recall list, it is best practice to check for recalls on any other products you have in your operation.

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

§746.4201. How many square feet of indoor activity space must I have for children?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

September 2003

You must have at least 30 square feet of indoor activity space for each child that you are licensed to serve, unless the child-care center is exempt based on criteria specified in this division. [Medium-High]

Technical Assistance

- Space in which children can freely move for exercise and development of physical skills is necessary to the well-being of children.
- Conflict between children and behavior problems are more likely to occur in crowded environments and children confined to crowded spaces are more likely to spread germs.

§746.4203. Am I required to care for children younger than 18 months separately from older children?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

September 2003

Yes. You must care for children younger than 18 months in rooms and outdoor activity space areas separate from older children unless there are 12 or fewer children in the child -care center, or the child-care center is exempt based on criteria specified in this division. [Medium- High]

Technical Assistance

This standard applies to the indoor and outdoor space you are required to have in order to care for infants. For information regarding when you may combine infants with children 18 months and older for ratio purposes, please see §746.1605 of this chapter.

§746.4205. Must I limit the number of children in each room based on the indoor activity space measurements for that room?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

September 2003

- (a) Yes. For children less than 18 months old, the number of infants must not exceed the activity space. [Medium-High]
- (b) For children 18 months and older, more children than the room measurement will accommodate must not routinely occupy rooms, unless the age of the children, the equipment and furnishings, and the activity being conducted in the room make it possible. [Medium-High]

§746.4207. Do these indoor activity space requirements apply to my child-care center if it was licensed before September 1, 2003?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

April 2017

- (a) Yes, the only exemption is for child-care centers licensed as kindergarten and nursery schools, or schools: grades kindergarten and above, before September 1, 2003. These centers must have at least 20 square feet of indoor activity space for each child the center is licensed to serve. [Low]
- (b) The exemption specified in subsection (a) of this section remains in effect until a permit issued prior to September 1, 2003, is no longer valid. [Low]

§746.4213. How does Licensing determine the indoor activity space?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

April 2017

- (a) We determine indoor activity space by:
 - (1) Measuring all indoor activity space wall to wall on the inside at floor level;
 - (2) Rounding all measurements up to the nearest inch; and

- (3) Excluding single-use areas, which are areas not routinely used for children's activities, such as a bathroom, hallway, storage room, cooking area of a kitchen, swimming pool, and storage building; and
- (4) Excluding floor space occupied by permanent and stationary fixtures, such as bookcases, shelving, and storage/counter space, that is not intended for use by the children.

(b) We use the sum of the measurements to calculate the indoor activity space and to determine the maximum number of children you may care for.

Technical Assistance

- Local ordinances or fire marshals may have additional restrictions or limitations on the numbers of children the indoor activity space will accommodate.
- Indoor activity space used to calculate capacity is designated classroom space. It does not include multi-use spaces such as gyms, art rooms, multi-purpose rooms, etc.

§746.4215. May other programs use my indoor activity space at the same time I have children in care?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

December 2010

- (a) You may share the indoor activity space that is not classroom space with other programs at the same time you have children in care, if you have a written plan specifying how caregivers will supervise and account for children in your care. [Medium-High] The plan must address the following:
 - (1) The ages of the children [Medium];
 - (2) The proximity of restroom facilities and the operation entrances and exits to the children's area [Medium]; and
 - (3) The nature of other activities and persons who may be sharing the space. [Medium]
- (b) You must follow your written plan and submit a copy to Licensing upon request. [Medium-High]

Technical Assistance

- The intent of the written plan regarding shared space is to protect and reduce risk to the children in care at your center.
- Your plan will be unique and should take into consideration your program and other programs using the space. For this reason no two written plans will look the same.
- It is important to review and update your written plan anytime there are changes in what programs use the space, the nature of these programs, or the needs of the children in your care.

§746.4217. May I care for children above or below ground level?

Subchapter T, Physical Facilities

Division 1, Indoor Space Requirements

March 2023

To care for children on any level above or below ground level, you must:

- (1) Obtain written approval from the state or local fire authority [Medium-High]; and
- (2) Follow any restrictions issued by the state or local fire authority, including any age limits placed on the approval [Medium-High].

Division 2, Outdoor Space Requirements

§746.4301. How many square feet of outdoor activity space must I have?

Subchapter T, Physical Facilities
Division 2, Outdoor Space Requirements
September 2003

- (a) You must have 80 square feet of outdoor activity space for each child using the outdoor activity area at one time, unless you are licensed to provide only:
 - (1) An alternate care program [Medium]; or
 - (2) A get-well care program. [Medium]
- (b) You must have enough square footage in the outdoor activity space to equal at least 25% of your licensed indoor capacity. [Medium]
- (c) If you were licensed before September 1, 2003, you do not have to comply with the outdoor activity space requirements specified in subsection (b) of this section unless the permit issued prior to September 1, 2003, is no longer valid. [Low]

Technical Assistance
• The National Association for the Education of Young Children affirms that adequate outdoor space for play is necessary for the development of gross motor (large muscle) skills and to provide children with fresh air and sunshine. • Exposure to sun is needed, but children should be protected from excessive exposure so shaded areas should be provided by means of open space and tree plantings or other cover in outdoor spaces.

§746.4305. Must I fence the outdoor activity space?

Subchapter T, Physical Facilities
Division 2, Outdoor Space Requirements
September 2003

Yes. A fence or wall at least four feet high must enclose the outdoor activity space unless you meet one of the following:

- (1) You are licensed to provide only an after-school care program in a classroom facility owned, operated, and administered by and located in a public school as defined by the Texas Education Agency [Medium-High];
- (2) You are licensed to provide only an alternate care program [Medium-High];

- (3) You are licensed to provide only a get-well care program [Medium-High]; or
- (4) The only children using the outdoor activity space are five years old or older. [Medium-High]

Technical Assistance
Enclosed outdoor areas keep pre-kindergarten age and younger children in a controlled area for their safety and ease of supervision.

§746.4307. How many exits must I have from my fenced outdoor activity space?

Subchapter T, Physical Facilities
Division 2, Outdoor Space Requirements
September 2003

Each fenced yard must have at least two exits. An entrance to the building may count as one exit, but one exit must be away from the building. [Medium]

§746.4309. May I keep the gates leading into my outdoor activity space locked while children are in care?

Subchapter T, Physical Facilities
Division 2, Outdoor Space Requirements
September 2003

Yes, however the locking mechanism must be accessible to all employees at all times. Employees must be able to open the gates immediately in an emergency and satisfactorily demonstrate this ability to Licensing staff upon request. [Medium-High]

§746.4311. Must the outdoor activity space be connected to the child-care center?

Subchapter T, Physical Facilities
Division 2, Outdoor Space Requirements
September 2003

No; however, all outdoor activity areas used by children must be accessible by a safe route. We must approve a plan to use an outdoor activity space that is not connected to the child - care center, such as a near-by park, schoolyard, rooftop, or other alternative. We will consider the following criteria before approving the plan:

- (1) Traffic patterns of vehicles and people in the area [Medium-High];

- (2)Ages of children in the groups [Medium-High];
- (3)Availability of appropriate equipment [Medium-High];
- (4)Usage of the location by other persons when the children would be most likely to use it [Medium-High];
- (5)Neighborhood circumstances, hazards, and risks [Medium-High];
- (6)Accessibility to children and caregivers on foot or the availability of push-carts or other means of transporting infants and toddlers [Medium-High];
- (7)Reasonable accessibility of restroom facilities [Medium-High]; and
- (8)Ability to obtain assistance if needed when injury or illness occurs. [Medium-High]

§746.4313. Must I comply with additional requirements if my plan to use an outdoor activity space not connected to my child-care center is approved by Licensing?

Subchapter T, Physical Facilities

Division 2, Outdoor Space Requirements

September 2003

Yes. If we approve the outdoor activity space, you must:

- (1)Give parents written notification of the location of the outdoor activity area, upon their child’s enrollment [Medium];
- (2)Develop a written plan to supervise children, both during play and while traveling to and from the outdoor activity space [Medium-High]; and
- (3)Meet other conditions specified by Licensing staff, if applicable. [Medium]

§746.4315. May other programs use my outdoor activity space at the same time I have children in care?

Subchapter T, Physical Facilities

Division 2, Outdoor Space Requirements

December 2010

- (a)You may share the outdoor activity space with other programs at the same time you have children in care, if you have a written plan specifying how caregivers will supervise and account for children in your care. [Medium] The plan must address the following:
 - (1)The ages of the children [Medium];

(2)The proximity of restroom facilities and the operation entrances and exits to the children’s area [Medium]; and

(3)The nature of other activities and persons who may be sharing the space. [Medium]

(b)You must follow your written plan and submit a copy to Licensing upon request. [Medium-High]

Technical Assistance
• The intent of the written plan regarding shared space is to protect and reduce risk to the children in care at your center. • Your plan will be unique and should take into consideration your program and other programs using the space. For this reason no two written plans will look the same. • It is important to review and update your written plan anytime there are changes in what programs use the space, the nature of these programs, or the needs of the children in your care.

Division 3, Toilets and Sinks

§746.4401. How many hand-washing sinks must I have in my child-care center for children’s use?

Subchapter T, Physical Facilities

Division 3, Toilets and Sinks

September 2003

- (a) If you are licensed to serve 13 or more children, unless otherwise specified in this division, you must have one sink for every 17 children who are 18 months of age and older. [Medium-High]
- (b) If you are licensed to serve 12 or fewer children, unless otherwise specified in this division, you must have at least one sink available for the children’s use. [Medium-High]
- (c) If you were licensed as a kindergarten and nursery school, or school: grades kindergarten and above, before September 1, 2003, you must have one sink for every 20 children. [Medium]
- (d) If you were licensed as a drop-in child-care center before September 1, 2003, you must have at least one sink for every 25 children. [Medium]
- (e) A kindergarten and nursery school; school: grades kindergarten and above; and drop-in child-care center must comply with the requirements specified in subsection (a) or (b) of this section if the permit issued prior to September 1, 2003, is no longer valid. [Medium]

Technical Assistance
A sufficient number of sinks are necessary to meet the children’s physical needs in a timely and sanitary manner.

§746.4403. Must I have a hand-washing sink in the diaper-changing area?

Subchapter T, Physical Facilities

Division 3, Toilets and Sinks

March 2023

- (a) You must have one hand-washing sink in each diaper-changing area, placed so that the caregiver using it can maintain supervision of the children in the group as specified in §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children ?). [Medium]

- (b) If your child-care center was licensed as a day care center, group day care home or drop- in child-care center before September 1, 2003, and you are unable to comply with subsection (a) of this section, you must submit to us and follow a plan for each diaper- changing area that ensures children are supervised at all times and caregivers and children are washing hands as specified in this chapter. [Medium]
- (c) A child-care center licensed before September 1, 2003, must comply with the requirements specified in subsection (a) of this section if the permit issued prior to September 1, 2003, is no longer valid. [Low]

Technical Assistance
The Centers for Disease Control (CDC) affirms that hand washing is the number one way to control the spread of disease and germs in the child care setting. Caregivers are less likely to wash hands before and after each diaper change if the sink is not accessible in the room. Infants are more likely to be left unsupervised if the caregiver must leave the room to wash her hands.

§746.4405. Where must I locate the hand-washing sinks for children’s use?

Subchapter T, Physical Facilities
Division 3, Toilets and Sinks
September 2003

Hand-washing sinks must be inside the child-care center. Children 18 months of age and older must be able to safely and independently access the sink. Hand-washing sinks must be equipped with soap, running water, and single-use disposable towels or hot-air hand dryers. Refer to Subchapter R of this chapter (relating to Health Practices) for further information on hand washing. [Medium]

§746.4407. How many toilets am I required to have in my child-care center?

Subchapter T, Physical Facilities
Division 3, Toilets and Sinks
September 2003

- (a) If you are licensed to serve 13 or more children, you must have one flush toilet for every 17 children who are 18 months of age and older. [Medium]
- (b) If you are licensed to serve 12 or fewer children, you must have at least one flush toilet available for the children’s use. [Medium]

- (c) If you were licensed as a kindergarten and nursery school, or school: grades kindergarten and above, before September 1, 2003, you must have one toilet for every 20 children. [Medium]
- (d) If you were licensed as a drop-in child-care center before September 1, 2003, you must have at least one toilet for every 25 children. [Low]
- (e) A child-care center licensed before September 1, 2003, must comply with the requirements specified in subsection (a) or (b) of this section if the permit issued prior to September 1, 2003, is no longer valid. [Low]

§746.4409. Where must the toilets be located?

Subchapter T, Physical Facilities

Division 3, Toilets and Sinks

September 2003

Toilets must be inside the child-care center. Children 18 months of age and older must be able to safely and independently access the toilet. Toilets must be equipped for independent use by children and allow supervision by caregivers, as needed. [Medium]

§746.4411. May I count urinals in the ratio of children to toilets?

Subchapter T, Physical Facilities

Division 3, Toilets and Sinks

September 2003

- (a) Urinals may be counted in the ratio of children to toilets, but may not exceed 50% of the total number of toilets. [Medium]
- (b) Restrooms containing urinals must also have flush toilets. [Medium]

§746.4417. May potty-chairs be used?

Subchapter T, Physical Facilities

Division 3, Toilets and Sinks

September 2003

Yes. Potty-chairs may be used, but you may not count them in the ratio of children to toilets. [Medium]

§746.4419. Do I have to use toilets, sinks and fountains that are child sized?

Subchapter T, Physical Facilities
Division 3, Toilets and Sinks
September 2003

No, however if you use a sink, urinal, toilet, or drinking fountain that is too high for children to use safely and independently, you must equip them with anchored steps and/or a broad- based platform with a non-slip surface. [Medium-High]

§746.4421. May the doors to the restroom or toilets have locks on them?

Subchapter T, Physical Facilities
Division 3, Toilets and Sinks
September 2003

Yes. Doors on restrooms and toilets used by children may have locks, although:

- (1) Locks must be out of children’s reach [Medium]; or
- (2) If locks are within children’s reach there must be a way to immediately open the door from the outside in an emergency [Medium-High], and:
 - (A) The unlocking mechanism must be accessible to all employees at all times and must be demonstrated satisfactorily to Licensing staff upon request [Medium-High]; and
 - (B) An adult must be present in the restroom area when children younger than five years are using restrooms with door locks within children’s reach. [Medium-High]

Technical Assistance
Caregivers need immediate access to young children to assist with toileting or to provide supervision, while older children may need privacy.

§746.4423. May other programs use the toilets and hand washing sinks counted in my indoor activity space at the same time I have children in care?

Subchapter T, Physical Facilities

Division 3, Toilets and Sinks

December 2010

- (a) Yes. You may share the toilets and hand washing sinks counted in your indoor activity space with other programs at the same time you have children in care, provided you:
 - (1) Ensure adequate facilities are available to children when needed [Medium]; and
 - (2) Have a written plan specifying how caregivers will supervise and account for children in your care, [Medium] that address:
 - (A) The ages of the children [Medium];
 - (B) The proximity of restroom facilities, and the center's entrances and exits to the children's area [Medium]; and
 - (C) The nature of other activities and persons who may be sharing the toilets and hand washing sinks. [Medium]
- (b) You must follow the plan and submit a copy of Licensing upon request. [Medium-High]

Division 4, Furniture and Equipment

§746.4501. What type of tables and chairs must I use for children?

Subchapter T, Physical Facilities

Division 4, Furniture and Equipment

April 2017

- (a) Tables and chairs that you use for children must be safe, easy to clean, and of a height and size appropriate for each age group in care. [Medium]
- (b) If the manufacturer requires safety straps on a chair, then the safety straps must be fastened whenever a child is using the chair. [Medium]

§746.4503. Must I provide a cot or mat for each child to sleep or rest on?

Subchapter T, Physical Facilities

Division 4, Furniture and Equipment

April 2017

- (a) Yes. You must provide or have the parent provide an individual cot, bed, or mat that is waterproof or washable for each walking child through four years to sleep or rest on. [Medium]
- (b) Cots, beds, or mats must be labeled with the child's name. As an alternative, you may label cots, beds, or mats with a number and have a number/child assignment map available. [Medium]
- (c) Floor mats used for napping must be marked or colored so that the sleeping side can be distinguished from the floor side. [Medium]

Technical Assistance
Marking mats helps to ensure the sleeping side is always used for sleeping and protects the health of children.

§746.4505. Must I have storage for each child’s individual belongings?

Subchapter T, Physical Facilities

Division 4, Furniture and Equipment

September 2003

Yes. You must have individual lockers, cubicles, separate hooks and shelves, or other adequate storage space for each child’s personal belongings. You must clearly label the storage space with the child’s name, a photograph of the child, or other symbol the child recognizes as his own. [Medium]

§746.4507. Must I have a telephone at my child-care center?

Subchapter T, Physical Facilities

Division 4, Furniture and Equipment

April 2017

Yes. You must have:

- (1) A telephone at your child-care center with a listed telephone number [Medium-High];
or
- (2) Access to a telephone located in the same building for use in an emergency and where a person is available to:
 - (A) Receive incoming calls to the child-care center [Medium-High];
 - (B) Immediately transmit messages regarding children in care to child-care center caregivers [Medium-High]; and
 - (C) Make outgoing calls for the child-care center as necessary. [Medium-High]

Technical Assistance
A working telephone is necessary for routine and emergency outgoing and incoming calls. A listed telephone number ensures parents and others may contact the caregiver when necessary.

§746.4509. May I have indoor lofts?

Subchapter T, Physical Facilities

Division 4, Furniture and Equipment

December 2010

(a) Yes, as long as the lofts are designed and used as an extension of the classroom and you comply with the following safety standards [Medium]:

(1) Caregivers must be able to adequately supervise children at all times [Medium-High];

(2) Stairs and steps, regardless of height, must have handrails the children can reach. Rung ladders do not require handrails [Medium-High]; and

(3) Platforms over 20 inches in height must be equipped with protective barriers that prevent children from crawling over or falling through the barrier, or becoming entrapped. [Medium-High]

(b) If lofts are used as indoor active play space or equipment, they must comply with minimum standards specified in Subchapter U of this chapter (relating to Indoor and Outdoor Active Play Space and Equipment). [Medium-High]

Technical Assistance
Lofts used as an extension of the classroom are set up and used by children as an interest area such as a reading corner or listening station.

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 1, Minimum Safety Requirements

§746.4601. What minimum safety requirements must my active play equipment meet?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 1, Minimum Safety Requirements

April 2017

Indoor and outdoor active play equipment used both at and away from the child-care center must be safe for the children as follows:

- (1) The indoor and outdoor active play equipment must be arranged so that caregivers can adequately supervise children at all times [High];
- (2) The design, scale, and location of the equipment must be used according to the manufacturer's instructions [Medium-High];
- (3) Equipment must not have openings or angles that can entrap a child's body or body part that has penetrated the opening [High];
- (4) Equipment must not have protrusions or openings that can entangle something around a child's neck or a child's clothing [High];
- (5) Equipment must be securely anchored according to manufacturer's specifications to prevent collapsing, tipping, sliding, moving, or overturning [High];
- (6) All anchoring devices must be placed below the level of the playing surface to prevent tripping or injury resulting from a fall [High];
- (7) Equipment must not have exposed pinch, crush, or shear points, on or underneath it [High];
- (8) Climbing equipment, swings, or inflatables must not be installed over asphalt or concrete unless the asphalt or concrete is covered with properly installed unitary surfacing materials as specified in §746.4909 of this title (relating to What are unitary surfacing materials?) and §746.4911 of this title (relating to How should unitary surfacing materials be installed?) [High];
- (9) Porches or platforms more than 20 inches in height for pre-kindergarten and younger children, and more than 30 inches in height for school-age children, must be equipped with protective barriers that surround the elevated surface except for entrances and exits and that prevent children from crawling over or through the barrier [High];

- (10) Stairs and steps on climbing equipment, regardless of height, must have handrails the children can reach. Rung ladders do not require handrails [High]; and
- (11) If you are licensed to provide care for children in a public school facility operated by the local independent school district, you must inform parents in writing at the time they enroll their child if the active play space or equipment you plan to use at the public school facility does not meet Licensing standards specified in this subchapter. Otherwise, children must not be allowed to use space or equipment that does not meet Licensing standards. [Medium]

Technical Assistance
• Head entrapment by head-first entry generally occurs when children place their heads through an opening in one orientation, turn their heads to a different orientation, then are unable to withdraw from the opening. • Head entrapment by feet-first entry involves children who generally sit or lie down and slide their feet into an opening that is large enough to permit passage of their bodies – greater than 3 ½” – but is not large enough to permit passage of their heads – less than 9”. • Regarding paragraph (9), the CPSC Handbook for Public Playground Safety has additional information regarding platforms.

§746.4603. Are there some types of equipment that children must not use?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment
Division 1, Minimum Safety Requirements
December 2010

Yes. Children must not use the following types of equipment at or away from the child -care center:

- (1) Heavy swings made of metal or that have metal components, such as animal figure swings [Medium-High];
- (2) Equipment that allows children to fall inside the structure and onto other parts of the structure, such as certain styles of monkey bars or jungle gyms [High];
- (3) Trampolines, except those less than four feet in diameter that are no higher than 12 inches above a properly installed and maintained resilient surface [High];
- (4) Swinging exercise rings and trapeze bars on long chains or free swinging ropes [Medium-High];
- (5) Multiple occupancy swings, such as teeter-totters, gliders, or chair swings (other than tire swings) [Medium-High]; or
- (6) Swinging gates and giant strides. [Medium-High]

§746.4605. Are there additional equipment restrictions for children younger than five years of age?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 1, Minimum Safety Requirements

December 2010

- (a) Yes. Children younger than five years of age must not be allowed to use the following pieces of equipment at or away from the child-care center:
- (1) Free standing arch climbers [Medium-High];
 - (2) Free standing climbing pieces with flexible parts [Medium-High];
 - (3) Fulcrum seesaws [Medium-High];
 - (4) Log rolls [Medium-High];
 - (5) Spiral slides with more than one 360 degree turn [Medium-High]; or
 - (6) Track rides [Medium-High];
- (b) In addition, children younger than four years of age must not be allowed to use the following pieces of equipment at or away from the child-care center:
- (1) Chain or cable walks [Medium-High];
 - (2) Horizontal ladders [Medium-High];
 - (3) Vertical slide poles [Medium-High];
 - (4) Over-head rings [Medium-High]; or
 - (5) Parallel bars. [Medium-High]

Technical Assistance
- Swinging gates have a metal post with vertical bars. Children place their feet between the bars and push the gate as they pivot around the post. Children can create a great deal of speed while playing and can be thrown from this piece of equipment resulting in serious injury. - Children ages 2 through 5 years have not developed the upper body strength, balance, postural control, and coordination required to successfully and safely play on equipment such as free standing arch climbers and track rides.

§746.4607. What is the maximum height of the highest designated play surface allowed?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment
Division 1, Minimum Safety Requirements
December 2010

- (a) The maximum height of the highest designated play surface on active play equipment is based on the age of children who will be using the equipment.
- (b) The maximum height allowed is as follows:
 - (1) 32 inches for equipment designed to be used by children under the age of two years [Medium-High];
 - (2) Five feet for equipment designed to be used by children younger than five [Medium-High]; or
 - (3) Seven feet for equipment designed to be used by children who are at least five years of age. [Medium-High]

Technical Assistance
Equipment heights can double the probability of a child getting injured from a fall. Research has shown equipment over 8 feet has close to three times the injury rate of equipment under that height. Considering the ceiling height in the average home is eight to ten feet, a four-foot child falling from a platform more than eight feet high is the equivalent of a child falling from a second-story window.

§746.4609. What is the maximum height allowed for the highest designated play surface, if my child-care center was licensed before September 1, 2010?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment
Division 1, Minimum Safety Requirements
April 2017

- (a) If you were licensed before September 1, 2010, the maximum height allowed for the highest designated play surface on active play equipment is:
 - (1) Six feet for equipment designed to be used by children younger than five years old [Medium-High]; or
 - (2) Eight feet for equipment designed to be used by children ages five years old and older. [Medium-High]

(b) If your center re-designs the existing playground or adds new playground equipment, then as the changes are made you must meet equipment height requirements specified in §746.4607 of this title (relating to What is the maximum height of the highest designated play surface allowed?). You must submit a written plan for compliance to us upon request. [Medium-High]

Division 2, Swings

§746.4701. What are the safety requirements for swings?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment
Division 2, Swings
September 2003

- (a) All swing seats must be constructed of durable, lightweight, rubber or plastic material. [Medium-High]
- (b) Edges of all swing seats must be smooth or rounded and have no protrusions. [Medium- High]
- (c) Swings must not be attached to a composite play structure. [Medium-High]

Technical Assistance
A composite play structure refers to playscapes, or structures containing equipment for a variety of activities, such as slides, climbing apparatus, bridges, and platforms.

§746.4703. Are there additional safety requirements for bucket swings designed for tots?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment
Division 2, Swings
September 2003

Yes. Bucket swings are intended for use by children under four years of age with an adult present to lift and secure the child into the swing. Therefore, the distance between the protective surfacing and the bottom of a bucket swing must be at least 24 inches. This will minimize the likelihood of unsupervised young children climbing into the swing. [Medium-High]

Technical Assistance
• Full bucket seats are recommended to provide support on all sides of a child and between his legs. • The bucket seat materials should not present a strangulation hazard, such as having a rope or chain used as part of the seat.

§746.4705. Are there additional safety requirements for tire swings or other multi-axis swings?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 2, Swings

September 2003

Yes. Tire swings must:

- (1)Not be made from heavy truck tires, or tires with exposed steel-belted radials [Medium-High];
- (2)Not be suspended from a composite structure or with other swings in the same swing bay [Medium-High];
- (3)Have drainage holes drilled in the underside of the tire and maintained to facilitate water drainage [Medium-High]; and
- (4)Have a minimum clearance between the seating surface of a tire swing and the uprights of the supporting structure of 30 inches or more when the tire is in a position closest to the support structure. [Medium-High]

Division 3, Maintenance

§746.4751. What special maintenance procedures must I follow for my active play space and equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 3, Maintenance

December 2010

- (a) The child-care center director or designee must inspect the active play space and equipment daily before children begin play to ensure there are no hazards present. [Medium-High]
- (b) The child-care center director or designee must conduct at least monthly inspections of the active play space and equipment, utilizing a general maintenance checklist or safety checklist that includes checking the equipment and surfacing material for normal wear and tear, broken or missing parts, debris or foreign objects, drainage problems, or other hazards. [Medium]
- (c) The child-care center director or designee must ensure hazards or defects identified during inspections are removed or repaired promptly, and must arrange for protection of the children or prohibit use of hazardous equipment until the hazards can be removed or repairs can be made. [Medium-High]
- (d) You must keep maintenance inspections and repair records at the child - care center for review during the center’s hours of operation for at least the previous three months. [Medium]

Technical Assistance
Studies have linked inadequate maintenance of equipment to injuries on playgrounds. Consider the age and type of equipment, climate, number of children and how they use the equipment, and number and type of persons outside the child-care center who access the equipment.

Division 4, Use Zones

§746.4801. What does Licensing mean by the term “use zone”?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

The use zone is the surface area under and around a piece of equipment onto which a child falling from or exiting from the equipment would be expected to land. Other than the equipment itself, the use zone must be free of obstacles that a child could run into or fall on top of and be injured.

[Medium-Low]

§746.4803. How do I measure the use zone for stationary equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

December 2010

The use zone for stationary equipment, excluding slides and soft contained play equipment, must extend a minimum of six feet in all directions from the perimeter of the equipment. Use zones for stationary equipment must not overlap other use zones. [Medium]

§746.4805. How do I measure the use zone for slides?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

- (a) The use zone in front of the access and to the sides of a slide must extend a minimum of six feet from the perimeter of the equipment. [Medium-High]
- (b) For slides six feet high or less, the use zone in front of the exit of a slide must extend at least six feet. [Medium-High]
- (c) For slides greater than six feet high, the use zone in front of the exit of a slide must be equal to the distance from the slide platform to the protective surfacing up to a maximum of eight feet. [Medium-High]
- (d) The use zone in front of the slide exit must not overlap the use zone of any other equipment. [Medium-High]

§746.4807. How do I measure the use zone for to-fro swings?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

- (a) The use zone to the front and rear of to-fro swings (single-axis swings) must extend twice the height of the vertical distance from the swing beam to the protective surfacing below.
[Medium-High]
- (b) The use zone to the front and rear of the to-fro swing must not overlap any other use zone.
[Medium-High]
- (c) The use zone around the sides of the to-fro swing structure (frame which supports the swings) must be at least six feet and may overlap the use zone of an adjacent swing structure.
[Medium-High]

§746.4809. How do I measure the use zone for tire swings?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

- (a) The use zone for tire swings or other multi-axis swings must extend in all directions for a distance equal to the distance from the swing beam to the top of the sitting surface of the tire, plus six feet. [Medium-High]
- (b) The use zone specified in subsection (a) of this section must not overlap any other use zone.
[Medium-High]
- (c) The use zone on the sides of the tire swing support structure must be at least six feet and may overlap the use zone on the sides of an adjacent swing support structure. [Medium-High]

§746.4811. How do I measure the use zone for bucket swings?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

- (a) The use zone to the front and rear of the bucket swing for tots must be at least two times the vertical distance from the swing beam to the top of the swing- sitting surface. [Medium-High]
- (b) The use zone specified in subsection (a) of this section must not overlap any other use zone.
[Medium-High]
- (c) The use zone on the sides of the bucket swing structure must be at least six feet and may overlap the use zone on the sides of an adjacent swing support structure. [Medium-High]

§746.4813. How do I measure the use zone for rotating or rocking equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

- (a) The use zone for rotating or rocking equipment on which the child sits must be at least six feet from the perimeter when not in use. [Medium-High]
- (b) The use zone for rotating or rocking equipment or track rides on which the child stands or rides must be at least seven feet from the perimeter of the equipment when not in use. [Medium-High]
- (c) The use zone for rocking and rotating equipment must not overlap any other use zone. [Medium-High]

§746.4815. Do the use zone requirements apply to my child-care center if it was licensed before September 1, 2003?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 4, Use Zones

September 2003

- (a) If you were licensed before September 1, 2003, you must at least maintain the following use zones, unless you meet one of the conditions specified in subsection (b) of this section:
 - (1) Four feet from climbing structures [Medium-Low];
 - (2) Five feet from the bottom of a slide. The other parts of the slide are considered a climbing structure [Medium-Low];
 - (3) Seven feet plus the length of a swing's chain from the point of suspension [Medium-Low]; and
 - (4) Seven feet from a merry-go-round or other revolving devices. [Medium-Low]
- (b) A child-care center licensed before September 1, 2003, must comply with the use zone requirements specified in this division, under the following circumstances:
 - (1) A child-care center re-designs the existing playground or adds new playground equipment. The permit holder must meet use zone requirements specified in this division as the changes are made. You must submit a written plan for compliance to us upon request. [Medium-Low]
 - (2) Your existing permit is no longer valid. [Medium-Low]

Division 5, Surfacing

§746.4901. What type of surfacing must I have under my active play equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

December 2010

- (a) There must be loose-fill surfacing material or unitary surfacing material in the use zones (area around and under equipment where resilient surfacing is needed to prevent serious injury from occurring as result of a fall) for all climbing, rocking, rotating, bouncing, or moving equipment, slides, and swings. [Medium-High]
- (b) The height of the highest designated play surface on the equipment will determine the depth of loose materials or the attenuation rating (thickness) of the unitary materials. [Medium-High]

Technical Assistance
- Studies have shown that falls to the surface are the leading cause of playground injuries in children. Shock-absorbing surfaces can help disperse the momentum of a falling body or head, thus reducing the risk of life threatening injuries. - Construction, use, and any recommended surfacing material for plastic playset equipment should be in accordance with manufacturer specifications. Plastic playset equipment includes play structures composed from hollow or solid plastic intended for play by pre-kindergarten age and younger children.

§746.4905. What are acceptable loose-fill surfacing materials?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

September 2003

Loose-fill surfacing materials include, but are not limited to, loose particles such as sand, pea gravel, shredded wood products, and shredded rubber. [Medium-High]

Technical Assistance

Child Care Regulation does not endorse one type of loose-fill surfacing over another. Child-care centers should consider the developmental and chronological age of the children using the active play equipment when selecting a surfacing material as some materials may be more appropriate for older children and preschoolers than toddlers.

§746.4907. How should outdoor loose-fill surfacing materials be installed?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

April 2017

- (a) You must install and maintain loose-fill surfacing materials to a depth of:
- (1) At least six inches when the height of the highest designated playsurface is five feet or less [Medium-High]; and
 - (2) At least nine inches when the height of highest designated play surface is greater than five feet. [Medium-High]
- (b) You must not install loose-fill surfacing materials over concrete or asphalt. [Medium- High]
- (c) You must mark all equipment support posts to indicate the depth at which the loose-fill surfacing material must be maintained under and around the equipment. [Medium]
- (d) You must ensure the loose-fill materials are maintained at the proper depth at all times. [Medium-High]
- (e) Loose-fill surfacing materials must not be used indoors. [Medium-High]

Technical Assistance

- Loose-fill surfacing materials require special maintenance. Playgrounds should be checked frequently to ensure surfacing has not displaced significantly, especially those areas most subject to displacements such as swings and slide exits. Rake loose-fill material back into place as needed.
- The Consumer Product Safety Commission recommends, when using any loose -fill material with the exception of shredded/recycled rubber, to install at least 9 inches since shallower depths are too easily displaced and compacted.

§746.4909. What are unitary surfacing materials?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

September 2003

Unitary surfacing materials are manufactured materials including rubber tiles, mats, or poured-in-place materials cured to form a unitary shock-absorbing surface.

§746.4911. How should unitary surfacing materials be installed?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

September 2003

- (a) If you use unitary materials, they must be installed and maintained according to manufacturer's specifications. [Medium-High]
- (b) Unitary materials may be installed over concrete or asphalt only if recommended by the manufacturer. [Medium-High]

§746.4913. What documentation must I keep at the child-care center if I use unitary surfacing materials?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

September 2003

If you use unitary surfacing materials, you must have test data from the manufacturer showing the impact rating of the material (the maximum height of equipment that may be installed over the surfacing material), and installation and maintenance requirements. This documentation must be at the child-care center and made available for review by parents and Licensing staff upon request during hours of operation. [Medium]

§746.4915. What additional surfacing requirements must my indoor equipment meet?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 5, Surfacing

December 2010

Floor surfaces under indoor-climbing equipment and platforms over 20 inches in height must have a unitary shock-absorbing surface that will effectively cushion the fall of a child. The surface must be installed in the use zone and maintained according to the manufacturer's directions. See §746.4801 of this title (relating to What does Licensing mean by the term "use zone"?). Carpeting alone, even if it is installed over thick padding, is not an acceptable resilient surface. [\[Medium-High\]](#)

Division 6, Soft Contained Play Equipment

§746.4951. What is soft contained play equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 6, Soft Contained Play Equipment

March 2023

Soft contained play equipment is a play structure that:

- (1) Is fully enclosed with pliable material such as net, plastic, or fabric;
- (2) The user enters to access one or more play components; and
- (3) Allows caregivers to supervise children as specified in §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children?).

§746.4953. Are there additional safety requirements for soft contained play equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 6, Soft Contained Play Equipment

December 2010

Yes, Soft contained play equipment (SCPE) must also:

- (1) Not have to-fro, bucket, or tire swings attached inside or outside of the structure [Medium-High];
- (2) Have no more than 24 inch difference in height between two connecting platforms [Medium-High];
- (3) Have use zones as outlined in §746.4955 of this title (relating to How do I measure the use zone for soft contained play equipment?) that are free of obstacles and covered with unitary surfacing material [Medium-High];
- (4) Be installed, maintained and cleaned according to manufacturer's instructions [Medium-High]; and
- (5) Include closer supervision when in use by requiring at least one caregiver to be positioned at each level of the play area. [Medium-High]

§746.4955. How do I measure the use zone for soft contained play equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 6, Soft Contained Play Equipment

December 2010

- (a) The use zone for entrances and exits to the soft contained play equipment, excluding slide exits, is a minimum of five feet from all portions of the entrance and exit which are outside of the contained area of the equipment. [Medium-High]
- (b) The use zone in front of slide exits must extend a minimum of five feet if the slide run-out is 36 inches or greater. If the slide run-out is less than 36 inches, the use zone at the end of the slide must be six feet. In addition, this use zone may not overlap with any other use zones. [Medium-High]
- (c) Entrances and exits that terminate inside of the soft contained play equipment are exempt from use zone requirements. [Medium-High]
- (d) External portions of the soft contained play equipment that contain no designated play surfaces and serve only to enclose the equipment are exempt from use zone requirements. [Medium-High]
- (e) The critical height of resilient surfacing material must be equal to the highest designated play surface outside of the contained area of the equipment or one foot, whichever is greater. [Medium-High]

Division 7, Inflatables

§746.4971. May I use inflatable active play equipment?

Subchapter U, Indoor and Outdoor Active Play Space and Equipment

Division 7, Inflatables

September 2024

You may use inflatable equipment both at and away from your child-care center if you follow these guidelines:

- (1) You use enclosed inflatables (such as bounce houses or moon bounces) according to the manufacturer's instructions [Medium-High];
- (2) You use open inflatables (such as obstacle courses, slides, or games) according to the manufacturer's label and instructions for the user [Medium-High]; and
- (3) Inflatables that include water activity also comply with all applicable requirements in Subchapter V of this chapter (relating to Swimming Pools, Wading Pools, and Sprinkler Play). [Medium-High]

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

§746.5001. What safety precautions must I follow when a child in my care uses a swimming pool?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

September 2024

In addition to complying with the child/caregiver ratios specified in §746.2105 of this chapter (relating to What are the child/caregiver ratios for swimming activities?) and other safety requirements specified in §746.2109 of this chapter (relating to Must a certified lifeguard be on duty when children are swimming in more than 18 inches of water) and §746.2113 of this chapter (relating to Must persons who are counted in the child/caregiver ratio during swimming know how to swim?), you must comply with the following safety precautions when any child uses a swimming pool both at and away from your child-care center:

- (1) A minimum of two life-saving devices must be available [High];
- (2) One additional life-saving device must be available for each 2,000 square feet of water surface [High];
- (3) Drain grates must be in place, in good repair, and must not be able to be removed without using tools [High];
- (4) Pool chemicals and pumps must be inaccessible to any child [High];
- (5) Machinery rooms must be locked when any child is present [High];
- (6) Employees must be able to clearly see all parts of the swimming area [High];
- (7) The bottom of the pool must be visible at all times [High];
- (8) An adult must be present who is able to immediately turn off the pump and filtering system when any child is in a pool [High]; and
- (9) All indoor/outdoor areas must be free of furniture and equipment that any child could use to scale a fence or barrier or release a lock. [High]

Technical Assistance

- Regarding paragraph (1), some examples of life-saving devices include U.S. Coast Guard approved life jackets, ring buoys, rescue tubes, and reaching poles or shepherd's hooks.
- Regarding paragraphs (6) and (7), all caregivers must provide constant visual supervision of children and remain undistracted and within arm's reach while watching children in and around water. Adults can wear physical reminders that they are responsible for supervising children who are swimming and while there is access to water.
- Regarding paragraph (8), the power of suction of a pool drain often requires that the pump be turned off before a child can be removed; therefore, immediate unobstructed access is necessary.
- Regarding paragraph (9), block direct access to swimming pools and remove any materials and furniture that can be moved by children and used to climb over barriers or open gates.

§746.5003. How should the swimming pool be built and maintained?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

December 2010

Swimming pools used both at and away from the child-care center must be built and maintained according to the standards of the Texas Department of State Health Services for public pools and any other applicable state or local regulations. [High]

§746.5005. Do the same safety precautions apply for above-ground pools?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

September 2003

Yes. Above-ground pools must meet all pool safety requirements specified in this subchapter and must have a barrier that prevents a child's access to the pool. [High]

§746.5007. Must I have a fence around a swimming pool at my child-care center?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

September 2003

- (a) Yes. You must enclose a swimming pool at your child-care center with a six-foot fence or wall that prevents children's access to the pool. [High]
- (b) Fence gates leading to the pool area must have self-closing and self-latching hardware out of children's reach. Gates must be locked when the pool is not in use. [High]
- (c) Doors from the child-care center leading to the pool area must have a lock out of children's reach that can only be opened by an adult. [High]
- (d) These doors and gates must not be designated as fire and emergency evacuation exits. [High]

Technical Assistance

- The installation of multiple barriers around swimming pools helps to restrict a child's unsupervised access to water.
- The American Academy of Pediatrics recognizes an effective barrier as one that prevents a child from getting over, under, or through it and keeps the children from gaining access to the pool or body of water.
- Colin's Hope, a water safety advocacy group, recommends that pools have 4-sided isolation fencing at least six feet in height, with self-closing and self-latching gates. Isolation fencing completely surrounds a pool, isolating it from the yard and adjacent properties. Isolation fencing does not use the center as a barrier.
- Remember, nothing substitutes for constant visual supervision by an adult. However, securing every pool with a proper barrier offers an additional layer of protection

§746.5009. What additional safety precautions must I take for a child in care who is unable to swim competently or who is at risk of injury or death when swimming?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

September 2024

- (a) Before a child who is unable to swim competently or who is at risk of injury or death when swimming enters a swimming pool, you must [High]:

(1) Provide the child with a Type I, II, or III United States Coast Guard approved personal flotation device (PFD) [High];

(2) Ensure the child is wearing the PFD [High]; and

(3) Ensure the PFD is properly fitted and fastened for the child. [High]

(b) A PFD must be in good repair to meet the requirements in subsection (a) of this section. [Medium-High]

Technical Assistance

- Pre-identify all children who cannot swim or who are at risk of injury or death when swimming, as determined by the children's parents on their admission form.
- Upon arrival to the swimming facility, ensure that children who cannot swim or who are at risk of injury or death when swimming are wearing U.S. Coast Guard approved Type I, II, or III life jackets. Ensuring that pre-identified non-swimmers wear the appropriate and properly fitted U.S. Coast Guard approved life jackets before entering the swimming pool area adds an additional layer of protection for non-swimmers.
- Life jackets do not make a child drown proof and are not a substitute for supervision.

§746.5011. Must I provide a personal flotation device (PFD) to a child in care who is unable to swim competently or who is at risk of injury or death when swimming when the child is participating in swim instruction or a competition?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

September 2024

You are not required to provide the child with a PFD or ensure the child is wearing the device if:

(1) The child is actively participating in swim instruction or a competition; and

(2) You ensure that the child is supervised in accordance with §746.1205 of this chapter (relating to What responsibilities does a caregiver have when supervising a child or children?) during the instruction or competition. [High]

§746.5013. What are the safety requirements for wading pools?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

September 2024

(a) Wading pools at your child-care center must be:

- (1) Stored out of children's reach when not in use [Medium-High];
- (2) Drained at least daily and sanitized [High]; and
- (3) Stored so they do not hold water. [High]

(b) You must comply with the safety precautions specified in §746.5001 of this subchapter (relating to What safety precautions must I follow when a child in my care uses a swimming pool?) when using wading pools away from your child-care center. [Medium-High]

Technical Assistance
- Wading pools with no filtering system are meant to be drained, sanitized, and stored out of children's reach after each use. - Water play is a great way to introduce water safety habits to young children. Talk about the dangers of water and introduce rules like "Wait for a grown-up" and "Wear a life jacket". Learn more about water safety at https://www.colinshope.org.

§746.5015. Are there specific safety requirements for sprinkler play?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play

April 2017

- (a) You must ensure that no child uses sprinkler equipment on or near a hard, slippery surface, such as a concrete driveway, sidewalk, or patio. [High]
- (b) You must not leave a child alone with the sprinkler equipment. [High]
- (c) You must store sprinkler equipment and water hoses out of the reach of children when not in use. [Medium-High]
- (d) You must maintain your splash pad/sprinkler play area according to manufacturer's instructions. [Medium-High]

§746.5017. Can a child in my care swim in a body of water other than a swimming pool?

Subchapter V, Swimming Pools, Wading Pools, and Sprinkler Play
September 2024

You must not allow a child to swim in a body of water other than a swimming pool that complies with the rules specified in this subchapter. [High]

Technical Assistance
• Check all premises for unexpected sources of water, including large drainage areas, unfenced ponds, retention ponds, etc. Know what is around a facility, within site and within walking distance. • Monitor all exit and entry points to bodies of water. Block direct access to any body of water and remove any materials and furniture that can be moved by children and used to climb over barriers or open gates

Subchapter W, Fire Safety and Emergency Practices

Division 1, Fire Inspection

§746.5101. Must my child-care center have an annual fire inspection?

Subchapter W, Fire Safety and Emergency Practices

Division 1, Fire Inspection

December 2010

- (a) Your child-care center must have a fire inspection before we issue your initial permit and at least once every 12 months, unless your child-care center is located in a public school facility operated by the local independent school district. [High]
- (b) If an inspection is required, a state or local fire marshal must conduct the inspection. If an inspection is not available, you must provide documentation of this from a state or local fire marshal or county judge. [Medium-High]

§746.5103. How do I document that a fire inspection has been completed?

Subchapter W, Fire Safety and Emergency Practices

Division 1, Fire Inspection

December 2010

If required, you must keep a copy of the most recent fire-inspection report, letter, or checklist at the child-care center during hours of operation to verify the inspection date and findings. The report must include the name and telephone number of the inspector. [Medium-High]

§746.5105. Must I make all corrections specified in the fire-inspection report?

Subchapter W, Fire Safety and Emergency Practices

Division 1, Fire Inspection

April 2017

Yes, you must comply with all corrections, restrictions, or conditions specified by the inspector in the fire inspection report, letter, or checklist. [High]

Division 2, Emergency Preparedness

§746.5201. What is an emergency preparedness plan?

Subchapter W, Fire Safety and Emergency Practices

Division 2, Emergency Preparedness

September 2016

An emergency preparedness plan is designed to ensure the safety of children during an emergency by addressing staff responsibility and facility readiness with respect to emergency evacuation, relocation, and sheltering/lock-down. The plan addresses the types of responses to emergencies most likely to occur in your area, including:

- (1)An evacuation of the children and caregivers to a designated safe area in an emergency such as a fire or gas leak;
- (2)A relocation of the children and caregivers to a designated, alternate shelter in an emergency such as a flood, a hurricane, medical emergency, or communicable disease outbreak; and
- (3)The sheltering and lock-down of children and caregivers within the center to temporarily protect them from situations such as a tornado, volatile person on the premises, or an endangering person in the area.

Technical Assistance
You may want to check with your local fire and health departments when creating your emergency preparedness plan since they may have resources and guidelines that you may include in your plan.

§746.5202. What must my emergency preparedness plan include?

Subchapter W, Fire Safety and Emergency Practices

Division 2, Emergency Preparedness

September 2016

Your emergency preparedness plan must include written procedures for:

- (1)Evacuation, relocation, and sheltering/lock-down of children including:
 - (A)The first responsibility of staff in an emergency evacuation or relocation is to move the children to a designated safe area or alternate shelter known to all employees, caregivers, parents, and volunteers [Medium-High];

- (B)How children will be evacuated or relocated to the designated safe area or alternate shelter, including specific procedures for evacuating and relocating children who are under 24 months of age, who have limited mobility, or who otherwise may need assistance in an emergency, such as children who have mental, visual, or hearing impairments [Medium-High];
- (C)The staff responsibility in a sheltering/lock-down emergency for the orderly movement of children to a designated location within the center where children should gather [Medium-High];
- (D) An emergency evacuation and relocation diagram as outlined in §746.5207 of this title (relating to Must I have an emergency evacuation and relocation diagram?) [Medium-High];
- (E) Name and address of the alternate shelter away from the center you will use as needed [Medium-High]; and
- (F) How children in attendance at the time of the emergency will be accounted for at the designated safe area or alternate shelter. [Medium-High]

(2)Communication, including:

- (A)The emergency telephone number that is on file with us [Medium-High]; and
- (B)How you will communicate with local authorities (such as fire, law enforcement, emergency medical services, health department), parents and us [Medium-High]; and

(3)How your staff will evacuate and relocate with the essential documentation including:

- (A)Parent and emergency contact telephone numbers for each child in care [Medium-High];
- (B)Authorization for emergency care for each child in care [Medium-High]; and
- (C)The child tracking system information for children in care [Medium-High];

(4)How your staff will continue to care for the children until each child has been released [Medium-High]; and

(5)How you will reunify the children with their parents as the evacuation, relocation, or sheltering/lock-down is lifted. [Medium-High]

Technical Assistance
- Keep in mind that children may become anxious or excited during an emergency so it is important that caregivers remain calm. - According to the American Academy of Pediatrics (AAP), a thorough and safe evacuation plan includes a designated location that allows the children to get at least 50 feet away from the building, does not require the children or caregivers to cross the street, and provides shelter if the children cannot return to the building.

§746.5204. Who must coordinate the implementation of an emergency preparedness plan?

Subchapter W, Fire Safety and Emergency Practices
Division 2, Emergency Preparedness
December 2010

- (a) The director is responsible for implementing the emergency preparedness plan. [Medium]
- (b) The director may also designate additional employees to be in charge during an emergency evacuation and relocation that occurs when the director is not at the operation. [Medium]

§746.5205. Must I practice my emergency preparedness plan?

Subchapter W, Fire Safety and Emergency Practices
Division 2, Emergency Preparedness
September 2016

Yes, the following components of your center’s emergency preparedness plan must be practiced as specified below:

- (1) You must practice a fire drill every month. The children must be able to safely exit the building within three minutes [Medium-High];
- (2) You must practice a sheltering drill for severe weather at least four times in a calendar year [Medium-High];
- (3) You must practice a lock-down drill for a volatile or endangering person on the premises or in the area at least four times in a calendar year [Medium-High]; and
- (4) You must document these drills, including the date of the drill, time of the drill, and length of time for the evacuation, sheltering, or lock-down to take place. [Medium]

Technical Assistance
We recommend that you practice your drills at different times of the day to include various children and employees engaged in different activities.

§746.5207. Must I have an emergency evacuation and relocation diagram?

Subchapter W, Fire Safety and Emergency Practices

Division 2, Emergency Preparedness

September 2016

- (a) Yes. Your emergency evacuation and relocation diagram must be on file at the child-care center and must show the following [Medium-High]:
- (1) A floor plan of your child-care center [Medium-High];
 - (2) Two exit paths from each room, unless a room opens directly to the outdoors at ground level [Medium-High];
 - (3) The designated location outside of the child-care center where all caregivers and children meet to ensure everyone has exited the child-care center safely [Medium-High]; and
 - (4) The designated location inside the child-care center where all caregivers and children take shelter from threatening weather. [Medium-High]
- (b) You must post an emergency evacuation and relocation diagram in each room the children use. You must post the diagram near the entrance and/or exit of the room and where children and employees may easily view the diagram. [Medium-High]

§746.5209. How many exits must my child-care center have?

Subchapter W, Fire Safety and Emergency Practices

Division 2, Emergency Preparedness

September 2003

- (a) The child-care center must have at least two exits to the outside that are located in distant parts of each building. [Medium-High]
- (b) If any doors open into a fenced yard, the children must be able to open the doors easily from the inside. [High]
- (c) You may not count doors that are blocked or locked as exits. [High]
- (d) An exit through a kitchen or other hazardous area may not be one of the required exits unless the state or local fire marshal specifically approves in writing. [Medium-High]
- (e) Doors and gates leading into a pool area may not be counted as an exit. [High]

(f) A window may be used as a designated fire exit only if all children and caregivers are physically able to exit through the window to the ground outside safely and quickly. [Medium-High]

§746.5211. Must I have emergency lighting in case of an emergency evacuation?

Subchapter W, Fire Safety and Emergency Practices

Division 2, Emergency Preparedness

September 2003

Yes. You must have a source of emergency lighting that is approved by the state or local fire marshal, or battery-powered lighting, available in each classroom in case of electrical failure. [Medium-High]

Division 3, Fire Extinguishing and Smoke Detection Systems

§746.5301. Must my child-care center have a fire-extinguishing system?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection

Systems December 2010

Your child-care center must have a fire-extinguishing system. This may be a sprinkler system and/or fire extinguishers. If your center is located in a public school facility operated by the local independent school district, the fire-extinguishing system utilized by the school complies with this standard. [High]

§746.5303. Who must approve my fire-extinguishing system?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection

Systems September 2003

The state or local fire marshal must approve a sprinkler system and/or fire extinguishers in your child-care center. If an inspection is not available, you must have at least one fire extinguisher rated 3A-40BC in the child-care center. [Medium-High]

§746.5305. Where must I mount fire extinguishers?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection

Systems April 2017

You must mount all fire extinguishers on the wall by a hanger or bracket. The top of all extinguishers must be no higher than five feet above the floor and the bottom at least four inches above the floor or any other surface. If the state or local fire marshal or the manufacturer's instructions has different mounting instructions, you must follow those instructions. All fire extinguishers must be readily available for immediate use by employees and caregivers. [Medium-High]

Technical Assistance

- The first priority for caregivers is to remove the children from the center safely and quickly. Fighting a fire is secondary to the safe exit of the children and caregivers.
- Mounting the extinguisher ensures easy access for swift use and prevents accidental discharge that may result from tipping or being knocked over.

§746.5307. How often must I inspect and service the fire extinguisher(s)?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection Systems

September 2003

- (a) The director or designee must inspect them monthly. The date of the inspection and the name of the employee must be recorded. [Medium-High]
- (b) Fire extinguishers must be serviced as required by manufacturer's instructions, or as required by the state or local fire marshal. [Medium-High]

§746.5309. How often must I inspect a sprinkler system?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection Systems

September 2003

The system monitoring company or the state or local fire marshal must test sprinkler systems at least annually. You must keep the most recent inspection report at the child-care center for review during hours of operation. The documentation must indicate the date of the inspection and the inspector's name and telephone number. [Medium-High]

§746.5311. Must my child-care center have a smoke-detection system?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection Systems

December 2010

- (a) Your child-care center must have a working smoke-detection system. This may be an electronic alarm and smoke-detection system, or individual electric or battery-operated smoke detectors located in each room used by children, or both. [High]
- (b) If your center is located in a public school operated by the local independent school district, the smoke detection system utilized by the school complies with this standard.

§746.5313. Who must approve my child-care center's smoke-detection system?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection Systems

September 2003

The state or local fire marshal must approve electronic alarm and smoke-detection systems. If an inspection is not available, you must have at least one working smoke detector in each room used by children. [High]

§746.5315. How often must I have an electronic smoke alarm system tested?

Subchapter W, Fire Safety and Emergency Practices

Division 3, Fire Extinguishing and Smoke Detection Systems

September 2003

The monitoring company or the state or local fire marshal must test an electronic smoke alarm system at least annually. You must keep documentation of the inspection at the child - care center for review during hours of operation. The documentation must indicate the date of the inspection and the inspector's name and telephone number. [Medium-High]

§746.5317. How must smoke detectors be installed at my child-care center?

Subchapter W, Fire Safety and Emergency Practices
Division 3, Fire Extinguishing and Smoke Detection Systems
September 2003

If you use smoke detectors, they must be installed and maintained according to the manufacturer’s instructions or in compliance with the state or local fire marshal’s instructions. [High]

§746.5319. How often must the smoke detectors at my child-care center be tested?

Subchapter W, Fire Safety and Emergency Practices
Division 3, Fire Extinguishing and Smoke Detection Systems
September 2003

The director or designee must test all smoke detectors monthly. The date of the test and the name of the employee who does the testing must be documented and kept at the center for review during hours of operation. [High]

Technical Assistance
A monthly test of smoke detectors is easily handled by center employees. Monthly testing ensures detectors are working properly and helps ensure the safety of the children and employees in case of fire.

Division 4, Gas and Propane Tanks

§746.5401. Must my child-care center be inspected for gas leaks?

Subchapter W, Fire Safety and Emergency Practices

Division 4, Gas and Propane Tanks

December 2010

If your child-care center uses natural or liquid propane (LP) gas, your child-care center must be inspected for gas leaks before we issue your initial permit, and once every two years after your permit is issued, unless your child-care center is located in a public school building operated by the local independent school district. [Medium-High]

§746.5403. Who must conduct the inspection for gas leaks?

Subchapter W, Fire Safety and Emergency Practices

Division 4, Gas and Propane Tanks

July 2005

- (a) If your child-care center uses natural gas, you must have your child-care center inspected for gas leaks by a licensed plumber or a gas company official. [Medium - High]
- (b) If your child-care center uses liquid propane (LP)-gas, you must have your LP-gas system inspected for proper installation and leaks by a licensed LP-gas servicing company or licensed plumber who is also licensed with the LP-gas section of the Texas Railroad Commission. [Medium-High]

§746.5405. How do I document that a gas leak inspection has been completed?

Subchapter W, Fire Safety and Emergency Practices

Division 4, Gas and Propane Tanks

September 2003

A written gas inspection report must show your gas system is free of leaks and must indicate the date of the inspection, as well as the name and telephone number of the inspector. You must keep the most recent inspection report on file at your child-care center. [Medium-High]

§746.5407. Must I make all corrections specified in the gas inspection report?

Subchapter W, Fire Safety and Emergency Practices

Division 4, Gas and Propane Tanks

September 2003

Yes. You must comply with all corrections, conditions, or restrictions specified in the gas inspection report within the timeframes specified by the inspector. **[High]**

Division 5, Heating Devices

§746.5501. What steps must I take to ensure that heating devices do not present hazards to children?

Subchapter W, Fire Safety and Emergency Practices

Division 5, Heating Devices

September 2003

- (a) Gas appliances must have metal tubing and connections, be in good repair, and free from leaks. [High]
- (b) Open flame heaters (heaters where the flame can be easily touched or accessed) are prohibited. [High]
- (c) Space heaters must be enclosed and have the seal of approval of a United States test laboratory or be approved by the state or local fire marshal. [High]
- (d) You must safeguard floor and wall furnace grates, steam and hot water pipes, and electric space heaters so that children do not have access to them. [High]
- (e) Liquid fuel heaters are prohibited. [High]
- (f) Gas fuel heaters, fireplaces, and wood-burning stoves must be properly vented to the outside. [High]
- (g) If you use a fireplace, wood-burning stove, or space heater, you must install a screen or guard with sufficient strength to prevent children from falling into the fire or against the stove or heater. [High]

Technical Assistance
Proper venting of heating equipment can prevent accumulation of carbon monoxide gas inside a building. Carbon monoxide is a colorless, odorless, poisonous gas formed when heating units that burn fuel with a flame do not have a sufficient source of combustion air. Carbon-containing fuel that is not burned completely can cause asphyxiation.

Division 6, Carbon Monoxide Detection Systems

§746.5531. Must my child-care center have a carbon monoxide detection system?

Subchapter W, Fire Safety and Emergency Practices

Division 6, Carbon Monoxide Detection Systems

January 2004

Your child-care center must be equipped with a working carbon monoxide detection system, unless it is located in a school facility that complies:

- (1) With the school facility standards adopted by the commissioner of education under the Education Code, §46.008 [High]; or
- (2) With standards adopted by the board of a local school district that are similar to those described in paragraph (1) of this section. [High]

Technical Assistance
Proper venting of heating equipment can prevent accumulation of carbon monoxide gas inside a building. Carbon monoxide is a colorless, odorless, poisonous gas formed when heating units that burn fuel with a flame do not have a sufficient source of combustion air. Carbon-containing fuel that is not burned completely can cause asphyxiation.

§746.5533. What type of carbon monoxide detection system must I install?

Subchapter W, Fire Safety and Emergency Practices

Division 6, Carbon Monoxide Detection Systems

January 2004

You must install:

- (1) Individual electric (plug-in or hardwire) or battery-operated carbon monoxide detectors that meet Underwriters Laboratories Inc. requirements (UL-Listed) [Medium-High]; or
- (2) An electronic carbon monoxide detection system connected to an electronic alarm/smoke detection system that is UL-Listed. [Medium-High]

§746.5535. How many carbon monoxide detectors must be installed in my child-care center?

Subchapter W, Fire Safety and Emergency Practices

Division 6, Carbon Monoxide Detection Systems

January 2004

- (a) If you use electric or battery-operated carbon monoxide detectors:
 - (1) At least one detector must be installed on every level of each building in the child - care operation [Medium-High]; and
 - (2) The detector(s) must be installed in compliance with the state or local fire marshal's instructions. [Medium-High]
- (b) If you use an electronic carbon monoxide detection system connected to an alarm/smoke detection system, the system must be installed according to the state or local fire marshal's instructions. [Medium-High]

Technical Assistance

If your state or local fire marshal does not inspect your operation or does not have specific requirements for installation of carbon monoxide detectors, follow the manufacturer's instructions for proper location and installation of detectors.

§746.5537. How often must I inspect and service the carbon monoxide detection system?

Subchapter W, Fire Safety and Emergency Practices

Division 6, Carbon Monoxide Detection Systems

January 2004

- (a) If you use electric or battery-operated carbon monoxide detectors, you must:
 - (1) Install a new battery in each battery-operated detector at least annually [Medium-High];
 - (2) Test all detectors monthly [Medium-High];
 - (3) Document the date of the test, date of installation of new batteries, and the name of the employee who does the testing and installment of new batteries [Medium-High]; and
 - (4) Keep this documentation at the center for review during hours of operation. [Medium-High]
- (b) If you use an electronic carbon monoxide detection system connected to an alarm/smoke detection system, you must:

- (1) Ensure the system monitoring company or the state or local fire marshal tests the system at least annually [Medium];
- (2) Keep the most recent inspection report at the child-care center for review during hours of operation [Medium-High];
- (3) Ensure the report includes the date of the inspection and the inspector's name and telephone number [Medium]; and
- (4) Make any corrections required in the report. [Medium-High]

Subchapter X, Transportation

§746.5601. What types of transportation does Licensing regulate?

Subchapter X, Transportation

September 2003

We regulate any transportation provided by or for the child-care center, including but not limited to, transportation between home and school, between school and the child-care center, the child-care center and home, the child-care center or school and field trip locations or other drop off locations, authorized by the parent.

§746.5603. What type of vehicle may I use to transport children?

Subchapter X, Transportation

December 2010

- (a) We do not regulate the type of vehicle you use to transport children, although we recommend that you check with the Texas Department of Motor Vehicles or refer to the federal motor vehicle safety standards regulating transportation to and from school and your operation.
- (b) For the purpose of this chapter, we categorize vehicle types as:
 - (1) General purpose vehicle – a passenger vehicles as defined in the Texas Transportation Code §545.412, and buses that do not meet the federal motor vehicle safety standards for school buses or multi-function school activity buses (MFSAB);
 - (2) Small school bus – school buses and MFSABs that meet federal motor vehicle safety standards for school buses and MFSABs respectively and have a gross vehicle weight rating (GVWR) of 10,000 pounds or less; and
 - (3) Large school bus – school buses and MFSABs that meet federal motor vehicle safety standards for school buses and MFSABs respectively and have a GVWR of greater than 10,000 pounds.
- (c) All vehicles must be maintained in safe operating condition at all times. [Medium-High]

§746.5605. What safety precautions must I take when loading and unloading children from the vehicle?

Subchapter X, Transportation

December 2010

You must take the following precautions when loading and unloading children from any vehicle, including any type of bus:

- (1) You must load and unload children at the curbside of the vehicle or in a protected parking area or driveway. [High]
- (2) You must not allow a child to cross a street unless the child is accompanied by an adult anytime before entering or after leaving a vehicle. [High]
- (3) You must account for all children exiting the vehicle before leaving the vehicle unattended. [High]
- (4) You must never leave a child unattended in a vehicle. [High]

Technical Assistance

There are several things your program may do to ensure all children are accounted for when exiting a vehicle:

- Use the list of children to verify each child by name
- Walk and check the inside of the vehicle, both in and under each seat
- Have a second person check the vehicle
- Have a visual reminder such as a sticker, keychain, hangtag that helps you do the walkthrough
- There are products that you may purchase and install that makes a noise when the vehicle is turned off and until you hit the off button at the back of the vehicle.

§746.5607. What child passenger safety seat system must I use when I transport children?

Subchapter X, Transportation

March 2023

- (a) You must use a child passenger safety seat system to restrain a child when transporting the child [Medium-High]. The restraint system:
 - (1) Must meet the federal standards for crash-tested systems as set by the National Highway Traffic Safety Administration [Medium-High]; and

(2) Must be properly secured in the vehicle according to manufacturer's instructions [Medium-High].

(b) You must use child safety seats and child booster seats that have not expired or been damaged or involved in an accident [Medium-High].

(c) You must secure each child in an infant only rear-facing child safety seat, rear-facing convertible child safety seat, forward-facing child safety seat, child booster seat, safety vest, harness, or a safety belt, as appropriate to the child's age, height, and weight according to manufacturer's instructions for all vehicles specified in subsection (e) of this section, unless otherwise noted in this subchapter.

(d) A child 12 years old or younger must not ride in the front seat of a vehicle. [Medium-High]

(e) The following safety restraint devices for a child must be used when the vehicle is on and during all times when the vehicle is in motion [High].

Figure 26 TAC §746.5607(e)

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(1) An infant or toddler through at least 2 years of age	All vehicles	A rear-facing only child safety seat or a convertible child safety seat used rear facing for as long as possible, until the child reaches the highest weight or height allowed by the child safety seat manufacturer

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(2) 2 years of age and older and within the weight and height limit of the rear or forward-facing child safety seat	All vehicles	A rear or forward-facing child safety seat with a harness for as long as possible, until the child reaches the highest weight or height allowed by the child safety seat manufacturer
[High]	(3) 4 years of age and within the weight and height limit of the forward-facing child safety seat	(A) General purpose vehicle and small school bus	A forward-facing child safety seat with a harness, a safety vest, or harness according to the manufacturer's instructions
[High]	(3) 4 years of age and within the weight and height limit of the forward-facing child safety seat	(B) Large school bus	A safety restraint system according to the vehicle manufacturer's instruction

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(4) 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, and is less than 4 feet, 9 inches in height; or 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, and is 4 feet, 9 inches in height or taller, but cannot be properly secured by the lap and shoulder portions of the vehicle safety belt	(A) General purpose vehicle	A belt-positioning booster seat, safety vest, or harness according to the manufacturer's instructions
[High]	(4) 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, and is less than 4 feet, 9 inches in height; or 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, and is 4 feet, 9 inches in height or taller, but cannot be properly secured by the lap and shoulder portions of the vehicle safety belt	(B) Small school bus	A properly fitting safety belt anywhere the child sits in the vehicle

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(4) 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, and is less than 4 feet, 9 inches in height; or 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, and is 4 feet, 9 inches in height or taller, but cannot be properly secured by the lap and shoulder portions of the vehicle safety belt	(C) Large school bus	A safety restraint system according to the vehicle manufacturer's instruction
[High]	(5) 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, can be properly secured by the lap and shoulder portions of the vehicle safety belt, and is 4 feet, 9 inches in height or taller	(A) General purpose vehicle and small school bus	A properly fitting safety belt anywhere the child sits in the vehicle

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(5) 4 through 7 years of age, has outgrown the weight or height limit of the forward-facing child safety seat, can be properly secured by the lap and shoulder portions of the vehicle safety belt, and is 4 feet, 9 inches in height or taller	(B) Large school bus	A safety restraint system according to the vehicle manufacturer's instruction
[High]	(6) 8 through 12 years of age, and is less than 4 feet, 9 inches in height; or 8 through 12 years of age and is 4 feet, 9 inches in height or taller, but cannot be properly secured by the lap and shoulder portions of the vehicle safety belt	(A) General purpose vehicle	A belt-positioning booster seat, safety vest, or harness according to the manufacturer's instructions
[High]	(6) 8 through 12 years of age, and is less than 4 feet, 9 inches in height; or 8 through 12 years of age and is 4 feet, 9 inches in height or taller, but cannot be properly secured by the lap and shoulder portions of the vehicle safety belt	(B) Small school bus	A properly fitting safety belt anywhere the child sits in the vehicle

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(6) 8 through 12 years of age, and is less than 4 feet, 9 inches in height; or 8 through 12 years of age and is 4 feet, 9 inches in height or taller, but cannot be properly secured by the lap and shoulder portions of the vehicle safety belt	(C) Large school bus	A safety restraint system according to the vehicle manufacturer's instruction
[High]	(7) 8 through 12 years of age, can be properly secured by the lap and shoulder portions of the vehicle safety belt, and is 4 feet, 9 inches in height or taller	(A) General purpose vehicle and small school bus	A properly fitting safety belt anywhere the child sits in the vehicle
[High]	(7) 8 through 12 years of age, can be properly secured by the lap and shoulder portions of the vehicle safety belt, and is 4 feet, 9 inches in height or taller	(B) Large school bus	A safety restraint system according to the vehicle manufacturer's instruction
[High]	(8) 12 through 14 years of age	(A) General purpose vehicle and small school bus	A properly fitting safety belt anywhere the child sits in the vehicle;

Weight:	If the child is...	Being transported in this type of vehicle as specified in §746.5603(b) of this title (relating to What type of vehicle may I use to transport children?)...	Then the child must be secured in...
[High]	(8) 12 through 14 years of age	(B) Large school bus	A safety restraint system according to vehicle manufacturer's instruction.

Technical Assistance

The American Academy of Pediatrics recommends that all infants and toddlers ride in a rear-facing child safety seat for as long as possible, until they reach the highest weight or height allowed by the child safety seat manufacturer.

A safety belt is properly fitted if the lap portion of the belt fits low across the hips and pelvis and the shoulder portion fits across the middle shoulder and chest.

Height and weight requirements for a child safety seat may vary depending on the brand of safety seat. To determine the type of safety restraint a child must use based on the child's height or weight, the child-care center must consult and follow the manufacturer specifications for whichever rear-facing, convertible, or forward-facing safety seat the center uses. This information can typically be found on the car seat or by referencing the manufacturer's website.

§746.5609. Must caregivers and/or the driver wear a safety belt?

Subchapter X, Transportation

December 2010

- (a) The driver must be properly restrained by a safety belt before starting the vehicle and at all times the vehicle is in motion. [Medium-High]
- (b) All adult passengers in a vehicle transporting children, other than a large school bus, must be properly restrained by safety belts. [Medium-High]

Technical Assistance

Studies indicate the use of restraint devices while riding in a vehicle reduces the likelihood of a passenger involved in a vehicle crash suffering serious injury or death.

§746.5611. May parents provide the safety seat equipment required for their child?

Subchapter X, Transportation

September 2003

Yes. Parents may provide the safety seat system for use in transporting their child, provided the equipment is appropriate and can be properly secured in the vehicle. You must use the equipment according to manufacturer's instructions. [Medium-High]

Technical Assistance

Safety restraints are effective in reducing death and injury when they are used properly. According to the American Academy of Pediatrics (AAP), the best car safety seat is one that fits in the vehicle being used, fits the child being transported, has never been in a crash, and is used correctly every time.

§746.5613. May I place more than one person in each safety belt?

Subchapter X, Transportation

September 2003

No. Only one person may use each safety belt. [Medium-High]

§746.5615. May a child ride in a safety belt with a shoulder harness?

Subchapter X, Transportation

September 2003

A child may ride in a safety belt with a shoulder harness if the shoulder harness goes across the child's chest and not across the child's face or neck. The lap belt should fit low across the child's thighs or top of the legs and not across the child's stomach area. Never put a shoulder belt under the child's arm or behind the child's back. If the lap belt and shoulder harness do not fit properly, a booster seat must be used. [High]

§746.5617. Must I carry specific equipment in vehicles used to transport children in my care?

Subchapter X, Transportation

September 2003

(a) You must have the following in each vehicle you use to transport children:

- (1) A list of the children being transported [High];
- (2) Emergency medical transport and treatment authorization forms for each child being transported [High];
- (3) The child-care center's name, child-care center director or permit holder's name, and child-care center telephone number in the glove compartment or clearly visible inside the passenger compartment, or the child-care center's name and telephone number must be clearly visible on the outside of the vehicle [Medium - High];
- (4) Parent's names and telephone numbers and emergency telephone numbers for each child being transported [High];
- (5) A fire extinguisher approved by the local or state fire marshal, secured in the passenger compartment and accessible to the adult occupants [High]; and
- (6) A first-aid kit as specified in §746.4003 of this title (relating to What items must each first-aid kit contain?). [High]

(b) The driver must have a current driver's license. [High]

Technical Assistance

- Caregivers can respond promptly in emergency situations when they have the proper equipment and necessary telephone numbers in the vehicle.
- The contents of first aid kits deteriorate quickly when exposed to long-term high temperatures common in vehicles and we recommend they be checked and updated often.

§746.5619. Must I have a plan to handle transportation emergencies?

Subchapter X, Transportation

September 2003

Yes. You must ensure the driver/caregivers have clear instructions in handling emergency breakdowns and accidents, including vehicle evacuation procedures, supervision of the children, and contacting emergency help. The director or designee in charge of the child-care center must know what action to take in responding to a transportation emergency call. [Medium-High]

§746.5621. What communication requirements are there for a vehicle used to transport children?

Subchapter X, Transportation

April 2017

When transporting children in a vehicle:

- (1) The vehicle must have a communications device such as a cellular phone or two-way radio [Medium-High]; or
- (2) A caregiver at the child-care center must know the routine arrival and departure times of the vehicle and take action if the vehicle does not return to the child-care center at a scheduled time. The driver must travel a known fixed route within an approximate timeframe. [Medium-High]

§746.5623. What is an electronic child safety alarm?

Subchapter X, Transportation

March 2014

An electronic child safety alarm is an alarm system installed in a vehicle. The alarm prompts the driver of a vehicle to inspect the vehicle to determine whether children are in the vehicle before the driver exits the vehicle.

§746.5625. When and how must I install and use an electronic child safety alarm in a vehicle?

Subchapter X, Transportation

March 2023

- (a) You must ensure that a vehicle purchased or leased on or after December 31, 2013, is equipped with an electronic child safety alarm if:
- (1) The vehicle is designed to seat eight or more persons [High]; and
 - (2) Your operation uses the vehicle to transport children in care. [High]
- (b) You are responsible for ensuring that the alarm is installed and maintained according to the manufacturer's instructions. [High]
- (c) The alarm must be used at all times whenever a vehicle describe in subsection (a) of this section is used to transport a child in care. [High]
- (d) The driver of the vehicle or a designated employee must complete the following tasks before disabling the alarm from the rear of the vehicle:
- (1) Verify that all children have been accounted for [High]; and
 - (2) Conduct a physical walk-through and visual check of the vehicle, including the seats, seat rows, and interior, to ensure no children remain in the vehicle [High].

Technical Assistance

The electronic child safety alarm must not be disabled by a child. Only the driver or designated employee may disable the alarm.

Electronic child safety alarms improve the safety of children in vehicles because they are designed to require a designated adult to walk through the vehicle to disable the alarm while conducting a visual check of the vehicle from front to back. This extra step helps ensure no child, especially a sleeping child, is left in the vehicle.

§746.5627. What documentation must I keep at the child-care center for each vehicle used to transport children in care?

Subchapter X, Transportation

March 2014

You must keep documentation at your child-care center that shows when your center first purchased or leased a vehicle unless it:

- (1) Is equipped with an electronic child safety alarm [Medium]; or
- (2) Is not designed to seat eight or more persons. [Medium]

Appendix I: Definitions

Texas Administrative Code, Title 40 Social Services and Assistance Part 19, Texas

Department of Family and Protective Services

Chapter 745, Licensing Subchapter A. Precedence and Definitions Division 3.

Definitions for Licensing

§745.21. What words must I know to understand this subchapter?

The following words and terms, when used in this chapter, have the following meanings unless the context clearly indicates otherwise:

- (1) Abuse – As defined in the Texas Family Code, §261.401(1) (relating to Agency Investigation) and §745.8557 of this title (relating to What is abuse?).
- (2) Affinity – Related by marriage as set forth in the Government Code, §573.024 (relating to Determination of Affinity).
- (3) Capacity – The maximum number of children that a permit holder may care for at one time.
- (4) Caregiver – A person whose duties include the supervision, guidance, and protection of a child or children.
- (5) Child – A person under 18 years old.
- (6) Child-care facility – An establishment subject to regulation by Licensing which provides assessment, care, training, education, custody, treatment, or supervision for a child who is not related by blood, marriage, or adoption to the owner or operator of the facility, for all or part of the 24-hour day, whether or not the establishment operates for profit or charges for its services. A child-care facility includes the people, administration, governing body, activities on or off the premises, operations, buildings, grounds, equipment, furnishings, and materials. A child-care facility does not include child-placing agencies, listed family homes, or employer-based child care.
- (7) Child day care – As defined in §745.33 of this title (relating to What is child day care?).

- (8) Child-placing agency (CPA) – A person, including an organization, other than the parents of a child who plans for the placement of or places a child in a child-care operation or adoptive home.
- (9) Children related to the caregiver – Children who are the children, grandchildren, siblings, great-grandchildren, first cousins, nieces, or nephews of the caregiver, whether by affinity or consanguinity or as the result of a relationship created by court decree.
- (10) Consanguinity – Two individuals are related to each other by consanguinity if one is a descendant of the other; or they share a common ancestor. An adopted child is considered to be related by consanguinity for this purpose. Consanguinity is defined in the Government Code, §573.022 (relating to Determination of Consanguinity).
- (11) Contiguous operations – Two or more operations that touch at a point on a common border or located in the same building.
- (12) Controlling person – As defined in §745.901 of this title (relating to Who is a controlling person at a child-care operation?).
- (13) Deficiency – Any failure to comply with a standard, rule, law, specific term of your permit, or condition of your evaluation, probation, or suspension.
- (14) Designated perpetrator – As defined in §745.731 of this title (relating to What are designated perpetrators and sustained perpetrators of child abuse or neglect?).
- (15) Division – The Licensing Division within the Texas Department of Family and Protective Services (DFPS).
- (16) Employee – Any person employed by or that contracts with the permit holder, including but not limited to caregivers, drivers, kitchen personnel, maintenance and administrative personnel, and the director.
- (17) Endanger – To expose a child to a situation where physical or mental injury to a child is likely to occur.
- (18) Exploitation – As defined in the Texas Family Code, §261.401(2) (relating to Agency Investigation).
- (19) Finding – The conclusion of an investigation or inspection indicating compliance or deficiency with one or more minimum standards or laws.

- (20) Governing body – The entity with ultimate authority and responsibility for the operation.
- (21) Governing body designee – The person named on the application as the designated representative of a governing body who is officially authorized by the governing body to speak for and act on its behalf in a specified capacity.
- (22) Household member – An individual, other than the caregiver(s), who resides in an operation.
- (23) Kindergarten age – As defined in §745.101(1) of this title (relating to What words must I know to understand this subchapter?).
- (24) Licensed administrator – As defined in §745.8905 of this title (relating to What is a licensed administrator?).
- (25) Military service member – A person who is currently serving in the armed forces of the United States, in a reserve component of the armed forces of the United States, including the National Guard, or in the state military service of any state.
- (26) Military spouse – A person married to a military service member who is currently on active duty.
- (27) Military veteran – A person who has served in the army, navy, air force, marine corps, or coast guard of the United States, or in an auxiliary service of one of those branches of the armed forces.
- (28) Minimum standards – The rules contained in Chapters 743 of this title (relating to Minimum Standards for Shelter Care, 744 of this title (relating to Minimum Standards for School-Age and Before or After-School Programs), 746 of this title (relating to Minimum Standards for Child-Care Centers), 747 of this title (relating to Minimum Standards for Child-Care Homes), 748 of this title (relating to General Residential Operations), 749 of this title (relating to Child-Placing Agencies), 750 of this title (relating to Independent Foster Homes), and Division 11 (relating to Employer- Based Child Care) of Subchapter D of this chapter (relating to Application Process), which are minimum requirements for permit holders that are enforced by DFPS to protect the health, safety and well-being of children.
- (29) Neglect – As defined in the Texas Family Code, §261.401(3) (relating to Agency Investigation) and §745.8559 of this title (relating to What is neglect?).

- (30) Operation – A person or entity offering a program that may be subject to Licensing’s regulation. An operation includes the building and grounds where the program is offered, any person involved in providing the program, and any equipment used in providing the program. An operation includes a child-care facility, child-placing agency, listed family home, or employer-based child care.
- (31) Parent – A person that has legal responsibility for or legal custody of a child, including the managing conservator or legal guardian.
- (32) Permit – A license, certification, registration, listing, compliance certificate, or any other written authorization granted by Licensing to operate a child-care facility, child-placing agency, listed family home, or employer-based child care. This also includes an administrator’s license.
- (33) Permit holder – The person or entity granted the permit.
- (34) Pre-kindergarten age – As defined in §745.101(2) of this title (relating to What words must I know to understand this subchapter?).
- (35) Program – Activities and services provided by an operation.
- (36) Regulation – The enforcement of statutes and the development and enforcement of rules, including minimum standards. Regulation includes the licensing, certifying (both state run and employer-based operations), registering, and listing of an operation or the licensing of an administrator.
- (37) Report – An expression of dissatisfaction or concern about an operation, made known to DFPS staff, that alleges a possible violation of minimum standards or the law and involves risk to a child/children in care.
- (38) Residential child care – As defined in §745.35 of this title (relating to What is residential child care?).
- (39) State Office of Administrative Hearings (SOAH) – See §745.8831 and §745.8833 of this title (relating to What is a due process hearing? and What is the purpose of a due process hearing?).
- (40) Sustained perpetrator – See §745.731 of this title (relating to What are designated perpetrators and sustained perpetrators of child abuse or neglect?).

Appendix II, Vaccine-Preventable Diseases

This guide is intended to provide you with more information to assist in the development and implementation of a vaccine-preventable disease policy for your program.

What must the policy for protecting children from vaccine-preventable diseases include?

Your operation is responsible for developing a policy that includes all areas addressed in §746.3611.

How will Licensing evaluate for compliance?

Licensing will review your program's policy to ensure that it covers each of the eight required areas. Licensing staff will ensure that your operation outlines how you will maintain either written or electronic records for each employee's compliance with your policy as well as any exemptions. We will not evaluate based on the content of each policy item.

What would be an example of how licensing will evaluate my operation's compliance with the new rule?

The new rule requires you to specify any vaccines that you have determined an employee must have based on the level of risk the employee presents. Licensing staff will review your policy to ensure you have specified any vaccines an employee must have. For example, if your policy outlines that all employees must only obtain a flu vaccine once every 12 months then we would only review compliance with the employee's requirement to obtain a flu vaccine.

What immunizations are recommended for adults?

The Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention (CDC) develops the recommendations and they are listed on the CDC website at <http://www.cdc.gov/vaccines/schedules/downloads/adult/adult-schedule.pdf>

Do I have to require employees to obtain all immunizations recommended by the CDC?

No, employees at your program will only need to obtain immunizations that are required in your policy. It is up to you to determine what immunizations will be required and which employees are required to obtain them based on their level of risk as determined by their routine and direct exposure with children.

How do I determine an employee's level of risk?

An employee's level of risk is determined by the policy you develop. The basis for determining an employee's level of risk must be outlined in your policy and must be based on the employee's routine and direct exposure to children. Items to consider when you develop policy include:

- What are the employee's primary duties?
- How closely does the employee work with children? (For example, does the employee change diapers, assist with toileting, prepare or serve food)
- How often does the employee work with children? (Regular contact vs. substitute basis)
- What are the ages of children the employee works with?

Can an employee be exempt from immunizations that my program's policy requires?

Yes, an employee may be exempt from one or more of your program's required immunizations for:

- Medical conditions identified as contraindications or precautions by the CDC; or
- Reasons of conscience, including a religious belief.

What procedures must an employee follow to be exempt from having a required vaccine?

Your policy must address exemption procedures an employee must follow in order for you to determine the employee's qualification of an exemption.

What are some examples of acceptable documentation for exemptions?

- For medical conditions, acceptable documentation may include a note from the employee's health care professional providing a statement that the required vaccine is medically contraindicated or poses a significant risk to the health and well-being of the individual.
- For reasons of conscience, acceptable documentation may include a signed and dated statement from the employee that states the employee is exempt for reasons of conscience, including the person's religious beliefs.

What are some examples of procedures that an exempt employee must follow to protect children in care from exposure to disease?

It is up to your operation to determine what and when protective procedures will be required. Examples of protective procedures include:

- Wearing gloves when handling or cleaning body fluids, such as after wiping noses, mouths, or bottoms, and tending sores;
- Specifying that an employee with open wounds and/or any injury that inhibits hand washing, such as casts, bandages, or braces, must not prepare food or have close contact with children in care;
- Wearing masks when the employee has respiratory symptoms to reduce the spread of droplets to surrounding areas;
- Wearing masks when taking care of children with respiratory symptoms;
- Removing gloves and washing hands immediately after each task to prevent cross-contamination to other children;
- Excluding the employee from direct care when the employee has signs of illness.

How can I determine that an employee has complied with my operation's policy?

You must specify in your policy how you will verify that an employee has complied with your policy. This must include what written and/or electronic documentation you will accept.

Examples of documentation may include:

- Copy of the employee's current immunization record;
- Receipt that includes date a required immunization was received;
- Letter signed by a health care professional that lists the date an immunization was received;
- Documentation of exemption for medical reasons from a health care professional;
- Signed and dated statement from the employee for exemption based on a reason of conscience.

Where can my employees get the recommended immunizations?

Individuals should start with their health care provider. Other resources in your area include pharmacies, the health department, and public or community health clinics. For a list of local health departments in Texas visit the Texas Department of State Health Services (DSHS) website at: <http://www.dshs.state.tx.us/regions/lhds.shtm>

Are there any other resources available for employees to receive the recommended immunizations?

Yes, the Adult Safety Net program created by The Texas Department of State Health Services (DSHS) to increase access to vaccination services in Texas for uninsured adults.

What is the Adult Safety Net program?

The Adult Safety Net (ASN) program provides vaccine purchased with public funds to participating clinics to be used for immunizing uninsured adults.

How do I find an Adult Safety Net provider in my area?

Visit the ASN website at www.dshs.state.tx.us/ASN and click on the search page to locate an ASN clinic near you. (Please check with the clinic before visiting to make sure they can see you.)

Who is eligible to receive vaccinations from the ASN program?

Adults ages 19 years and older that do not have health insurance are eligible to receive ASN vaccines.

Who is not eligible to receive ASN vaccines?

Individuals who do not qualify for ASN vaccines include:

- Adults who have Medicare, Medicaid, or any other insurance, including private insurance.
- Adults who are underinsured for adult vaccines (e.g., those who have healthcare insurance that does not cover adult vaccines).
- Individuals younger than 19 years of age.

What vaccines are offered through the ASN program?

The following is a list of vaccines currently offered through the ASN program and a description of the diseases they prevent.

- Hepatitis B Vaccine — prevents infection of the liver by the hepatitis B virus, which can lead to liver cancer, cirrhosis of the liver, liver failure, and death.
- Hepatitis A Vaccine — prevents infection of the liver by the hepatitis A virus. Symptoms of hepatitis A include lack of energy, diarrhea, fever, nausea and jaundice (yellow color to the whites of the eyes or skin).
- Hepatitis A and Hepatitis B Combination Vaccine—see above.
- Human Papillomavirus (HPV) Vaccine — prevents infection from several strains of HPV, including those that cause genital warts and several types of cancer, such as cervical, anal, penile, and throat cancer.
- Measles/Mumps/Rubella (MMR) Vaccine — prevents infection from the measles virus, which can lead to rash, ear infection, brain damage, and death. Prevents infection from the mumps virus, which can cause fever, swollen glands, headache, and can lead to deafness and meningitis. Prevents infection from rubella virus, which can cause rash, arthritis, and miscarriage in pregnant women.
- Pneumococcal Polysaccharide (PPSV23) Vaccine — prevents infection by the *Streptococcus pneumoniae* bacterium, which is one of the most common causes of severe pneumonia and can lead to other types of infections, such as ear infections, sinus infections, meningitis (infection of the lining of the brain and spinal cord), and blood stream infections (bacteremia).
- Tetanus, Diphtheria, and Pertussis (Tdap) Vaccine — prevents tetanus, which can cause muscle spasms, lockjaw, paralysis, and death. Prevents diphtheria, which can cause suffocation and heart failure. Prevents pertussis (known as “whooping cough”), which can cause severe coughing that can lead to rib fractures, pneumonia, and death. The CDC recommends* one dose for all pregnant women during every pregnancy and all other adults who have not yet received Tdap vaccination, especially those who come in contact with infants.
- Tetanus and Diphtheria (Td) Vaccine — similar to Tdap vaccine (see above), but protects against tetanus and diphtheria only, without the pertussis component.

If I qualify for ASN vaccine, do I have to pay anything?

ASN vaccines are supplied to participating medical providers at no cost. This means that ASN providers cannot charge a fee for the vaccine itself. However, providers are allowed to charge an administration fee of up to \$25 for each vaccine that is administered. Although ASN providers may charge this administration fee, they cannot deny the vaccine because of an inability to pay it.
